A Correspondent Gives a Graphic Account

of a Trip on the Ocean. Logan, U S Army Transport Service Bonner G. Marsh, A. M.

The governmet has four of these transports that make regular trips from San Francisco to Manilla These steamers carry everything needed for army and other employees of the thousands of soldiers and civilians sometimes in great storms, and not one life has been lost, we wonder and admire the wisdom and success of our government and the skill and faithful service of the officers and men who manage and direct these

in New York in 1899. Her bottom aroulating air. The ship is entirely age question entirely. shop where all tools and machinery

Every day at noon a reckoning is made and a notice is put up in the large smoking saloon giving the ex-act distance travelled during the last twenty-four hours, the latitude, longitude and the temperature of the air and water.

A heat comfortable nospital wensupplied with uccessary appliances, a regular physician and a trained nurse are always ready to take care of the sick. If any person should die aboard the ship there are neat caskets always ready to receive the body and preserve and take it back to the United States, the home of the

deceased.

The dinning room is large enough for one hundred guests at one sitting. The fare is excellent and all the officers and switers are kind, polite and attentive. This boat has about all the comforts and conveniences of any of the main liners. Breakfast is served at 8, coffee at 6 and lunch is served at 8, conce at 6 and funch at noon and supper at 6. Every-body has an appetite above normal till the high waves, and the rolling ship begin to dispute with the gas-tric repository its right to its unwel-comed contents. Then the chairs at tric repository its right to its unwel-comed contents. Then the chairs at the diming table are vacant. No-body dies but several get mar the border land. When the storm is over and the heavings have ceased, you feel convalencent and more hope-ful. After this novel experience the guests are seen to approach the table more cautiously.

THE OCEAN. Unless there is a storm there is not much to be seen except the sky above and the "dark and deep blue ocean" below. There may be a tray whale or two or a few white gulls, but away out on the wide sea, these are soon gone and seen no more.

All the passengers seem to "pair off" naturally by social gravity. There in one corner upon the unper

off maturally by section gravity.
There in one corner upon the upper deck we find some straight backed officer of the army, young and full of ambition, telling some black eyed stenographer his full experience at West Point, or how he rushed up San Juan Hill in Cuba or soaked in mud and water in the trenches San Juan Hillin Calsac seaked in the trenches and and water in the trenches ame disease while listening to his weet troubles and wants to know in what part of Islands he will be stationed and in what proving the best health. Pretty soon you hear in another part of the high the piano going at lightning speed. There sits some imbertongued bookkeeper or arrevore singly some well known air of his hip the piano going at lightning speed. There is no some proving the proving the proving the proving the proving some well known air of his hip the piano going at lightning speed. There is no some proving the proving the proving the proving some well known air of his hip the piano going at lightning speed. There is no some was that they are hand to have the proving the provin
