

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty. If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmier's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

Sam Jones Writes on Blind Tigers—Says Georgia has Suffered from Liquor Traffic.

A citizen that approves blind tigers is infamous—a citizenship that tolerates them is cowardly. They are lawless, disputable, low-flying, and without excuse in any community except as they may be patronized and apologized for by the dirtiest and most degenerate of men.

I have no tolerance for a blind tiger, no respect for the dirty devil that will buy their liquor, and a contempt for the dirty wholesale dealer that slip it into town at the bid and call of blind tigers. A dirty scoundrel that will run a blind tiger will do anything this side of perdition to feed his greed and fill his pockets, and 99 per cent of the dirty rascals who buy blind tiger liquor will go into the courthouse and swear a lie as black as damnation about it, and the wholesale liquor dealer will ship whiskey promiscuously into a dry town, not knowing or caring whether it is for a blind tiger or not, as is meant as the rascal that sells it and as unreliable as the scoundrel that buys it.

Do You Want Strength?

If you want to increase your strength you must add to and not take from the physical. In other words, the food that you eat must be digested, assimilated and appropriated by the nerves, blood and tissues before being expelled from the intestines. Kodol Dyspepsia Cure adds to the physical. It gives strength to and builds up strength in the human system. It is pleasant to the taste and palatable, and its only combination of digestants that will digest the food and enable the system to appropriate all its health and strengthening qualities. Sold by Standard Drug Co., J. T. Underwood.

Portrait of Robert E. Lee.

The fact that too frequently it transpires in American history that no accurate and authentic portrait of her great men is faithfully preserved has caused a number of the devoted admirers of General Robert E. Lee to interest themselves to cause a perfect picture of the great General to be made and to be preserved for all future history.

Faith Not Necessary.

You may be just as skeptical and pessimistic as you please. Kodol will digest what you eat whether you eat or not. You can put your food in a bowl, pour a little Kodol Dyspepsia Cure on it and it will digest the same as it will in your stomach. It can't help but cure indigestion and dyspepsia. It is curing hundreds and thousands—some had faith and some didn't. Kodol can cure you if medicine can cure you, whether you have faith in it or not. Sold by Standard Drug Co., J. T. Underwood.

Digging Potatoes.

Both sweet and Irish potatoes should be dug in October. It is best to dig sweet potatoes before frost, as they are easily affected by cold weather. The digging of Irish potatoes may be deferred until the latter part of the month. Both kinds should be dug when the ground is dry. The keeping of Irish potatoes through the winter in the south is not more difficult than to keep celery or parsnips or any other hardy root or tuber. All that is necessary is to heap them up and cover with a layer of soil five or six inches thick. It is not necessary to put grass or straw over them or to shield them from rains by a shelter. To keep sweet potatoes requires more care. They must not be kept where they are liable to be chilled by cold or to be subjected to a degree of heat above 70 degrees. Natural caves, where the temperature rarely varies from 62 degrees, will keep sweet potatoes for almost any length of time, provided the caves are not subject to varying degrees of humidity that will often cause mold with resulting decay. A cellar constructed so as to remain dry throughout the winter and to have no alterations of heat and cold greater than 20 degrees, and this between 50 and 70 degrees Fahrenheit, would be an ideal place for keeping sweet potatoes. In the Gulf States the growers of sweet potatoes have no difficulty in keeping them in the open fields by placing them in conical piles and covering them with soil. A shelter is usually built over the heaps to protect them against rains.—Southern Farm Magazine.

Indigestion, constipation, dyspepsia, kidney and liver disorders, and all stomach troubles positively cured by using HOLLISTER'S ROCKY MOUNTAIN TABLETS. 25 cents, Tea or Tablets, Asheville Drug Co.

The Delinquent for November.

With its new dress of color throughout the fashion and advertising sections, the November Delinquent presents a most attractive appearance. The Autumn fashions have a large place in the number, being illustrated and described in detail and interpreted by such authorities of dress as Helen Berkeley Lloyd and Edouard de Fontaine. The table of contents contains among its many features of interest, an article, the second of two, by Dr. William H. Maxwell, Superintendent of Schools, New York City, on "Education for Life through Living," which describes the routine of a great public school. "A Run in Ireland" is a delightful travel sketch by Sonias MacManis, the well-known Irish author. N. Hudson Moore writes of "Tables and Sideboards" in "The Collector's Manual," and "The Child's Dress" is the subject of Dr. Grace Peckham Murray's paper.

"The Romance of a Gospel Singer" is a timely contribution describing some interesting events in the life of Charles M. Alexander, the revivalist. The Lucky-Piece, Albert Bislow Paine's novel which has been running in the magazine is brought to an end in this number, and "At Spinsters Farm," by Helen M. Winslow is continued. A delightful story of boy life "The Evaluation of William Henry" is from the pen of Herminie Templeton. There is a great deal of interest and value to housewives in the department, and for the little folks stories and pastimes.
