Jumper Dresses; Light Material Even-ing Gowns; Dotted Net Dresses; Hair Dressing; Hair Ornaments; Flower Wreaths On Berthas.

The "jumper" waist is a god-send to the woman of moderate means, and now that a plaited skirt devoid of trimming (but of similar material) has been added, beauty and utility have joined hands. All the delicacy and freshness of the lingerie waist exists in the dainty lace yoke and sleeves, the latter being constructed on individual taste, or the resources of the wearer. Very light shades of silk, broadcloth and even panne velvet are made up into evening dresses of this style for home or theatre wear, but there the line is drawn—the "jumper dress" must not appear at a ball or full dress other circumstances scorn to earry not appear at a ball or full dress of the reircumstances scorn to earry not distributed with excellent effect on a dotted net skirt with draped waist of striped silk, and lace fichu crossed at the front.

This great semi-monthly farm paper goes twice every month into 50, southern homes, and the regular price is 50 cents per year. It is edited by southern men and women to suit southern conditions, and is drawn—the "jumper dress" must giving, and people who would under not appear at a ball or full dress other circumstances scorn to earry

The Stock Food Fraud--Warning Our Farmers Against a Common Swindle

The Raleigh Progressive Farmer prints a notable article exposing the stock food fraud, which it prosounces the most stupendous swindle now being practiced upon American farmers. Millions and millions of dollars are spent every year—averal thousand dollars a year perhaps in this very county—for gaudily adver-tised "stock foods", "condition pow-ders," etc., for farm animals, while dere, 'etc., for farm animals, 'thie the investigations and tests made by the Experiment Stations, have demonstrated that these preparations are nothing more than common heal bran, etc., with a little cheap sulphur, salt, Epsom salts, pepper, saltpeter, etc., added to change the taste, and the mixture (hardly more valuable than ordinary ship staff). valuable than ordinary ship state put up in flaming packages, adver-tised in big illustrated ads in farm papers, and sold to gullible farmers at rates ranging from \$250 to \$2,500

These stock foods, which can be found in almost any country store, have recently been tested in seven different Experiment Stations, and our farmers, who are paying such enormous prices for the mixtues, should be interested in the results as reported by The Progressive

and Manufacturers of McCall Patterns.

The Minnesoth steers without steek food gave better results than thise using the stock foods. In Kaisas two lots of sheep were fed, and those withoutstock foods made 117 pounds greater gain. In Massachusetti in the already over crowded street cars. Be it whisp red that every body in New York cannot afford a pound! Of nineteen experiment in chiffion, combinations of crepe-dechine and chiffion, fancy silks or nets covered with embroidery, and over elaboration is carried to McCall Patterns.
