Apart Cotton presses The Summer Resort of the from what might be called the great national demonstration of the sin-cerity of universal reconciliation, Shipping, WATER WORKS, ATLANTA, GA., September 25th, 1883 The engineer of the Water Works reports this morning that he has completed a 24 hour's test of the Jellico Mountain Coal. The test is as follows : Water pumped, 2787,200 gallons; Coal consumed, 12,000 pounds; water pumped to too pounds of coal, 21,006 gallons; water preasure maintained through test, 140 pounds; head, in feet, 323 to which the water was pumped; total number of pounds raised 323 feet, 25225,737,6; millions pounds raised one foot with too pounds coal, 75,079,122, which is more than the builders guaranteed the engines to do with the best coal. Mr. Terry reports only 760 pounds ashes taken out, and no clinker and that the fires were not cleaned during the whole 24 hours. From the result of the above test I must pro-nounce the J. M. an excellent steam coal. Respectfully, W. G. RICHARDS, Supt. Whiter Works. N. B.-Since the above test another has been made in which 28,775 \$ gallous water were raised to 100 pounds of coal, instead of 21,606 in the first test. This aboves an increase of over 7000 gallons over any other coal, a fact of itself worthy of note. W. G.
