Falstaff and Love in Clima to-night.

Dr. J. L. M. Curry will preach in the Baptist church at Morristown, Tenn., next Monday night.

Mr. R. A. L. Hyatt, of Waynesville, is in Asheville for a few days on important business.

Mr. Z. V. Chambers has the agency for Gen. Grant's book, and would be pleased to serve those wanting it.

Mr. D. C. Cunningham, Franklin, Macon county, advertises a fine farm for sale. It is near Franklin, one of the best sections of the State.

W. W. Cole employs a uniformed corps of bugle players who, on horseback, ride the surrounding country heralding the coming of the great shows and their marvelous features.

Rev. Dr. Pease and Miss Annie Aston left yesterday evening for High Point, to attend the annual Convention of the W. C. T. U.

We are pleased to meet Mr. Andrews, of Campbell county Virginia, in our city. He is prospecting for a good home, and has come to the right place to get it.

We are glad to see that Mr. R. L. Fitzpatrick, who has been sick for a number of weeks, is again enabled to attend to his business. Those wanting work in his line should remember this fact.

Misses Ferguson, daughter of Solicitor Ferguson, of Waynesville, and Maria Love, daughter of Capt. Matt Love, of the same place, arrived Tuesday, and have entered the College for this session.

In referring to Capt. Ben. Young's report of Col. Long's crops as published in the CITIZEN, the Greensboro *North State* says:

"We had in our last issue what we regarded as a good thing on Fishes and Liars. We surrender to crops this week."

This seems to imply some want of confidence in the statement as published in the CITIZEN, which shocks us greatly. The Editors of the *North State* surely could not have intended anything of the kind.

W. W. Cole is the wealthiest man in the show business. He is the sole owner of the colossal shows bearing his name, and his real estate holdings in Chicago are a source of large revenue. He is yet a young man, but has already made a circuit of the world with his mammoth enterprise, beside numerous seasons in this country, and always with flattering financial success. His profits last season were upwards of half a million.

ANOTHER SPECIAL PREMIUM.

Messrs. Hardwicke and Welles, of Marshall, offer a premium of $25 for the best wrappers cured by their heat regulator, exhibited at the Asheville Fair in October—$15 for the first and $10 for the second.

FROM TENNESSEE.

Among these who accompanied Prof. Summers from Tennessee to attend the College, we note Misses Bessie Harris, of Morristown, Addie Green, of Galbraith's Springs, Nora Keener and Lulie Thomas, of Arthurs, Minnie Alexander, of Claiborne, Nettie Tate, daughter of Gen. Tate, of Rutlege, Mary White, of Tazewell, Funkhouser, of Leadville, and Carrie Summers. There are a number of others from other sections of that State.

JUST RECEIVED.

Handsome styles in Corkscrew Sacks and Cutaways—the kind that everybody wants, and which consequently are hard to get later.

EDITOR'S CORRESPONDENCE.

BREVARD, N. C., Sept. 8, 1885.

Court convened yesterday morning at 10 o'clock, Judge Gudger, Solicitor Ferguson and the members of the Asheville bar having come over on Sunday. They were joined here by Mr. Kope Ellis from Franklin, and Messrs. Osborne, Jones, Smith and Posey of the Henderson bar. Thos. D. Johnston, Esq., is here, partly in a professional capacity, but mainly in his character of a new Congressional servant to assure his constituents how well he is going to serve them, and to give them proof of the wisdom of their choice.

The State docket is a small one, there being only fourteen cases upon it. It has however occupied the two days of the six constituting the term of the court the defendants being very stoutly cared for by their counsel. The offences are breaches of the moral Code, and offences of carrying concealed weapons. The Grand Jury has some crime of more gravity under investigation. One Galloway has been arrested and bound over for his appearance on the charge of burning a school house in Gloucester township some time ago. That charge is now being investigated.

It is very pleasant to see the fine effects of good and seasonable rains upon the crops. From Asheville to this point the eye is greeted with such corn as has not been seen in many years. The beautiful valley of Mill river seems a granary in itself, the Boilston valley through its whole length seems one vast field of corn, surpassed by the exuberant prospect along Davidson river.

In Buncombe and in Henderson, a good deal of tobacco is seen, and in fine condition. The acreage of this crop in Transylvania is small. Mr. Young tells me he has six acres in cultivation, which promises well; but this is the only example in this county, of any thing larger than a patch. There has been a surprising increase in the cultivation of Sorghum. Some farmers will make from 300 to 500 gallons of syrup. A. W. Connell, not far from Brevard has a field of ten acres. The cutting and boiling will begin next week. Several varieties of seed have been planted, all of which has a different period of maturity. The Liberian I believe is the earliest.

I noticed in Buncombe and the northern part of Henderson large fields of buckwheat, but none in this county along the road. There is much rye sowed in Transylvania for winter and early spring pasturage. Farmers sow from 40 to 100 acres. They are seeding now, and some crops are already up.

It is only a question of time when the No-Fence law will be adopted here. The sentiment of the people is steadily growing in favor of the adoption of such law. The fact that this market is not sought now as eagerly as it had been by South Carolina buyers of beef cattle, because they need not now go abroad for supplies owing to the improvement of stock under the operations of the fence laws is an argument that cannot fail in its forcible presentation of the question. Another argument has grown to have some weight. Of late many head of cattle have been killed in the range, whether as trespassers, or from malice cannot be known. But it suggests a danger that cannot be guarded against only in one way. Cattle must be kept under the eye of the owner.

I have seen little fruit here. It is too early for fine apples. The frost of the 10th of May did much injury to apples, I think the crop is a small one. Few peaches are to be seen. Grapes seem to thrive, though I have only seen what Jasper Orr was kind enough to present me. He brought me yesterday a section of vine about two feet long so thick set with bunches as to appear like one large cluster. The cluster weighed four and a half pounds and there was not a defective berry among the whole. It was the Concord grape. I have always thought this section peculiarly suited to the grape and the production of wine. Mr. Lucas from his vineyard succeeds in making a real and a very excellent wine.

It is very easy to appear extravagant in writing of Transylvania. It is surely a most beautiful country with its strong contrast of wild or majestic mountains and unbroken forest, and of broad and peaceful valley, margined with fine dwellings and well cared for farmsteads; with grain and grasses, and shrubbery and flowers and ever animated shade tree, and groupings of picturesque and stately white pine, which seems to delight as a transplanted tree in the soil of this and Henderson county; and then to these things may be added the large herds of cattle which are the wealth and the ornament of the valley farms.

The county is also rich in the picturesque scenery and in the number of objects in nature grand and beautiful. There are probably more waterfalls of beauty and of magnitude than in any other part of the mountains, and most of these are within a few miles of Brevard. Those on Little river, eight or ten miles away are perhaps the finest, as having the largest volume of water, and perhaps the highest falls. But quite as beautiful, while much nearer, are the Maiden Hair Falls, three miles away, Conestee Falls, eight miles (which I visit to-morrow,) Looking Glass Falls, up on Davidson's river, Toxaway Falls, and a number of others, the supplies of which come from high up in the Blue Ridge, the Balsam, and its offshoots, leaping out when half fledged from their rocky nests to sport themselves in the placid valleys below. It is the country for the tourist insearch of the beautiful and picturesque at the expense possibly of roughing it sometimes in somewhat sequestered recesses.

Besides the exuberance of vegetable nature in this country I have no question there will be much mineral treasure to reward research when the wilderness shall have been laid bare a little more. It is reasonable to expect that gold and other metals will be discovered besides mica, corundum, asbestos, &c. Latterly, a gold vein has been opened about a mile from the Courthouse, just beyond the farm of Mr. Lucas, and it is creating some excitement. Col. Clayton tells me of an old work he was familiar with in his younger days. It was a tunnel on the side of Little mountain, five miles north from here, run evidently in search of metal. It was run in to the depth of about 300 feet, and was the work of men using iron in excavating. Iron tools, or rather the fragments of iron furnaces were found. The work was done anterior to the settling up of the country by our people. Old people have a tradition of two people of dark complexion being the last to be seen lingering about the mountain. Evidently that same old story of Spanish search for gold.

Brevard has not grown much, but it is improving. Mr. McMinn has converted a store building on the main street into a very nice hotel, and has had a fair patronage this season. Mr. England has finished his house, and Mr. T. D. England is building another close by. Mr. Hampton has nearly completed his house, replacing the one burned last winter, and there are a few others under construction. Mr. P. S. King is building a store of rather unique material. It is a two story store, built of concrete, composed of mortar and pounded stone. The successive courses succeed each other as the one below becomes dry and hard. Each course is made by filling a temporary trough clamped on each side of the rising wall, filling with mortar, then turning in and mixing the broken rock, and holding in position until dry, which is in twelve hours. The walls are fourteen inches thick and seem solid and strong as stone. When the walls are up, the whole will be smooth-plastered and penciled in imitation of granite, and the structure is put up at small cost.

Mrs. Gash, with whom I am staying, as well as all the bar, makes us happy with her old timed hospitality and good and bountiful table, to which I am again ready to testify against certain counter evidence. Her house has been pleasantly filled with visitors here from South Carolina, a very pleasant party of whom still remain. C.

MORPHINE GETS IN MORE WORK.

Some weeks ago Mr. W. L. Rogers, of Prattsville, Alabama, accompanied by his wife, came to Asheville for his health, stopping at the Western Hotel. He was rapidly improving, and every hope was entertained for his permanent recovery. Tuesday night, feeling somewhat restless, he asked for a dose of morphine, which he was in the habit of taking, but asked that the dose be increased. He seemed to rest all night, but in the morning his wife calling him he seemed in a heavy stupor. Dr. Cain, the attending physician was sent for, and upon examination it was found he had taken too much morphine and all efforts to resuscitate him proved unavailing. At 1 p. m. the unfortunate man died. All deeply sympathize with his greatly bereaved wife and family. His remains were taken home yesterday,

A PLEASANT TRIP TO THE BLACK.

Mr. W. H. Ross of the Western Hotel returned this morning from a five days' camp on the Black Mountain. He was accompanied by Rev. E. B. Burroughs and Wm. Murphree, Esq., of St. Louis. They all had a pleasant trip—found plenty of small game—and the occasional howl of the wolf, heard from top of Potatoe Top, reminded them of the wilds of the far West.

COUNTRY HOMES

Is the title of a new twenty-four page paper to be published soon in this city by Mr. J. S. Tomlinson, to be devoted to Agricultural and Industrial pursuits, the Development of the Resources of the State and to all interests that tend to make home happy and prosperous. The following subjects will be treated at length in every issue: Farms, Farm Yards, Tobacco, Orchards, Vineyards, Gardens, Flowers, Live Stock, Poultry, Bees, Cattle and the Dairy. In addition to the above, ample space will be given to Crop Reports, News Items, Schools, Communications and the Home Circle. It will be published monthly, on good paper, clear type, for $1.00 per year. Mr. Tomlinson has been for years in the newspaper business, and will bring to bear a high intelligence and experienced judgement. Such a publication is a necessity to our section, and we trust may be well patronized. Address Mr. T. at Asheville.

JOHN JACK AS FALSTAFF TO-NIGHT—ANNIE FIRMIN AS PRINCE HAL.

To favor a number of patrons who have not seen this great performance, Mr. John Jack will repeat his splendid Shakespearian creation of Falstaff in the Comedy of that name. The very laughable farce of Love in Clima will close the entertainment, a great bill indeed for all true lovers of the drama. To-morrow Bulwer's beautiful love story of the Lady of Lyons. These are Mr. Jack's farewell performances and every body should attend.

OUR HORNED WORM.

The Greensboro *North State* thus refers to the *horned worm* brought to the CITIZEN office by Mr. G. M. Roberts:

"That's it. Only a specimen of an infant democratic revenue officer. The woods will soon be full of them. The biblical number of horns for a revenue officer has been changed since the decision of the electoral commission. Eight beats seven. Everybody ought to know that."

WAKE COURT AND JUDGE CLARK.

The Raleigh *Register* says: "The two weeks' civil term of this court commenced on the 31st ult., with Judge Clark presiding. It can be safely said that every minute is used, and no time lost, as is shown by the unusual amount of work done. Over one hundred final judgments have been taken, besides numerous orders and other judicial work, a record unprecedented in the annals of our court history."

Our new Judges are winning golden opinions wherever they hold court, for high ability, and especially in their prompt, business way in conducting business and requiring others to do so. Let the good work proceed.

THE CITIZEN JOB OFFICE

Is one of the most complete offices in the State, and work of every kind will be done with as much neatness and despatch, and as cheap, as it can be done anywhere.

Carpets, Mattings, Squares, Rugs, Mats Oil Cloths, Lace Curtains, Cretonnes, Raw Silks, Turcopians, Table Damasks, Sheeting, Towels, Napkins, &c.
eodtf *H. REDWOOD & CO.*

When the band begins to play and the youth beauty and chivalry of the country go whirling through the gaities of the ball room, you may bet they have bought their dancing pumps at W. P. Weaver & Co.'s One Price Store. tf

NOTHING NEW.

Stall No. 4, Market House, to-morrow morning, will be well stocked with both beef and mutton of the best quality, which will be sold advantageously to purchasers. A call from the general public respectfully solicited.
tf. T. K. DAVIS, Prop'r.

Ladies' Prize medal skate at the skating Rink to-morrow-night. A large number of the lady skaters of the city will contest.

AN INJUNCTION

Has been sued out before Judge Gudger, for and on behalf of citizens of Black Mountain township, returnable before his Honor on the 24th, and requiring the County Commissioners to show cause why the enforcement of the No-Fence law shall not be estopped in the county of Buncombe.

THE ASHEVILLE TELEPHONE EXCHANGE.

Through the agency of Messrs. N. W. Girdwood and E. S. Aston, Asheville will soon enjoy the great, and necessary, benefits of a telephone exchange. Upon obtaining fifty subscribers, most of which have already been obtained, the exchange will be at once established. It is a long felt want, an absolute necessity, we might say, to the business interests of this city. We hope every business house, hotel and boarding house, and professional office will join the exchange. Parties desiring to enter can call on either Mr. Girdwood or Mr. Aston. Let us have it, and at once.

A BEAUTIFUL PRESENT.

Our friend, Mayor Aston, was agreeably surprised to receive by Express to day from Winston, a beautiful ebony cane surmounted by a heavy richly chased gold head upon which was engraved the words "Hon. E. J. Aston from his friend J. C. Buxton." The happy Mayor has been in a broad smile all day, and this means a smile sure enough.

MARRIED.

At the Western Hotel to-day at 3 o'clock p. m., Rev. Dr. Bays officiating, Jeff. Davis Hyatt, of Haywood, and Miss Mollie S. Young, of Buncombe. The happy couple leave for their home in Haywood in the morning.

MARRIED.

By Esquire A. T. Summey at his office in the CITIZEN building, this morning at 11:45 o'clock, Mr. A. J. Green and Miss Mary Jane Snider, all of Buncombe. No cards.

The difference between us on the 8-7 business is, you have always been ashamed of your performance in that line, while ours comes out clean-cut, straight-forward, honest. Even the "woods" are full of evidences of it. Come again.

MR. HAMMERSHLAG'S PREMIUM.

Mr. Hammershlag, who is ever on the alter to provide something nice for the ladies, offers two elegant premiums "for ladies exclusively," to be awarded at the Fair. He had subscribed a certain amount on the list, as a general contribution, but withdrew it in order to change the offer and its object. He now offers to the lady producing and exhibiting the best tobacco at the Fair a fine beaver cloak; and to the lady making the second best exhibit of tobacco a fine Alpaca dress. Now for our lady farmers.

THE HICKORY STOCK AND FAIR SHOW

Will be held on the 14-17 insts. at the progressive town of Hickory, in the centre of one of the best agricultural sections of the South. Fine premiums are offered for Stock, agricultural products, manufactures &c. Some fine racing will also take place. We wish the fair a perfect success.

A CARD FROM THE POSTMASTER.

POSTOFFICE,
ASHEVILLE, N. C., Sept. 9.)

Messrs. Editors:—Your uniform courtesy and fairness heretofore towards me, induces me to believe that you will allow me the space in your paper to make a public denial of the base charge made by the *Black Mountain Pioneer* of recent date, and to denounce it as a deliberate falsehood when it asserts that the business of this office has been careless, badly and incompetently managed since it has been in my hands; and further to, say that the *Advance* in giving publicity to the charge but stultifies itself in that it has heretofore testified publicly to the honesty, faithfulness and efficiency of the management of the affairs of the office since it has been under my control. There have been occasional mistakes, as there have been in every office in the government, but no one can truthfully say there has been either carelessness or inefficiency. We have done our utmost to avoid all mistakes and keep the office in such condition as to serve the public faithfully and efficiently. Whenever the President sees proper to turn the office over to others, I am ready with correct accounts and clean hands to "step down and out," but no one shall say I have been unfaithful to the trust which has been committed to my charge.

Very respectfully,
H. L. GUDGER, P. M.

THE WHEAT AND CORN CROPS.

Official Report for August.

WASHINGTON, D. C., Sept. 10.

The September report of the Department of Agriculture shows the condition of Spring wheat has been impaired since the first of August in the northwest district of principal production. Heavy rains were followed by extreme heat between the first and middle of August. The general average for all Spring wheat is 86½ against 95 in August, 1884. The crop of last year was 157,000,000 bushels. The returns of winter wheat are almost identical in results with those of July. The general average is 65@68 against 65 in July, except as result of threshing may change the present expectation. The winter wheat area may be placed at 217,000,000 bushels and the remaining area about 13,000,000. The condition of the corn still continues high, ranging from 90 to 100 in the State averages. The general average is 95 against 96 in August. It was last year 94 in September. Frosts have wrought very little injury and will be capable of little if deferred ten days. The prospect is still favorable for a crop slightly above an average.

GLASS WORKS AT WORK.

Compromised and Comforted.

WHEELING, W. Va., Sept. 10.

The Flint Glass workers of seven idle factories opposite this city, met in convention in Baltimore yesterday, and accepted terms of compromise previously drawn up by a committee of manufacturers and working men, with the exception of one slight amendment, in which the manufacturers will concur. This virtually ends the strike which has lasted nine months, and will put about twelve hundred men to work. Workingmen and manufacturers are both jubilant over prospective resumption.

THE PLAGUE.

Its Appearance in Italy.

Still Decreasing in Spain.

ROME, Sept. 10.

Several cases of cholera reported at Spizzia.

A few cases are reported from Parma at Parlermo, Official returns from Wednesday give five cases and two deaths, but other reports show there were really 19 cases and five deaths throughout the rest of Italy.

Many Italian cities are asking for the establishment of quarantine against the scourge.

MADRID, Sept. 10.

Throughout Spain yesterday 1560 new cases, and 599 deaths reported.

The War on the Chinese.

Ah Sin returns Seven Hundred strong under Guard.

Further Threats.

ROCK SPRINGS, Wyoming, Sept. 10.

Seven hundred Chinamen returned here under the escort of four companies of troops. Miners, it is alleged, threaten to destroy the company's buildings all of which are under strong guard. Serious trouble is feared as soon as the miners think they have opportunity to carry out their threat.

THE WAR CLOUD.

Spain sends no Ultimatum.

MADRID, September 10,

It is stated here that the Spanish Government had no idea of sending an ultimatum to Germany.

New York Market.

NEW YORK, September 10.

There was little change in opening quotations at the Stock Exchange this morning, except for Louisville and Nashville, which was down ⅝ and Erie ¼ lower. Lake Shore and St. Paul showed a loss of ¼ each and others were unchanged, or ¼ lower. There were no advances except in Texas and Pacific. In early dealing the market was feverish and active and later Vanderbilts and Jersey Central developed considerable weakness. The stock last mentioned declined 1½ per cent., a portion of which being subsequently recovered.

SHAKY.

THE ZIG-ZAG METHODS EMPLOYED BY MERCENARY MEN.

It is a notable fact that the people of Atlanta and elsewhere are beginning to be thoroughly convinced that worthless compounds become "shaky" at all new innovations, while an honest preparation never fears opposition. We do not propose to "wipe out" others, as the field for operation is large, and we accord to one and all the same privileges we enjoy. We are not so far lost to bbsiness principles as to denounce any other remedy as a fraud, or imitation, or as containing a vegetable poison, the effects of which are horrible to contemplate. The alarm need not be sounded, for there is ample room for all declining anti-potash, pine-top alop-water compounds.

If one bottle of B. B. B. is more valuable in effects than half a dozen of any other preparation, we wont get mad about it. If ten bottles of B. B. B. cures a case of blood poison which others could not cure at all, it only proves that B. B. B. is far the best medicine.

20,000 bottles
of B. B. B. have been sold to parties living inside the corporation of Atlanta since it was started two years ago!

Why this wonderful sale of a new remedy in so short a time with so little advertising?

It must be confessed that it is because B. B. B. has proven itself to possess merit in the cure of blood, skin and kidney diseases. Hundreds of home certificates attest the fact of our claim that in Atlanta and many other points B. B. B. are "on top," and will stay there. Many persons desire to know how the B. B. B. acts on the system. By entering the circulation, it modifies the vitiated blood globules, increases the red corpuscles, antagonizes all poison, vitalizes and regenerates the flagging forces, furnishes the pabulum for rich, new blood, eliminates all poison through the secretions, and increases the appetite, while by its wonderful action upon the pores of the skin, the kidneys, liver and glandular system, all effete and impure matter is speedily conducted from the body, leaving the blood pure, fresh and healthy.
