R. M. FURMAN,  
J. D. CAMERON,  
J. D. CAMERON,  
SUN. MORNING, OCT. 25, '85  
\$5.00 THE ANNUAL.

## THE FAIR.

Is over, and a grand affair it was. The very inclement and threatening weather, from Monday morning to and including Wednesday, prevented not only a very large number of people, from this and other counties, from attending, but also a very large quantity of exhibits from being brought. As it was, however, the exhibit was a splendid success in every department, the fruit, agricultural, stock and ladies' departments notably so. There were many visitors who came specially to see the exhibits. As one of the gentlemen expressed it, they were simply amazed at what they saw. The people of this and surrounding counties attended well; but the Association feel constrained to express disappointment at the want of general attendance on the part of the people of Asheville, the place and people of all others, mostly interested in the success of this institution. This city could have very easily put over three thousand people upon the grounds each day; and this assistance, small in expense to the individual, would have aided the Association very greatly, and at a time mostly needed, in their efforts to establish the Association permanently, as a local attraction and in the confidence of the public. We mention this in behalf of the Association, and to call the attention of our people generally to the necessity for a general co-operation of them all in such enterprises, which can only succeed by thorough unity, and support. The Association is determined, sustained as they were this past week by the people—the producers and manufacturers—of Western North Carolina—to make strenuous efforts to enlarge their facilities, and next year offer still greater inducements to our people to produce more and still better, and to show the results of their efforts at our next Fair. Now let all the people work, and begin to work now, for the next Fair. We appeal to the public spirit of our people to unite in this effort. It is for the general good, not for the personal benefit of any one, and all should unite in making it, what last week's exhibit shows it can be, an annual presentation of the finest products any section can produce. Work should be begun now, and the Association should feel they have the earnest and general and generous support of all of our people. Let them have this assurance, and all will be well, for all concerned, and the section.

The rice growers of North and South Carolina and Georgia are demanding of the general government a higher protective duty upon rice imported from other countries. Our Charleston cotemporary, and we think the Wilmington papers, unite in this demand. The attractive feature of this is that all of these respective cotemporaries demand, comparatively, free trade on other articles, but the unpleasant fact will suggest itself that if it is fair for rice to be protected, it ought to be fair for other American industries to share a like protection by high tariff duties.

The New York Herald evidently has but little faith that the Grant & Ward swindle will ever be fully exposed. "It is a very curious fact," the Herald says, "that the District Attorney is always about to try Ward on one indictment, but adjourns the case or calls him up on another, at the last moment. The District Attorney is continually drawing a bead on him, so to speak, and just as he seems about to shoot he changes his gun for another one, with which he says he can take a better aim." The true source of the D. A.'s perplexity, probably, is the question how to shoot through the crowd of rascals around him without hitting somebody else besides Ward, and without appearing to be desirous of missing everybody but Ward.

The Flood Rock Explosion was felt at Harvard observatory, 190 miles distant on an airline. A saucer of mercury was placed on the solid stone floor, having a speck or a flaw in it, on which was brought to bear a microscope of 750 magnifying power, the spider line coinciding exactly with the flaw. The vibrations lasted about two minutes, the greatest swaying of the mercury being over a space of 1-500th of an inch.

At a marriage in Arizona lately the groom attempted to shoot the officiating clergyman because of his refusal to drink a pint of whisky in honor of the bride.

A large stock of silk velvet and velveteens just received at Whittlock's. Whittlock has a full line of Gentlemen's underwear in all qualities, call and examine.

## THE FAIR.

It came, and it has gone. Let those who saw it do the criticism. For us who have been parties to it, modesty may compel a little moderation of opinion. Yet modesty may make concession and claim something for merit. There is no doubt that the Western North Carolina Fair was a success. The display of stock was good. Horses and cattle and hogs and sheep were all such as western stockmen could desire. In the cereals, there was never a finer exhibit of wheat, rye, oats and the grasses. And in the vegetables, the exhibit of pumpkins, corn, beets, carrots, was unequalled. The fruits more than sustained the reputation of the West. Such apples never were seen; and the peaches, the grapes, the quinces never had equals. We are satisfied with our Fair. We may be proud of it; for it illustrates all that we have claimed for Western North Carolina. It is a wilderness no longer, but is proved to be a veritable garden of Eden.

**THE EPISCOPAL CONGRESS.**  
This body which began its tenth annual session at New Haven, Conn., on the 20th instant, is in very successful progress. One of the topics of discussion has been "Grounds of Church Unity."

Cannon Farrar argued that the principal grounds for unity were: "First. The unity of heart and soul amid divergences of opinions and variations of practice. Second. Christ's new commandment—the commandment so often repeated on the lips of Christians—Love one another. Third. That faith which, in its highest sense, had to St. Paul no other meaning than oneness with Christ. The last ground on which I will touch is that it is essential to the prosperity of the Church of Christ. While we are disputing and wrangling, often about things uncertain, often about things infinitely little, the enemy is at our gates."

The Mormons have secured their grant of land from the Mexican government. It is in the state of Chihuahua. The government at first fought shy of Mormon immigration, but the argument that the "saints" were a very prolific people, and would soon populate a district at present a wilderness, finally had weight with the authorities. The Mormons will establish a military colony. In the course of time they may give trouble to the government. Chihuahua is a distant state, and it may some day be possible for the Mormons to sever it from the republic and make it an independent state.

Death is not only a great merger of political and denominational differences, but is frequently the only chamber which properly shows popular estimate of human character. Among the distinguished divines who paid tribute to the character of Cardinal McCloskey on Saturday, were Dr. Morgan Dix, of the Protestant Episcopal Church; Dr. Crosby, of the Presbyterian Church; Dr. Storrs, of the Congregational Church; Dr. Robert Collyer, of the Unitarian Church; Henry Ward Beecher, of Plymouth Church, and three rabbis.

The International Landowners' Congress, just held at Pesth, adopted a resolution "asking the Central European States to combine in adopting protective measures against the importation of American and Indian wheat." Should this proposition be carried into effect by united action on the part of the States referred to, they would shut out a considerable part of our exports, and injure every wheat farmer in the Northwest.

Office hours 10 a. m. to 12 m. and 2 to 4 p. m.

## A VERY SINGULAR PROCEEDING.

By order of the authorities of the W. N. C. Railroad, low rates to the Asheville Fair and return from points along the line of the Richmond and Danville system in this State and Virginia were published. In view of these rates efforts were made by the authorities of the Fair association to induce parties to come; their attention being called the low rates granted by the railroad authorities. Among others who had notified the Secretary of the Association of this purpose to come to the fair, specially to the Tobacco sale, were Messrs Julian S. Carr, E. J. Parrish and other prominent tobaccoists of Durham. The Association were greatly disappointed in the failure of the gentlemen to come, but they were certainly more surprised to learn of the cause of the failure as given by the following letter from Mr. Carr, received yesterday, and we call the attention of the railroad authorities thereto.

Mr Carr says:  
DURHAM N. C. Oct. 22d.  
Jordan Stone, Sec. Asheville N. C.  
I beg to state today when application was made to our Railroad Agent for Fair tickets to Asheville we were informed that the tickets had been withdrawn from sale by order from Richmond. This surprised us. Several were about making up their minds to go to Asheville this evening; but the withdrawal of the sale of the tickets broke up the arrangements. Enclosed be pleased to find complimentary tickets to our Fair held here next week. We would be glad to see you. With much respect, I remain,  
Yours, very truly,  
J. S. CARR.  
We ask the attention of the railroad authorities to this.

**THE PRICE OF THE TOBACCO HEAT REGULATING.**  
The price of the Hardwicke & Welles Heat Regulating Attenuator, will be \$10.00 for any sized barn. They will be sent by express or freight immediately upon receipt of order. These Attenuators are always on hand at Marshall, N. C., and will be at other places as soon as arrangements can be made for their manufacture.  
tnovl.

## SHAKY.

**THE ZIG-ZAG METHODS EMPLOYED BY MERCENARY MEN.**

It is a notable fact that the people of Atlanta and elsewhere are beginning to be thoroughly convinced that worthless compounds become "shaky" at all new innovations, while an honest preparation never fears opposition. We do not propose to "wipe out" others, as the field for operation is large, and we accord to one and all the same privileges we enjoy. We are not so far lost to business principles as to denounce any other remedy as a fraud, or infestation, or as containing a vegetable poison, the effects of which are horrible to contemplate. The alarm need not be sounded, for there is ample room for all declining anti-potash, pinetop alo-water compounds.

If one bottle of B. B. B. is more valuable in effects than half a dozen of any other preparation, we won't get mad about it. If ten bottles of B. B. B. cure a case of blood poison which others could not cure at all, it only proves that B. B. B. is far the best medicine.

**20,000 bottles**  
of B. B. B. have been sold to parties living inside the corporation of Atlanta since it was started two years ago!  
Why this wonderful sale of a new remedy in so short a time with so little advertising?  
It must be confessed that it is because B. B. B. has proven itself to possess merit in the cure of blood, skin and kidney diseases. Hundreds of home certificates attest the fact of our claim that at Atlanta and many other points B. B. B. are "on top," and will stay there. Many persons desire to know how the B. B. B. acts on the system. By entering the circulation, it modifies the vitiated blood globules, increases the red corpuscles, antagonizes all poison, vitalizes and regenerates the flagging forces, furnishes the pabulum for rich, new blood, eliminates all poison through the secretions, and increases the appetite, while by its wonderful action upon the pores of the skin, the kidneys, liver and glandular system, all effete and impure matter is speedily conducted from the body, leaving the blood pure, fresh and healthy.

By its magical alterative powers, B. B. B. unloads the blood of all impurities, unlocks the liver, arouses all secretions, restores nature to its normal condition, unclouds the troubled brain, clears and beautifies the complexion, cheers the despondent, strengthens the feeble, calms the disturbed nerves, and induces quiet and peaceful slumbers. It has been in use over twenty-five years as a private prescription in the south.

It is no far-fetched, foreign-found or dream-discovered subterranean wonder, but is a scientific and happy combination of recognized vegetable blood poison agents, effected after many years of constant use and experiment in the treatment of thousands of some of the most appalling cases of scrofulous, syphilitic and cutaneous blood poisons ever known in the state, resulting in complete and unparalleled cures of pronounced incurable cases.

Send to Blood Balm Co., Atlanta, Ga., for a copy of their Book of Wonders, razes, filled with information about Blood and Skin Diseases, Kidney Complaints, &c.  
Sept. 2.-dawn

**NEW STORE, NEW FIRM, NEW GOODS.**

**Family Grocery, Hay and Feed Store,**  
South Main Street, (above Eagle Hotel Block), ASHEVILLE, N. C.

**From the Old Dominion.**  
I have been a sufferer for many years from Catarrh and Blood Poison. After the application of all the known remedies for such diseases, I found myself last summer on the very verge of the grave. Nothing seemed to do me any good. As a last resort I commenced taking S. S. S., and have taken in all 15 bottles. Before I had finished the second bottle I felt a decided improvement, and am to-day enjoying most excellent health—better than for many years. I take great pleasure, therefore, in recommending Swift's Specific for these diseases.  
—Mrs. E. J. CORNHAN.  
Richmond, Va., June 29, 1885.

**Swamp Malaria Conquered.**  
I have been using Swift's Specific in my family for the past two years as an antidote for malaria, also as a blood purifier, with the most satisfactory results. I live on the banks of the Ouchita river, in what is called the swamp country. Myself and family enjoy as good or even better health than the average people who live in the hill country. I am confident that S. S. S. has banished the malarial poison from our systems, and consequently given us good health. I use it at intervals during the spring and summer, when the system indicates being charged with poison, and it invariably drives it out.  
—E. B. CRYZES.  
Trenton, La., June 30, 1885.

**SWANNANOVA HOTEL**  
Asheville, N. C.  
Altitude, 3,339 Feet Above the Sea.

The recent additions and improvements to the SWANNANOVA make it, perhaps, the most attractive and comfortable hotel in the South. It has been well fitted with galleries, furnished with the Swannanova River and the French Broad River valleys. Also views of the Blue Ridge, Pisgah, Balsam, New Found and Elk ranges of mountains, peaks of which are over 6,000 feet high. Convenient to Post, Express, Telegraph and Railroad Ticket Offices, and Asheville Bank, Asheville Library and Asheville Club Rooms. Purest mountain water conducted to and through the hotel.

All Modern Conveniences  
The Ball Room is 50x150 feet. A fine Orchestra from Philadelphia is engaged for the Summer.  
Special Rates to Parties by the Month.  
The Proprietors take special pride in the Tidiness of their House, and the successful management of the cuisine department.

**RAWLS BROTHERS, Proprietors.**  
**The Battle House,**  
Waynesville, N. C.  
THOROUGHLY REBUILT, renovated and repainted. In the center of the town, near the famous Hot Springs. Accommodations good. Rates moderate.

Sole Agent for Main Jellico Mountain Coal Company  
the very BEST SOFT COAL in use.

**TESTIMONIALS.**  
*True Merit Wins where Practical Men are Judges. Read What is Said About JELICO MOUNTAIN COAL.*

**WATER WORKS, ATLANTA, GA., September 25th, 1883**  
The engineer of the Water Works reports this morning that he has completed a 24 hour's test of the Jellico Mountain Coal. The test is as follows:  
Water pumped, 278,300 gallons; Coal consumed, 12,900 pounds; water pumped to 100 pounds of coal, 21,606 gallons; water pressure maintained through test, 140 pounds head, in feet, 323 to which water was pumped; total number of pounds raised 323 feet, 252,573.6; millions pounds raised one foot with 100 pounds coal, 75,079.122, which is more than the builders guaranteed the engines to do with the best coal. Mr. Terry reports only 760 pounds ashes taken out; not a clinker and that the fires were not cleaned during the whole 24 hours. From the result of the above test I must pronounce the J. M. an excellent steam coal.  
Respectfully,  
W. G. RICHARDS, Supt. Water Works.  
N. B.—Since the above test another has been made in which 28,778 3/4 gallons water were raised to 100 pounds of coal, instead of 21,606 in the first test. This shows an increase of over 7000 gallons over any other coal, a fact of itself worthy of note.  
W. G. R., Supt.

**CHATTANOOGA, TENN., June 9, 1884.**  
We regard your coal as the best we ever used. In our test we saved two hours time in making seven heats in heating furnace over the next best coal we use. Only have to clean grate once a day with it; with the other we have to clean twice, and often three times. It is the purest coal we ever used.  
JOHN MOORE, Superintendent.  
**NORFOLK & WESTERN RAILROAD COMPANY, Office Superintendent Western Division, LYNNHURST, VA., JUNE 11, 1884.**  
We have obtained reports from the engineers who have used your coal which are of the most satisfactory character. They speak well of the coal in every respect. They all say that it is the best coal they have ever used coming from the line of your road.  
FRANK HIGER, Superintendent.  
We burned the Jellico Mountain Coal on the steamer Water Lily during last winter and think it preferable to other coal. It burns up without leaving so many clinkers as other coal.  
A. C. LOVE, Captain.  
We are well satisfied with the Jellico Mountain Coal, after thoroughly testing it on our mill. We consider it the cheapest coal we buy owing to the fact that there is less waste.  
P. MC DANIEL & CO.  
There is less dust and ashes from Jellico Mountain Coal than any we have heretofore used.  
C. B. WOODWARD, JR., J. H. MEAN.  
I find it is less waste in the Jellico Coal than any I have used. It burns free and leaves no ashes.  
We find that there is less dust and ashes in our houses when we burn Jellico Mountain Coal, than when we burn other coal.  
We are very well satisfied with Jellico Mountain Coal. Consider it the best on the market.  
SCOTT, DEMSTER & CO.

If you want this excellent Coal order immediately of  
**S. F. Venable, Asheville, N. C., Agent, for**  
North Carolina for Main Jellico Mountain Coal Co.,

## OUR BANNER STILL TO THE BREEZE!
