death of William Vanderbilt is the sensation of the hour. Vanity of Vanities! All is Vanity.

It is just to say of the personal character of Mr. Vanderbilt that he road will assure the completion of was liberal, and that the fruits of that line at an early day. Such is shed a grateful odor on his name. He was a munificent patron of the m de good use of his wealth.

The bill introduced into the Senthe House which is democratic, will not be indifferent to a plan which seemes from a Republican Senate, since the succession, in order of Members of the Cabinet would secure perpetuation of the policy up on which the President and Vice Presi

are such as to increase the anxiety distant on the west, and about nine Travelers Should Know That felt in regard to an outbreak. The hundred feet higher than Franklin Mormons seem inclined to provoke hostilities; and they seem able to do Murphy on the west, and from Murphy on the west, and from Haysville and Georgia on the south HENDERSONVILSE.

N. C. well armed, well drilled, full of hate west, and one from Franklin on the well armed, well drilled, full of hate and rendy to measure stren the with the government. If they do provoke hostilities, we hope the government will make thorough work armed will make thorough work with the government will make thorough work with the government will make thorough work will make thorough work with the government will make thorough work with a dashing river of pure will guarantee attention and the fact that Mrs. Banks has control of the collinary department in a guarantee of the collinary department in a guarantee of the collinary department will guarantee satisfaction. A. A. BANKS, out 2-disc. with them. Apart from the bestiali- limpid water abounding in speckled with them. Apart from the bestlaity of their so called religion, nine tenths of them are foreigners, transported from the Monarchies of Europe, and forming a very hot bed of treason in our midst. They are not Americans, and therefore cannet be rebels, they constitute a foreign hostile force warmed into life to the indulgent liberality of our institutions.

I can scarcely write about this gounty without using what would measure to be extravigant language.

I implied water abounding in speckled trout. I know of no place more destrout. I know of no place more destrout. I know of no place more destrout. I know of no place more destrouted that.

TAX NOTICE.

Thave only a limited time in which to collect the taxes of 1885, and that time is travely and sust post at oxes, in order to enable me to comply with the law; others wise I will enforce collections by a levy and sale of their property. I can be found at the county for this purpose. Let all comply at once and save trouble and costs.

I can scarcely write about this gounty without using what would seem to be extravigant language.

Institutions.

I know of no place more destrouted thats.

TESTIMONIALS.

True Merit Wins Where Practical Men are Judges, ' Read What is Said About JELLICO MOUNTAIN COAL,

WATER WORKS, ATLANTA, CA., September 25th, 1883
The engineer of the Water Works reports this morning that he has completed a 24 hour's test of the Jellico Mountain Coal. The test is as follows : ent patterns, Linen Sheets of al. prices.

Water pumped, 2787,200 gallons; Coal consumed, 12,000 pounds; water pumped to too pounds of coal, 21,606 gallons; water preasure maintained through test, 140 pounds, head, in feet, 323 to which the water was pumped; total number of pounds raised see them.

Water pumped, 2787,200 gallons; Coal consumed, 12,000 pounds; water pumped to too pounds of coal, 21,606 gallons; water preasure maintained through test, 140 pounds, head, in feet, 323 to which the water was pumped; total number of pounds raised one foot with 100 pounds coal, 75,079,122, which is more than the builders guaranteed the engines to do with the best coal. Mr.

Terry reports only 760 pounds ashes taken out, and no clinker and that the fires were not cleaned during the whole 24 hours. From the result of the above test I must pronounce the J. M. an excellent steam coal.

Respectfully, W. G. RICHARDS, Supt. Water Works.

N. B.—Sincettle above test snother has been made in which 28,773.3 gallons water were raised to 100 pounds of coal, instead of 21,606 in the first test. This shows an increase of over 7000 gallons over any other coal, a fact of itself worthy of note.

We regard your coal as the lest we ever used. In our test we saved two hours time in making seven heats in heating furnace over the next test coal we use. Only have to clean grate once a day with it; with the other we have to clean twice, and often three times. It is the purest coal we ever used.

LOOKOUT ROOLING MILL,

NORFOLK & WESTERN KAILEOAD COMPA Y, Office Superintendent Western Division.

Lynchild Western Division.

Lynchild

We burned the Jellico Meuntain Coal on the steamer Water Lily during last winter and think is referable to other coal. It burns up without leaving so many clinkers as other coal. We are well satisfied with the Jellico Mountain Coal, after thoroughly testing it at our mill. We onsider it the cheapest coal we buy owing to the fact that there is less waste.

TP McDANIEL & CO.

There is less dust and ashes from Jel ico Moun. ain Coal than any we have heretofore used.

C. B. WOODWARD. I find there is less waste in the Jellico Coal than any I have used. It burns free and leaves by We find that there is less dust and ashes in our houses when we burn Jellico Mountain Coal R G OSBORNE. than when using other coal.

We are very well satisfied with Jellico Mountain Coal. Consider it the best on the market:
