Interesting services at all the church-
es to day, - morning and night.
Mr. D. W. Carter, Executor, offers a
valuable piece of land, on Ivy, for sale.
See advertisement.
Heavy frost yesterday morning on
the mountains near Asheville and also at
Waynesville.
A freight train jumped the track yester-
day between Hickory and Conover,
and delayed the West bound mail two
hours last evening. No damage was
done.
A Durham man bought a horse on
the streets the other day, and it
died before he got it home.
Mr. Richmond Pearson returned to
the city Friday night, from a visit
to Richmond. Mrs. Pearson remains
in Richmond for some time.
The tobacco market was a blank
yesterday. No sales or only small
sales were made. We look for re-
newed activity next week.
Spring lambs are beginning to
gamble in the fields and meadows.
They come considerably ahead of
green peas; but their visits to our
market will be very acceptable.
The Greensboro Patriot has a sub-
scriber on its list who paid his first
subscription in 1828, and has been
faithful ever since. One secret of
his long life.

The Lincoln Press says the old
St. Luke's (Episcopal) Church is
being pulled down, and a larger one
the style of the Church of the Good
shepard at Raleigh will replace it.
The weather yesterday was fine
and bright, with wind from the
North. The mud in the streets is
drying off rapidly, and overcoats
may soon be dispensed with.
Mr. Locke Craig offers a very valuable
mica mine, situated in Buncombe county,
for sale. This is said to be a very val-
uable property. Call on Mr. C. at his office
in the Court House, for terms, etc.
The Stateville Landmark says that
Mr. W. P. Drake was found dead in his
printing office on Wednesday last be-
tween 10 and 11 o'clock. He was the
son of Mr. E. B. Drake, long editor of the
American. He was a printer, and also
associate editor with his father. He was
45 years of age.
The work of putting up a tele-
graph line between here and
Hendersonville along the line of the
rail road is going on rapidly. The
posts are nearly all up. The line
which is built by the rail road au-
thorities will be extended to Spar-
tansburg.
The Greensboro Patriot says the
spoke and handle company are just
now enjoying a large foreign busi-
ness. A few days ago, two thousand
dozen handles were shipped to one
firm in a foreign country. When
will such enterprise gain a foothold
here?
Mr. A. J. Lyman returned on
Friday afternoon after an absence
of about four weeks, during which
time he has visited several of the
northern cities, extending his trip
to Hartford, Conn., at which city
Mrs. Lyman remains on a visit to
her father.
The editor of the Robesonian
declines a poetical contribution en-
titled "the lay of the lark;" but he
says he will accept with thanks
some specimens of "the lay of the
hen." Brother McDiarmid is a plain
housekeeper, more practical than
poetical.
Law's Low Prices.
The maker having made another re-
duction in price of Rogers' Bro's ware, I
can offer extra low prices than heretofore.
Rogers and Bro's knives, triple
plated \$2.00. Table spoons or Forks, \$3.50
and Tea Spoons \$1.75 per set, in plain or
fancy patterns.
Also a line of Rogers' plate on solid
nickel, reliable goods, at \$2.50 per set
for Table Spoons or Forks and \$1.25 for
Tea Spoons.
Law's, opposite Eagle Hotel.

Capt. Sarauw was yesterday found
guilty by the Supreme Court at Leip-
sick of having furnished plans and
information of German fortifications
and armaments to the French mili-
tary authorities, and sentenced to
three years penal servitude. Herr
Reichstag, who was on trial on the
same charge, was acquitted.

CHANCE OF SCHEDULE.
A slight change in the schedule on the
W. N. C. Railroad takes place to-morrow,
15th. The East bound passenger and
mail reaches Asheville at 9:56 a. m., and
leaves at 10:01 a. m. The West bound
train reaches Asheville at 8:16 p. m.,
leaves 8:21 p. m.
On the Murphy line, the train will
leave Asheville at 9:53 a. m., arrive at
Asheville 4:39 p. m. It will reach Jar-
rett's at 7:05 p. m., and leave 7:19 a. m.,
leaves 8:21 p. m.
Mr. Edward D. Bolton, of Boston, is
in the city. Yesterday he spent the day
taking observations of the water supply
around Asheville. He is here at the in-
stance of the city authorities for the pur-
pose of making a careful investigation as
to the sources and means of supplying
the city with a sufficient quantity of
water, to suggest the best methods of sewerage,
etc., etc. He comes well endorsed as a
competent engineer, and we trust will be
able to give such a report as will satisfy
our people of their ability to carry out
the plans for plenty of water, and other
absolutely essential improvements.

ASSIGNMENT.
We much regret that Mr. Des-
mond has found it necessary to
make an assignment for the benefit
of his creditors. For several years
he has conducted one of the best
confectionary and bakery establish-
ments in the State, and has spared
no efforts to establish his business
on a firm footing, and at the same
time to supply to Asheville stores of
first class character in all respects.
The severe pressure of late, finan-
cially, has borne down upon him,
and he has had to re-assign. It is a
real loss to Asheville, as he contem-
plated retiring from business alto-
gether, and we know our communi-
ty generally will regret this. Mr.
Desmond is a young man of splendid
business habits and character,
and has only made friends since his
location among us, and his misfor-
tune is regretted by his friends. A
splendid, fresh stock of apple goods,
with ample and complete machinery
for a first class bakery, are offered for
sale at a strict cost, either as a whole
or to suit purchasers. Call at the
store, and see Mr. Harvey, assignee,
or Mr. Desmond.

WAYNESVILLE.
From the News we learn:
The Messrs. Melton of this place
have the contract for plastering the
Battery Porter Hotel.
Our White Sulphur Hotel will
have a pretty fountain in the front
yard which will add no small bit
to its attractiveness.
Miss Matty Welch left on Mon-
day for Asheville where she will con-
tinue the Female College.
Georgia tobacco is selling on the
Waynesville market, at good prices.
Knoxville and Nashville, cities of
Tennessee, both situated in a lime-
stone formation, have been suffer-
ing from their positions over cav-
ernous gaps in the earth. In each
of these cities, parts of streets have
recently sunk, alarming the people
with the dread of general subsidence.
On Prince street in Knoxville,
the sink has exposed a stream
of clear running water, from which
good sized mountain trout have
been taken.
A bill has been introduced into
the lower house of the Prussian Diet
to regulate the schools of the
eastern provinces of Germany and to
make school attendance compulso-
ry.
King Milan has summoned the
entire Serbian army to enter the
field fully equipped for war to un-
dergo a six weeks drill.
Representative Gibson, chairman
of the House Committee on Expendi-
tures in the Department of Justice,
has received replies from the
Secretary of the Interior and the
Attorney General to the resolution
of the Committee asking what mon-
ey had been expended by their de-
partments in the Pan Electric and
Bell Telephone cases. The reply of
the Secretary of the Interior says
\$35 for printing, etc. was the only
money expended in his Department.
The Attorney General says no mon-
ey has been expended in his De-
partment, but that a contract has
been retained for the prosecution of
the Government's suit. No money
has yet been paid the counsel.
Their names have already been pub-
lic.

PERSONAL.
Our old neighbor and townsman Major
Scott was on our streets yesterday, look-
ing as young and spry as though he
carried the weight of but two instead of
four score years. The old man was be-
ing congratulated by all of his old friends,
and when questioned as to the object of
his visit he said he had walked all the
way from Grass Valley expressly to lay
in a stock of that Great Cough Remedy,
Symphyx. He said he thought both he
and his wife would have been dead
long ago, had it not been for Symphyx,
and that he had come himself to get the
genuine article. Long may the old Major
live.—Echoes.
Gent's attention is called to Whitlock's

Hon. Frank Hurd, of Ohio, has
submitted his printed brief in Hurd-
Romeis contested election case
to the house committee on elec-
tions. Mr. Romeis' returned
majority was 239. Mr. Hurd
claims that 79 illegal votes were
cast for Romeis in Toledo; 20 in
precinct B, ward 8, of Toledo; 166
in precinct C, ward 3, of the same
city; 60 in Kelley's Island, and sev-
eral individual votes elsewhere,
which, when deducted, give Hurd
a majority of 95.
The striking operatives in the
hosiery factories at Leicester, Eng-
land renewed their riotous demon-
strations Friday. They attacked
and sacked several houses. The
police frequently charged the strikers
during the day and in each in-
stance were injured. The authorities,
alarmed at the aggressiveness of the
strikers, and seeing that the regular
police force was inadequate to cope
with the disorderly elements, have
ordered the appointment of special
policemen, and a number of citizens
are now being sworn in to do duty
as such.
Friday the house coinage com-
mittee held a session but reached
no definite conclusion. It is thought
some kind of a measure will be
agreed upon at the Monday meet-
ing.
Mr. James, of New York, introduced
a resolution to the effect that
silver can only be made interna-
tional money by concurrent ac-
tion of the governments interested,
and that suspension and unlimited
coinage, the latter would receive a
majority, but that five members
were in favor of suspension and at
least three in favor of a compro-
mise. The Scott compromise was
shown to be the strongest pending
bill.
The Ohio House of Representa-
tives, in the Hamilton county elec-
tion case, ordered Mr. Dan Dalton
to produce before the committee of
the House the election returns.
This he refused to do. He there-
upon was arrested and taken before
the House for contempt.
Speaker Enterekin asked Mr.
Dalton if the facts were true.
"I refuse to bring those returns
outside of Hamilton county, except
upon the order of the common pleas
court of that county, of which I am
but a creature," was his answer.
Mr. Lamson, of Ashabula, a
member of the committee, moved
that Dalton be arrested by the ser-
geant-at-arms and committed to the
county jail for thirty days. There
was a discussion upon this motion.
He was replied at length by Dal-
ton's counsel, C. W. Baker, of Cin-
cinnati, who made a strong argu-
ment in defense of his client claim-
ing that the house has no right to
have the returns brought from
Hamilton county; and further that
the house has no right to punish a
private citizen for contempt.

FOOD FOR THOUGHT.
Food for the body is the first
thought, and the mode of its prepa-
ration the next. In this there is a
degree of carelessness that amounts
to criminality; for not only health,
but life is involved. There is a vast
difference between living to eat, the
aim of the glutton, and eating to live,
thereby not only meeting the
demands of nature, but the com-
mand of the Creator; for all mar-
kind are created for a purpose. But
the physical qualification for this
purpose is attempted in so headlong
and careless a manner as to seem
to be the most trivial and
inconsequential. The preparation
of food seems to be regarded by
some as humiliating, not in
relation to the mental duty of
cooking, but because it suggests
an animal relation to a proud intel-
lectual being; and disliked by oth-
ers, because of the consumption of
otherwise valuable time. In many
cases it is put upon those who are
not aware of the complicated struc-
ture and delicate functions of the
human frame, and how much de-
pends, not only upon the food ma-
terial, but upon its condition for
ready healthful assimilation. It is
to these that we owe the ready ac-
ceptance of the nostrums which cu-
pidity, under the name of science,
has provided to lighten labor, and
save time and trouble. From such
come soda, and baking powders, and
all those things which displace the
good old housewifely ways, and
leave a train of ill health and death
behind them.
We gladly extract the following
from an article by Dr. Satchwell, a
most sensible as well as scientific
North Carolina physician:
The writer only offers the truth
of science and the experience of
himself and other medical observ-
ers of North Carolina in declaring his
solemn conviction that much of the
dyspepsia as well as no little of
consumption, and Bright's disease,
and other disorders of our State,
originate, and are aggravated by,
the constant unwholesome medi-
cation of the daily bread of our people
in the fashionable use of baking
powders.
As an efficient substitute let us
return to the common sense prac-
tice, and time-honored custom of
our ancestors, of using yeast. Our
mothers and grand-mothers could
make better and more healthy bread
than their successors, and excelled
them in other matters of cooking.
Their methods and operations in
these, as well as in other affairs of
life, were in general, more sensible
and healthy than those embraced
in the excessive refinements and
unhealthy fashions of this ever fast
age.

One of the most remarkable men
in the British Parliament is Joseph
Arch. Fifteen years ago Arch was
a common farm laborer, supporting
his wife and family on four dollars
a week. His wife could read and
write when he married her, and she
taught him all she knew. After
learning to read, Arch spent his
nights reading everything he could
get hold of. He began organizing
labor unions among the farmers
and speaking to them. This made
him disliked by the landlords, and
it was a difficult matter for him to
get work. Last summer the new
franchise bill made voters of 800,
000 tenant farmers, and Arch for the
first time found himself a free man.
With plucky audacity, this newly
emancipated serf stood for parlia-
ment, and was elected over the
great Tory magnate, Lord Henry
Bentinck.

THE GRAPE CURE.
SAL-MUSCATELLE
IN AMERICA
Without the Expense of an Eu-
ropean Journey!
The crystallized salts, as obtained in a pure
state from grapes and choice fruit in a portable,
palatable and pure form, are presented to the
people of America as the grandest solvent of im-
pure blood, corrector of the liver and regulator
of the bowels—a natural promoter of
HEALTH AND LONGEVITY.
Eminent physicians claim this achievement as
new era in the allied science of medicine. It
furnishes the blood with its natural salts than
are lost or eliminated every day.
SAL-MUSCATELLE
A POSITIVE, NATURAL
Sick Headache and
Dyspepsia Cure.
Sal Muscatelle is Nature's own panacea. It ap-
plies to the system the want of sound ripe grapes
and fruit: it is the simplest and best preventive
and cure for functional derangements of
the liver and its kindred ailments; prevents the
absorption of malarial diseases—fevers of all
kinds; counteracts the effects of bad air, poor
drainage and impure water; a powerful oxydizer
of the blood; a natural specific in cholera, typhoid
fever, sick headaches, biliousness, nervousness,
mental depression, and will remove the effects
of accidental indigestion from excessive eating
and drinking. Have it in your homes and on
your travels. It is a specific for the febrile,
weary or worn out.

Eminent physicians claim this achievement as
new era in the allied science of medicine. It
furnishes the blood with its natural salts than
are lost or eliminated every day.
SAL-MUSCATELLE
A POSITIVE, NATURAL
Sick Headache and
Dyspepsia Cure.
Sal Muscatelle is Nature's own panacea. It ap-
plies to the system the want of sound ripe grapes
and fruit: it is the simplest and best preventive
and cure for functional derangements of
the liver and its kindred ailments; prevents the
absorption of malarial diseases—fevers of all
kinds; counteracts the effects of bad air, poor
drainage and impure water; a powerful oxydizer
of the blood; a natural specific in cholera, typhoid
fever, sick headaches, biliousness, nervousness,
mental depression, and will remove the effects
of accidental indigestion from excessive eating
and drinking. Have it in your homes and on
your travels. It is a specific for the febrile,
weary or worn out.
