Whitlock is receiving the handsomest stock of spring goods ever shown in the city. Give him a call.

Boreas exhausted himself with his Tuesday's carouse, and kept quiet yesterday. In fact, Wednesday was a very lovely day.

Dr. S. J. Noyes, of Newburyport, Massachusetts, favored us with a call yesterday afternoon. Like others from his section, he is inspecting the country with very pleased eyes.

Some of our friends, both from Swannanoa and Hominy, say there is some peach blight, to be followed probably, by a few peaches. But our mainstay is in J. B. Freeman and John Ashworth.

Our Weekly went out yesterday, occupied almost wholly with the report of the Jones trial, which took up 24 columns out of 32, and that set in brevity. Typists will appreciate the amount of matter and labor.

Brother Pollard of the Bugle is showing that he can make without straw in other words that he can fill three local columns with a series of very lively paragraphs. Now we find this right hard to do in a town as large as Asheville. Mr. Pollard appreciates the labor when applied to Marion not quite so large as this.

The article "the" is generally substituted when applied to the antique by "ye" if it looks old. But the word was pronounced "the" nevertheless, the ye coming into manuscript use by haste in writing, the h being blended into the character y, just as the dollar mark \$ was gradually formed from the letters U. S. from the same cause.

We have uncommonly few reports of the wheat crop on this side of the mountain. What we do hear is very favorable. A friend from Spring Creek, Madison co., writes that in his section it is looking very well, better in fact than for some years. Our own eyes have not been blessed with the sight of a green field since March came in.

A NEW BUNCOMBE TOWN.  
A correspondent, once a typo in the CITIZEN office, informs us that a little town is growing up at Owaybi, across the French Broad from here, and five or six miles distant, of the fortunes of which he is a proud architect. He says there are now two stores at the place with one of which he is properly connected. All of which we are glad to hear, and hope to learn of the continued growth of Owaybi. Everything in Buncombe grows fast and large.

ACCIDENTAL POISONING.  
Sunday evening a Mr. Hutthens from Chapel Hill reached here, stopping at the Arlington House. He was in bad health and came here for the benefit of his health. Tuesday afternoon he was suffering very much with his head. In his room were various medicines he was in the habit of using. He took from the mantel a vial of what he thought would relieve his pain. It proved to be carbolic acid. He discovered the mistake almost as soon as he put it in his mouth; but he swallowed enough to throw him into violent agony and endanger his life. Physicians were hastily summoned, and such remedies applied as saved his life. His condition for many hours was very critical; but the danger is believed to be over.

A Captain's Fortunate Discovery.  
Capt. Coleman, schr. Weymouth, plying between Atlantic City and N. Y., had been troubled with a cough so he was unable to sleep, and was induced to try Dr. King's New Discovery for Consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast. His children were similarly affected and a single dose had the same happy effect. Dr. King's New Discovery is now the standard remedy in the Coleman household and on board the schooner.
