The undersigned, at the request of the Technical Society, has completed an analysis of the "Budweis" Beer, brewed at Chas. Wolters' Prospect Brewery, in Philadelphia, which analysis exhibits the following results:

Specific gravity, Alcohol, S,94%e 4,92%e Extract. 0,22₩e Carbonie Acid. Ashes.

This signifies that the "Budweis" Beer its essential qualities is almost the exact counterpart of the best Imported Bohemian Beer.
A further examination, seeking adulterations, proves conclusively that it contains naught of that nature.
