POWELL & SNIDER'S COLUMN

THE Wonders of Science

As applied to modern food products are somewhat startling though we need not fear the final result if we will unite in trying to stop the wholesale adulteration that is being practiced in the manufacture of cheap goods.

COFFEE.

As very few of our friends buy ground coffee it is hardly necessary to give the adulterations practiced by cheap dealers by using chicory, beans, peas, carrots, etc., all of which may be detected by stirring in clear water, the greasy nature of the coffee causing it to float on top while the adulterating materials will sink and rapidly discolor the water.

WE DO NOT SELL GROUND COFFEES AND OUR STOCK OF WHOLE BEAN COFFEES IS ABSOLUTELY PURE AND OF THE BEST GRADES TO BE HAD.

TEA.

This is extensively adulterated both in China and this country by the means of exhausted tea leaves and leaves of other trees. Mineral matters are also used for coloring or facing teas; clay sand etc are extensively used. The tests for these are by infusion; this is poured off the leaves and examined for color, taste and odor, all of which are easily detected.

Our teas are bought from the best tea importers in this country and we can furnish testimonials from the best judges in this section as to their purity.

FLOUR.

Flour is now being adulterated with plaster, potato starch etc, all of which can be detected by the use of the microscope. Old fashioned as it may be we still prefer flour made from wheat.

GROUND SPICES

Should be closely examined with the microscope. PEPPER GINGER, CLOVES, CINNAMON etc are largely adulterated with gypsum, buckwheat husks, starch, sago meal, ground rice and brick dust, all of which can be easily detected by the use of the microscope.

We sell the best ground spices to be had in New York.

Baking Powders

We are agents for Prof. Horsford's bread powders which are guaranteed to be absolutely pure.

We will have more to say on this subject in another article and in the meantime would like our friends and customers to call and examine our stock and we will take pleasure at all times in posting you both as to quality and prices.

COFFEE.

Judges of good Lager Beer should try the Cincinnati "Nonpareil" at the Bonanza.

TEA.

Dr. S. W. Battle left yesterday for New York, on professional business.

FLOUR.

When Jupiter and Juno hobnobbed over a bowl of ambrosia, they had nothing half so rich or nice as our mundane moderns may enjoy in the new compound Pelham has gotten up.

RELIGIOUS NOTICE.

Rev. Father McGinty gives notice that he will have no services at the Catholic church next Sunday or May, the usual services next Sunday being postponed.

A NARROW ESCAPE.

In yesterday morning's issue we mentioned the lightning stroke which, on Tuesday evening, killed two mules belonging to Mr. John Cressman and seriously injured him.

AN ASTONISHING ASSERTION.

A speaker at a public meeting the other night, in Lynchburg, held in opposition to local option, made this astounding assertion as an argument: "Maine has the gawkiest men and the ugliest women on the American continent, while whiskey drinking Kentucky has the finest looking men and most beautiful women on earth."

THE BOYCOTT WHICH BENEFITED MRS. GRAY.

Gray had the effect of ruining the business of another New York baker, Mrs. Landgraf. It is a pitiful business, this war of thousands of strong men on poor, hard-working women and should be denounced by the Knights of Labor.
