## **Wonders of Science**

As applied to modern tood products are somewhat startling though we need not fear the final result if we will unite in trying to stop the wholesale adultera tion that is being practiced in the manufacture of cheap goods.

Allow us to offer a new suggestions in regard to purchasing food products and the tests for adulteration in same. We can only mention a few in this short space and will begin with

## COFFEE.

As very few of our friends buy ground coffee it is hardly necessary to give the adulterations practiced by cheap dealers by using chicory, beans, peas, carrotsetc., all of which may be detected by stirring in clear water, the greasy nature of the coffee causing it to float on top while the adulterating materials wil sink and rapidly discolor the water.

Always bny whole grain coffee-choos ing large light uniform grains for a mild drink and dark green for strong. Avoid bright colored coffees.

WE DO NOT SELL GROUND COF-FEES AND OUR STOCK OF WHOLE REAN COFFEES IS ABSOLUTELY PURE AND OF THE BEST GRADES TO BE HAD.

The market yesterday was more lively than for some time part. The receipts were not large, but they were larger than for the past week. The most marked features was the advance in prices, particularly on lower grades, which, as compared with those of last week, showed an advance of from 40 to 60 per cent. The best evidence of improved markat was in the contentment of sellers.
