BIRMINGHAM, ENGLAND, Mar. 24, '86 To Robt. B. Vance, Esq., Commissioner of Patents, Washington, D. C .:-

Dear Sir :- We had the pleasure of duly receiving your letter of 25th Febru ary. Mr. T. A. Weston whom you mention is an old friend of our Mr. Thomas Wilson, Sr., (both of them veteran inventors.) We saw Mr. Weston several times land and hope his health is keeping up, and desire with Mr. Wilson, Sr, to be kindly remembered to him. We are much obliged to you for description and location of Asheville, its climate and suitability as a business place; and your suggestion of starting a factory there in make an immediate move. We have here an extensive growing busine which requires large energy and resources. We are extending our connections in the United States as in other places, and it may well happen that such a demand may arise in the States for Iron and Brass Bedsteads that it would be to our interest to start the manufacture of them on the spot, when we should gladly avail ourselves of your kind advice and assistance. In the meanwhile you may probably be able to place a few sets of our drawings with large buyers of Iron and Brass Bedsteads giving us the advan-tage of your recommendation which we can promise you will be fully confirmed in any business which may result. We look forward to hearing from you again soon with instructions to send you some drawings for distribution as suggested
