A FATAL SHOOTING AFFAIR IN CHARLOTTE.

THE COLLEGE COMMENCEMENT.

A SUGGESTION—A WAY OUT OF THE DIFFICULTY.

GAS-ELECTRICITY.

THE Wonders of Science
As applied to modern food products are somewhat startling though we need not fear the final result if we unite in trying to stop the wholesale adulteration that is being practiced in the manufacture of cheap goods.

THE DAILY CITIZEN
Will be published every Morning (except Monday) at the following rates:

Six Months, 3.00
Three Months, 1.50
One Month, .50
One Week, .15

CHARLOTTE, N. C., June 9th.
Cyrus Long shot and killed his father-in-law, W. F. Cuthbertson, on Trade street this p. m. Cuthbertson was a desperate character. Sunday night he brutally beat his wife because she visited Long's sick child.

It would take a week as they had done at Marshall Monday evening to turn the people of Asheville away from any of the exercises of the Festival of Faith, especially on a Commencement occasion, and therefore on Tuesday evening about 8 o'clock though there came a steady downpour which lasted an hour or more, there was no appreciable diminution of the usual audience.

The enclosed article offers a suggestion, which I hope may be acted upon by the well-wishers of temperance, and also embodies the "hint" to your paper for the subject matter of the editorial referred to, which every thinking, self-respecting womanly woman should endorse:

For the Asheville Citizen.
Editors:—My attention has been called to the article in your paper upon Gas Works and their merits. I take exception only to the part of the article which touches upon the relative merits and economy of Gas and Electric Light for either street or private lighting.

As applied to modern food products are somewhat startling though we need not fear the final result if we unite in trying to stop the wholesale adulteration that is being practiced in the manufacture of cheap goods.

Another rain yesterday, which only increased the general temper of complaint.

On Tuesday evening the "Mikado" was the scene of a very pleasant musical, given by Mr. Fred L. Jacobs in honor of Mr. J. Taylor Amis, his 40th anniversary.

Then the diplomas were granted with great form and dignity by the Rev. Mr. Atkins, and they were, in that way, the most beautiful of the kind.

Now that the day so long looked forward to, has passed, the popular voice says "No" to prohibition; when both sides can rest and look back upon efforts made and methods used.

On the contrary, the lines or circuits of the electric light system can be run so as to be as safe as any ordinary telephone or telegraph line.

COFFEE
As very few of us can buy ground coffee it is hardly necessary to give the adulterations practiced by cheap dealers by using chicory, beans, peas, carrots, etc., all of which may be detected by stirring in clear water, the greasy nature of the coffee causing it to float on top while the adulterating materials will sink and rapidly discolor the water.

Read the notice of Davis & Worley, dealers in fresh meats at the new market house.

Prayer was offered by the Rev. C. T. Carroll, and then the following programme was entered on and completed:

Programme for Tuesday Evening.
Chorus Class.
Chorus "Figaro's Hochzeit."

Women are rarely required, it must be said to their credit; strong in their innocence and good intentions, they do not calculate, they do not scheme.

This new house is just opening for business; ready in some departments, not quite so in others.

TEA
This is extensively adulterated both in China and this country by the means of exhausted tea leaves and leaves of other trees. Mineral matters are also used for coloring or fancy tea; clay sand etc are extensively used.

The Rev. Dr. Buxton accompanied by his wife, returned on Tuesday evening. He has been in attendance at the Convention at Tarboro, making a visit on his return to Fayetteville, his old home.

Senior Essay—"The True Object of Education."

It is not announced, but believed to be the fact, that within a short time two daily trains will be running from here to Salisbury, and perhaps to Knoxville.

Do good in its mission; and though charity should not end at home, it is better that good works should commence and continue in the domestic circle, and be enlarged still within bounds of organized methods.

They occupy the oldest and Desmond & Co.; but they have made some marked changes. A partition divides the premises into two large rooms, the front for the display of the articles on sale, and the other a restaurant, dining room, and sitting room.

FLOUR
Flour is now being adulterated with plaster, potato starch etc, all of which can be detected by the use of the microscope.

Dr. J. A. Watson arrived last evening with his bride, and accompanied by his brother, as happy a party as ever crossed the Blue Ridge. May their arrival in the Valley be a fortunate augury of their continued happiness.

Senior Essay—"A Wall of Brass."

Our teas are bought from the best tea importers in this country and we can furnish testimonials from the best judges in this section as to their purity.

It is to be hoped that the woman canvasser in their last campaign will consider with care the fact that she is exactly the same agent, seeing that she also sacrifices made, (and certainly women must make sacrifices to do a lost cause, and because prohibition is never a made a law, it is no reason that all good people, lovers of law and order, and of happy home life, should be discouraged, or cease to work.

There is a restaurant to be kept and provided in such way as to meet the wants of the most fastidious ladies, as well as gentlemen; not merely the refreshment of the system, called upon for delicacies, but real substantial; and this from the artistic skill of an Italian chef, who will display all the treasures of continental as well as Italian art.

PEPPER GINGER, CLOVES, CINNAMON
etc are largely adulterated with gypsum, buckwheat husks, starch, sago meal, ground rice and brick dust, all of which can be easily detected by the use of the microscope.

Dr. J. G. Queen, Surgeon Dentist, has taken the office on the second floor of the Citizens building, and in this issue offers his professional services to the public. He will be assisted by Dr. A. B. Wray. Dr. Queen is without doubt well qualified for his profession having attended the best dental schools. He is a young man of fine and industrious habits, and will be his strict attention to his business to his wife's advantage.

Senior Essay—"The Omnipotence of Love."

Our flour is now being adulterated with plaster, potato starch etc, all of which can be detected by the use of the microscope.

It is to be hoped that the woman canvasser in their last campaign will consider with care the fact that she is exactly the same agent, seeing that she also sacrifices made, (and certainly women must make sacrifices to do a lost cause, and because prohibition is never a made a law, it is no reason that all good people, lovers of law and order, and of happy home life, should be discouraged, or cease to work.

There is a restaurant to be kept and provided in such way as to meet the wants of the most fastidious ladies, as well as gentlemen; not merely the refreshment of the system, called upon for delicacies, but real substantial; and this from the artistic skill of an Italian chef, who will display all the treasures of continental as well as Italian art.

GROUND SPICES
Should be closely examined with the microscope.

Dr. J. A. Watson arrived last evening with his bride, and accompanied by his brother, as happy a party as ever crossed the Blue Ridge. May their arrival in the Valley be a fortunate augury of their continued happiness.
