### SENTIMENT IN THE EAST.

We publish below a resolution adopted in a large convention of the Edgecombe democracy, some years ago, as it shows the spirit of the whole eastern section. Repeal the law establishing the present system of county government, and in the next election we will have a republican elected Governor, and in all probability have two or three negro Judges. All you who wish to have a negro hold court in Asheville, to take off your hats in his presence and call him "your Honor," vote for Mr. Pearson and repeal.

Are the inconveniences of the present system so great to the West that they call for the ruin of the East? A change means negro county commissioners, negro justices, sheriffs, clerks, for the East, and probably negro judges for the State. It would be a terrible blow, not only to the Democratic party, but all the people, if the management of all elections in the East be turned over to its enemies. But can we longer expect our white brethren of the East to give their assistance, when we take from them all the advantage they gained by the victory of 1876, and remand them to negro rule? If the white men of the East grow cold and give up the struggle, Lades will find a comfortable private music room in the Asheville Music House, north side of Public Square. grow cold and give up the struggle,
