Our old friend Dr. Council, of Watauga, was defeated for the House by a small vote. This is a surprise and much regretted.

The work of putting down the new pavements on Main street will be begun in a few days. Our city continues valuable improvements.

Raleigh is to have its water supply. The contract for works has been given to the National Water Works Construction Co., of Dayton, Ohio.

The circuit to be made by our street railway, when completed, will be in a few months, will be a most convenient one for most of our citizens.

Judge Avery passed through Thursday evening from Swain court; enroute home. He will hold a court in Madison, for civil causes only, and in Buncombe, before his fall term ends.

A stray milk cow has taken up very comfortable quarters in this city, and the owner is requested to call and get her. She is a red cow, hole in left ear, smooth crop off right ear, giving milk. Call at this office, pay charges, and get the cow.

In alluding recently to the death Mrs. Mary Robertson on South Turkey Creek, we stated that she was a member of the Baptist Church. This we are informed was a mistake, she was never a member of any church.

We had visits yesterday from Maj. W. C. Troy and his son Capt. W. B. Troy. It was the latter and his sister who were hurt by the recent accident near the mouth of Nantahala. Capt. Troy has recovered from his hurts. Miss Troy was more seriously injured though she is recovering.

A week ago Col. J. K. Connally bought a portion of the Hugh Johnston property on Patton Avenue, purchased at public sale by Mr. Barnard. Work was immediately begun for two large and handsome brick tenements, and already the basement is dug out, and brick laying will begin in a few days.

This is quick work.

Hon. J. H. Merrimon received 1,378 and Mr. Cummings 1,292 votes respectively in Rutherford. Our Judicial ticket, Mr. Johnston and Mr. Twitty for Senator, carried the county. Mr. Harrell, dem., was beaten by Mr. Stewart, rep., by 7 votes. Mr. J. B. Eaves, rep., beat Dr. Twitty, for Senate, in Polk, by 25 majority, thus beating him in the district 6 votes. This is unfortunate for Rutherford.

We regret to learn, by private letter to a friend in this city, that Dr. Rodier, who resides at Tuckasee, Jackson county, had the misfortune to have his house and all contents burned a few nights ago, the inmates barely escaping with their lives. The fire occurred about 4 o'clock in the morning. Dr. Rodier and family lived for some time in our city, connected with the Florida Health Association, and his many friends here will much regret his misfortune.

Why go about with that aching head? Try Ayer's Pills. They will relieve the stomach, restore the digestive organs to healthy action, remove the obstructions that depress nerves and brain, and thus cure your headache permanently.

THE BARGAIN COCKETS AT LAW'S. Just started, on it will be placed all goods that for any reason will be sold at half price. A splendid stock of fine Silvers, are, Decorated China and Art Glass, suitable for Christmas or Bridal Gifts; a large stock of Crockery, Cutlery, Glass and Lamps; and at lower prices than ever before at opposite Eagle Hotel.

ONE PRICE ONLY. Sheet Music and Made Boots - Old instruments taken in exchange. For Catalogues and Circulars apply to O. FALK, 1027-Away.

The "Pinnacle Strain" is one of the ways oysters are served at Turner's.

SURPRISED.

Mr. W. T. Jenkins of Robbinville called on us yesterday. He says this is his first visit to Asheville since 1861. He says but for a few old landmarks in the centre of the town he would not have known where he was. The old Buck Tavern was one of these; but even that has changed, and every thing else was new. It is pleasantly interesting to observe the effects of these changes upon the minds of those who knew Asheville at a former time and now see it in the full vigor of its new growth.

OUR CONGRESSIONAL DISTRICT VOTE.

We are endeavoring to get up a tabulated statement of the vote in this congressional district by counties, but have not yet received the returns for Jackson, Swain or Clay. Without these the vote stands as follows:

Johnston 10,377, Jones 8,997, Malone 7,168. Mr. Johnston is now 112 ahead of both Jones and Malone; is 3,209 ahead of Malone, and 7,280 ahead of Jones. From Jackson, Swain and Clay about 1,200 more will be added to Mr. Johnston's majority, thus beating both competitors from 1,300 to 1,400 majority, almost as much as he beat Mr. Ewart two years ago. That is good enough.

LATER.—Since the above was written the following dispatch has been received from Charleston Swain county, under date of the 12th: "Johnstone 567, Malone 83, Jones 29. Johnstone 555 over both competitors."

THE RIGHT SORT OF ENTERPRISE.

Capt. W. W. Lenoir offers the top of Hibriten, a beautiful mountain 2,300 feet above sea level, five miles from Lenoir with fifty acres of land, as a gift to any who will build a \$10,000 hotel at or near the top. It is believed the liberal proposition will soon be accepted and the hotel be built by next Summer.

This is the right sort of enterprise. Suppose the people will select good sites and offer them to parties who will put up machinery and manufacturing enterprises; and then let our merchants give assurance that they will co-operate with all such, those we already have as well as those we may start in selling their wares, we can soon start a manufacturing boom here which will put the brightest of bright faces upon our city's prosperity. Manufacturing enterprises here will give employment to labor, this labor will spend their earnings in home rents, and for living to our merchants and farmer. Our merchants and farmers, therefore, are directly interested in co-operating with and sustaining every such enterprise here at home. Our people must work together, must unite, and work systematically for such improvements. This is not sentiment, it is a cent 1 meant. (While horrible, we hope this is pardonable.) Our Knights of Labor propose to co-operate in such purposes as herein suggested. Let our business men, landowners and farmers unite with the Knights and let all work together for so good a cause. Let us all work, and work in the right way, to keep Asheville a booming.

AT PUBLIC AUCTION.

To-day Mr. A. J. Lyman, real estate broker, will sell at the court house door in this city, some very valuable real estate, near Arden, in this county, on the Asheville and Spartanburg road, the property of Maj. John Evans Brown. Read Mr. Lyman's advertisement, and be sure to attend the sale TO-DAY at the court house, at 12 M.

MESSRS. A. H. STOCKTON & SONS.

We invite the attention of the readers of the CITIZEN to the advertisement of the above new firm. These gentlemen have just opened a very large and attractive stock of general merchandise, groceries, &c., fresh from markets, at their store on north court square, and their prices are as low as they can be offered. Call on them.

IMPORTANT NOTICE.

There are a number of deeds and other papers requiring registration, and which have been registered, now in the office of the register of deeds upon which the fees, is required by law, have not been paid. I request all persons owing such to call at once, pay the fees, and take their papers. This is important.

Just What They All Say.

Hon. D. D. Hayes, of Salem, Ill., says he uses Dr. Bosank's cough and Lung Syrup in his family with the most satisfactory results, in all cases of cough, colds and croup, and recommends it to particular for the little ones. Sample bottle free at H. H. Lyons, druggist.

You can get a nice black Seal Skin Hat for only \$1.00 at J. L. Wilkie's, corner Patton Avenue and Church st. The seal skin hat is new, well made, trimmed and spotted with tan, white body and black band, and has a black band. Has a little of paper a month old. Any information that leads to her recovery will be treated confidentially and will be paid \$100.

For durability—No Shoe superior to C. S. Parsons & Sons, for sale by A. B. Stockton & Sons, 50 North Court Square.

For Carpets, Smyrna Rugs, Oil Cloths, Upholstery Goods, and Housekeeping Goods generally, call on H. REDWOOD & CO., opposite Eagle Hotel.

FOR THE ASHEVILLE CITIZEN, IN FULL LUCK.

CHARLESTON, N. C., Nov. 5, '86. Editors Citizen.—After several years of exertion by our able Representative Hon. R. B. Vance, I have received a pension for 1863, which is a great help to me as well as my neighbors; for I am enabled to pay all my indebtedness and have a surplus of \$1200 left, which I have deposited in the First National Bank of Asheville. The amount, which I have left after paying all my indebtedness will give me ample support during life. I have been trying to obtain it for the last eight years and was doubtful whether I would have gotten it, but for Mr. Vance, he has done every thing in his power towards getting it over since I made the application. Respectfully, Mrs. S. A. BURCHFIELD.

RELIGIOUS NOTICE.

There will be services at the Catholic Church Sunday by the Rev. Father Price, of Wilmington.

COLD WEATHER SIGN.

By order of the weather bureau at Raleigh the Cold Wave Signal was ordered displayed at Battery Park Signal Station yesterday at 10 A. M.; so our readers will have a cold wave about the time they get the Citizen this morning.

A telegram from Jackson county gives Johnston's vote 930, Malone's 89, and Jones 67—giving Johnston a majority over both competitors of 774 in Jackson.

This puts Mr. Johnston 1,343 ahead of both Malone and Jones, 4,558 ahead of Malone, 8,661 ahead of Jones, and Clay to hear from. This latter county will doubtless increase his majority over both competitors to 1500 or 1600.

Gracious Heavings!

Capt. W. S. Tipton is in the city on business connected with the Federal Court, and paid us a pleasant visit. Capt. T. illustrates some remarkable powers as a journalist, having editorial charge of three papers, namely, the Lincoln Press, the Newton Enterprise and the Dallas Current—all weekly, and all Democratic.

Sheriff Tweed, who had acceptably served the people of Madison for a number of years, declined a re-election this year. He has since been appointed a United States Commissioner, and has entered upon his duties. No doubt he will prove as faithful and as acceptable as Commissioner as he was a Sheriff.

Mrs. Fred. Nash Ogden, wife of the late Governor Ogden of Louisiana, and family, are in this city, stopping at Madame Choppin's, at the Sluder Building on Main street. Mrs. Ogden has many relatives by marriage in this State, some in this city, who will be pleased to know she is again in the State.

Will the Advance please tell us where is that 'upheaval' it gassed so much about concerning Maj. Malone's swinging this district? It seems to have been an upheaval; but the Major was "thrown up" along with other things.

Gov. Scales has issued a proclamation setting apart Thursday, 25th inst., as a day of Thanksgiving, in connection with the recommendation of President Cleveland.

There have been more than 500 witnesses discharged during the present term of the Federal Court.

The following are the bids on the iron bridge to be erected at Danville Va.:

According to previous announcement the bridge committee met yesterday at noon, and opened the bids on hand for constructing the iron bridge across the Dan river. The following bids were offered:

New Jersey steel and iron company \$35,885, same \$35,685, King bridge company \$37,340, Morse bridge company \$35,537, same \$35,358, Pittsburgh bridge company \$37,800, Penney bridge company \$40,794, Edge Moor bridge company \$34,000, Canton iron bridge company \$36,200. The bid of the Edge Moor bridge company being the lowest the committee recommended that the contracts be awarded to that company.

FOR THE ASHEVILLE CITIZEN, THE RAVAGES OF THE EARTH-QUAKE.

A GRAPHIC DESCRIPTION OF RECENT EVENTS AT DORCHESTER, SOUTH CAROLINA.

The following very interesting letter to a friend in this city has been kindly furnished us for publication. We use it with pleasure, as it relates to points of historical interest.

The writer, Mr. J. Irving Westervelt, of Summerville, has many friends in Asheville, who will read this with pleasure. He says:

A party, of which the writer was a member, set out on an exploring tour to the points of interest in this locality, caused by the recent earthquake. Taking "Dorchester" in our route, we soon arrived at the old church tower of revolution fame, and found the ruins of the walls still standing erect, but alas! the earthquake has in a moment shivered and fractured the front face including the arch of the doorway from the top to bottom, and from the top corner of the walls, great masses of masonry, six or eight in number, and weighing three or four tons each, have been hurled to the ground a distance of thirty feet or more from the base; bearing evidence not only of the faithfulness of the work and strength of the mortar in earlier days, but also of the tremendous and terrible power of the agency placing them in their present position, thus doing greater injury to the old tower in one instant than time has done more than a century. The walls of the several family burial enclosures have also been shattered and thrown down by the earthquake, and the tombstones broken. The vaults will now be able to add to their Chimnies, and the Relic Hunters to their treasures.

So we now to Oak Forest Plantation, on the old State road (also of Revolution days) leading from Dorchester to Charleston, and about three miles from the old town, we see the avenue of live oaks leading to the enclosure of the once famous mansion of the then proprietor in days gone by, (time having obliterated it) we arrive at the quarters! at present occupied by several families of negroes, living in temporary huts near their houses, they having been so fearfully terrorized by the shocks and awful visible effects at their very door steps! They were so much so as to enter or put foot with in temporary huts, and they would sooner perish in the open air rather than go near them. Some of the larger fissures, openings and land slides are visible on the hundred yards of these houses, and indeed cracks and crevices actually pass under them; and from this point the whole distance down to the water edge of the river (the Ash) the fissures chasms occur in horizontal lines, separated from a few inches to several feet, extending parallel with the river, several hundred yards, and at one point, the entire top surface of the river bank has slid fully a hundred feet down into the stream, carrying with it several large trees, which are yet standing at a considerable angle over the water, their bases submerged 5 or 10 feet by the water of the river. Many of these fissures are from 4 inches to 5 feet wide, and in several you may see into the depth of the earth fifty feet or more.

I am informed by those who have opportunity of observing them daily, they are gradually settling and closing, and my impression is, (given for what it is worth) this whole mass of earth forming the shore of the river, will eventually be submerged and form the bottom of the river, especially should there be prolonged and heavy rains with severe frozes.

About three miles from this place and near Ladson's station on S. C. R. W. in an open old field are to be found numbers of Sand Craters or Geysers, the sand deposit immediately around the basins is in many places 2 or 3 feet deep and of various shades, many specimens containing large quantities of mica in minute particles. Within these sand upheavals the mouth of the crater or basin, by digging a few feet, may be found bedded masses of soft unctuous matter of different colors, and weighing from 1 oz to 6 pounds. The basin of this one described measures 10x16 feet and 5 feet deep. The bottom partially covered 2 or 3 feet in depth with a soft tenacious blue mud resembling somewhat a paste of powdered pumice stone; this white soft may readily be cut with a knife, soon becomes dry and exceedingly hard, and contains many small pieces of mica and other different colored sand are unmistakably upheavals from some unknown depth during the eruption.

There are at least a dozen large ones in this immediate locality; and within two miles of Summerville we counted in passing them no less than forty-four sand deposits showing earth fractures and upheavals, all making the distinctive mark; in fact the surroundings of this particular section abounds with these sand geysers; they are to be seen in every direction. One gentleman of that neighborhood was obliged to gather his corn from one field in baskets by hand, it being dangerous to drive a team and wagon over the ground, quick sands in every part of the field. J. I. W.

Don't Experiment.

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems at first only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for Consumption, Coughs and Colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all Throat, Lung and Chest affections. Trial bottles free at H. H. Lyons Drug Store.

—TERMS REASONABLE.—MESSRS. BROWN & POINTS, nov 12 dt Cherry Hall, Chestnut st.

A remarkable feature in the late elections there has been no charge of force or fraud in any of the large cities, no allegation of violence or intimidation in the South. The only irregularities complained of are alleged use of money by the protectionists to carry Morrison's and Hurd's districts. It was a sort of millenium.

Charleston proposes to ask aid of the United States Government, but to do so in a manly and legitimate way. She asks nothing as charity, nothing as loan, nothing in money; she only asks the government to push the work of the jettie construction forward rapidly, so that by the aid given to commerce Charleston can help herself by the impulse given to its business. This is right to ask, and it is right to give. We hope Congress will not lose a day in enacting the necessary legislation.

Some rain fell on Thursday night and the dust is once more laid. But the rainfalls through the autumn have been few and remarkably light. It is to be hoped that good rains have visited the coast. A few days ago the News and Courier stated as a remarkable fact that no rain had fallen in Charleston since the earthquake of the 31st of August. This in many respects proved a great blessing; for the sufferers escaped exposure to the elements. But now the drought has become a serious thing. The cisterns are mostly dry, and almost the sole reliance for water is on the artesian wells.

OFFICE OR Home Treatment.

WE ARE PERMANENTLY LOCATED IN Asheville, N. C.

Office on Main Street, Pullman House, first floor.

We make a specialty of treating Consumption, Asthma, Bronchitis, Pleurisy, Paralysis, Chorea, Neuralgia, and, in fact, all chronic diseases and all diseases resulting from an impoverished condition of the blood.

If you are able to walk to the office, you CAN be CURED in many cases by our new treatment. We use in addition to the Oxygen, the Medicated Vapor.

In this way we treat the lungs locally, as we vaporize all medicines and the patient inhales the vapor, holding it for a short time in the lungs—thus the medicine being in suspension in the vapor is deposited in the air cells, where it is taken up by the blood. It not only produces the local effect desired, but

A CONSTITUTIONAL EFFECT. If you have any kind of Lung disease, come and consult us. We will not charge you anything for consultation.

THE OXYGEN GAS, breathed two or three times a day, will restore you to perfect health, if you use it most of the time, until the reach of remedial. There is not the least danger connected with the treatment. The effect is pleasant, and the result permanent.

For Asthma, it is a specific as much as Quinine for Chills. If you have Asthma, it will cure you, and the relief is most instantaneous.

ASAEL C. BARRIE, and the rest will permanently cure you. We have been using the OXYGEN AND THE MEDICATED VAPOR

for some years, and in that time we have cured hundreds of cases of Consumption after they had repented hopelessness, and were given up by the best physicians in the land.

All diseases treated locally. Come to our office and get NATURE'S MEDICINE.

COMPOUND OXYGEN. We also pay special attention RECTAL DISEASES.

HILES, FISTULA, FISSURE, AND RECTAL ULCER.

We have an excellent new treatment, that is painless, free patient need not lose one hour from business or pleasure. We do not use the knife or ligature, or the carbolic acid injection. We CURE, if you so desire.

NO CURE, NO PAY! We send you a FREE TREATMENT with this circular to last two months for \$12. We do not publish testimonials, but on application will furnish any number of office addresses, and names of patients who have been cured under our treatment. Consultation free.
