The President has vetoed the bill for Public Buildings at Lafayette, Indiana. If misery loves company, Asheville should be happy. A stick of candy to the person giving the correct answer—on what day and year will the 19th Century end?

There are a great many visitors in the city so early in the season. The streets yesterday presented quite an animated appearance. Pedestrians and questionnaires were out in full force, besides more than the usual number of vehicles. The day was perfect.

Mr. Robert Neville, formerly connected with the management of the Eagle Hotel, has rented the rooms, nineteen in number, in the second and third floors of the Eagle Hotel building, at the north end, and will at once open a first-class boarding house in the same. Mr. Neville is an old experienced hand, and we know he will keep nothing short of a good house.

ARRIVING ALMOST DAILY. New goods at Law's. Not fancy goods, but staple wares this time for actual use—crochery, glass and cutlery. Greater bargains than ever in silver-plated knives, forks and spoons, both in triple and extra plate in Rogers' and other first-class makes, at even lower prices than heretofore.

Base Ball Caps and Belts at Morgan's. Dr. T. C. Hawthorne, the Veterinary Surgeon, makes the foot, shoe and eye a specialty. You will find him at J. V. Sevier's stables.

FROM RALEIGH. The Buncombe Stock Law Amended. Substitute Passes its Several Readings in the Senate—The Revenue Bill—Several Severe Amendments Adopted by the Senate—The House Passes the Machinery Act—The Agricultural and Mechanical College Established, Etc., Etc.

THE POLICE NECESSITIES OF ASHEVILLE. The police force of Asheville numbers one Chief and six policemen, divided into a night and day watch. The corporate limits of the city of Asheville, are located as follows: Beginning in a crevice of a large sack of the mountain ridge, North East of the Court House, and South of the highest top of said mountain, and known as Smith's View, and running thence a straight line South seventy-four degrees West to the East bank of the French Broad river, thence up the bank of said river, passing the Iron Bridge and the mouth of Town Branch to two large oaks on the East bank of said river, and marked with the letters A, C, L., thence a straight line North seventy-four degrees East to a stake one hundred feet East of the crest of the mountain ridge, next West of Ray's Creek, then parallel with top of said mountain ridge, passing one hundred feet East of Beaurmont to a stake one hundred feet East of the crest of the mountain ridge, thence a straight line North, supposed to be a mile from the Court House North, South, East, and West.

THE STOCK LAW. We take the following from the News-Observer report of Monday night's session of the Senate: A substitute passed second reading in lieu of bill and substitute under the Buncombe stock law, providing that the six townships placed under the stock law, without a vote, should remain just as they were; that three of the other seven should almost entirely be taken out from under the stock law. These remain in statu quo, and the other four, upon petition of a majority of the voters of any of them, to the county commissioners, shall have the right to vote upon the question, and come out by majority vote. This is the substitute of the Senate branch of the conference committee offered as a compromise between the two extremes, and leaves all the townships, except three, just as the law of 1885 placed them.

THE BILL DECIDES THE QUESTION OF "NO-FENCE." The severe wind of Sunday played havoc with the fences in various sections of the county, in many places laying them flat with the ground. A gentleman coming in Monday from Pigeon River says almost every fence on the road has been destroyed, often obstructing the road. Can it be possible that old Boreas has been engaged in the interest of the stock law?

MR. JOHN A. FAGG OBTAINS A PENSION. We copy the following from the Congressional Record of the 26th ult: "The bill (H. R. 6188) granting a pension to John A. Fagg was considered as in Committee of the Whole. It proposes to place on the pension-roll the name of John A. Fagg, late lieutenant-colonel of the First North Carolina Regiment, in the Mexican war.

OUR LEGISLATORS WILL RETURN HOME next week, and will doubtless be kept busy for some time giving an account of their stewardship. In which direction is Asheville booming? Is the question often asked. Hard to tell in what direction it is not, as property in every quarter is enhancing in value rapidly.

Hall's Vegetable Sicilian Hair Renewer imparts a fine gloss and freshness to the hair and is highly recommended by physicians, clergymen and scientists as a preparation accomplishing wonderful results. It is a certain remedy for removing dandruff, making the scalp white and clean and restoring gray hair to its youthful color.

Dr. D. D. Heynie, of Salem, Ill., says he has seen Dr. Bosnian's cough and Lung Syrup in his family with the most satisfactory results, in all cases of coughs, colds and croup, and recommends it in particular for the little ones. Sample bottle free at H. H. Lyons, druggist.

THE RICHMOND & DANVILLE HAS scooped the Nashville & Chattanooga. Next. As time passes the great ability and wisdom of the immortal Jefferson are becoming more apparent. Just in proportion as politicians depart from the grand fundamental principles taught by the great Virginian is there danger to our institutions.—Wilmington Star.

THE PENSION BILL would have required an annual tax of \$75,000,000 of which the South would have had to pay 26 per cent, or \$19,000,000. That is the tax Mr. Randall would have imposed on this section, not from any love of the soldier, but to save the tariff. That vote measures his good will and exposes his hypocrisy. On all important measures on which the parties have divided Mr. Randall is found in the Republican camp. Why? Because he is sent to represent Republican interests, and his continuance in Congress depends on faithful service to the Republican bosses of Pennsylvania.

PHILANTHROPIC DOCTRINES are not happy in handling the labor question. When Robert Laird Collyer lectured the workmen of Brooklyn the other day he recommended industrial education as a panacea for all the ills of the toiler's lot. Then a type-founder arose and said: "Lots of superior talent and education is working in New York dirt cheap, or walking the streets looking for a job. Among engravers, for instance; among jewelers, men who are real artists, there is a large number of men. Ask about it. They are getting \$50 a week and doing no work. What are you going to do with them?" And to this the eloquent Collyer could make no reply, beyond expressing a belief that somehow American people would solve the problem.

IT IS EXPECTED THAT IT WILL be necessary to call an extra session of the U. S. Senate. James Gordon Bennett's yacht Namouna arrived at Calcutta on Thursday last. L. B. Lucas, of Jefferson county, has been appointed United States Senator from West Virginia. It is estimated that the public debt has been cut down two millions during the month of February.

JOHN J. MCGUIRE, collector of the Port of Pensacola, and a native of Wilmington, N. C., died at Mobile, aged 45 years. Though there are some people in his own country who can not stomach the Prince of Wales, Italy seems ready to swallow him. A big blaze took place at Pior No. 37 North River, New York, Monday. Four hundred thousand dollars went up in smoke.

MRS. DR. WILLIAM FITHIAN, the mother of Pension Commissioner Black, died at the home of her husband, in Danville, Ill., on Friday evening. Henry Mayer, a letter carrier employed at the New York Postoffice Station on L, was arrested for stealing letters from the mails, and was held for trial.

THE PRESIDENT NOMINATED Henry B. Harris, of Georgia, to be third Post Master General vice Hazen, resigned; James Trotter, of Mass., to be Recorder of Deeds for the District of Columbia. They were talking of atmospheric influence on the growth and development of the affections as exemplified by summer resort love making in contradistinction to that prevailing in Washington society and hotel parlors. "Were you ever at Mountain Lake, Giles county, Virginia?" he asked, with an intense geographic yearning in his soulful voice. "No," she replied, casting down her eyes; "is it nice there?" "Delightful," he said; "by day the sun is soft; by night the moon and stars make love in the clear skies; the mountains rise to kiss the clouds; the birds sing to the nodding flowers, and from the purple peaks which melt into three States." "Oh love! oh rapture!" she murmured, "is one of them the state of matrimony?"

LIVER PILLS. Use Dr. Gunn's Liver Pills for Sallow complexion, pimples on the face and Biliousness. Never sticks or gripes. Only one for a dose. Samples free at H. H. Lyons, druggist.

ENGLISH RIDING PANTS and jackets just received at M. Levy's. Fence or No-Fence—the finest display of Shoes, ever seen in the South, is at the Shoe Store. HERBERT & WEAVER.

FOR THE ASHEVILLE CITIZEN. OBITUARY. How often do our hearts grow sad and faint at the mysterious dispensation of an inscrutable, but merciful Providence? When we are called to take a long farewell of those who are so near and dear to us, by all the ties of affection, the world grows dark and sad around us; and our pathway through life would be dark and gloomy were it not for the glorious radiance that the Star of Bethlehem sheds us, while the finger of hope points us to the beautiful gates, where our loved ones watching and waiting to welcome us home. Such have been our reflections while meditating on the death of our dear friend Mrs. Harriett Wright, the wife of Mr. Simson Wright, who departed this life February 13th, 1887, in the 87th year of her age. She was a loving wife, a kind and affectionate mother, a kind and good neighbor, was loved by all who knew her. She leaves a husband and five children to mourn her death. During her illness she expressed her willingness to die, saying "she loved the Savior and had nothing to fear." May all her friends and relatives so live, that like her, they may not, falter, but say let us pass over the river and rest under the shade of Jesus blessed sleep, From whence none ever wakes to weep, A calm and undisturbed repose, Unbroken by the last of foes.

Hon. Carl Schurz slipped and fell on the pave at New York sustaining a severe injury to his left hip. The southern visitor at the ice carnival was most astonished at the ice Palace. He wondered how they kept the water in that shape till it froze. No other medicine is so reliable as Ayer's Cherry Pectoral for coughs, colds and all derangements of the respiratory organs tending toward consumption. In all ordinary cases it is a certain cure, and it affords rare relief for the asthmatic and consumptive, even in advanced stages of disease.
