THE MUNICIPAL ELECTION
MR. HARKINS ELECTED
MAYOR.
MESSRS. MILLER, FITZPATRICK,
AND WOLFE
ELECTED ALDERMEN.
The municipal election yesterday resulted as follows:
For Mayor—
Harkins 598
Aston 475
Hunt 20
Gudger 35
For Aldermen—
Halliburton, 464
Wolfe, 505
Fitzpatrick, 1018
Miller, 572
Harkins, 629
Mr. Harkins is elected Mayor for two years. We have no comments to make. Mr. Harkins was not our choice. He is an honest man, largely interested in Asheville, both as a property holder and in his earnest desire for the welfare and progress of the city. He will certainly do nothing which may have reason to fear may militate against our city, and in all efforts of his administration in behalf of the progress and wellbeing of our city he may rely upon the earnest and hearty co-operation of the CITIZENS.

INTER-STATE FARMERS' SUMMER EXAM-
PIMENT.
The above under the auspices of the Farmers of Heshandy of the States of Alabama, Tennessee, Georgia, North and South Carolina will be held at Spartanburg, S. C. beginning Tuesday, August 2nd and continuing until Saturday, the 6th.
For information apply to John W. Wofford, Secretary Inter-State Board, or Chas. H. Carlisle, Sec. Local Board. This is the first annual meeting. Spartanburg was chosen on account of its abundant railroad facilities and other advantages. Our farmers and others will please take notice, as the occasion can be made instructive and profitable.

ZACHARY'S FINE BEEF.
In an article in the CITIZEN Sunday morning referring to the 94 fine steers bought from Mr. Fuller, of Transylvania, by the Zachary Brothers, we stated they had paid \$388.17. They paid instead \$382.17.
DIED.
Col. Joseph Hamilton, of Crab Creek township, Henderson county, N. C., in his 76th year of age. An eminent citizen, a kind neighbor, an affectionate father and an earnest Christian, he leaves a large circle of friends and acquaintances who tender to the bereaved widow and surviving children their sympathies and prayers.

STATE NEWS.
Mr. R. K. Bryan, who for some years edited papers at Fayetteville and Hickory, and always displayed ability in his profession, has almost lost his sight. He is now at his old home in Pender county.
Mr. Eugene G. Harrell, secretary of the Teachers' Assembly, has been at Morehead, and has completed every arrangement for the accommodation of nine hundred people, who will attend the summer meeting at the Atlantic Hotel.
The Charlotte Chronicle says: A white man named Tom Hudson, employed as a brakeman on the C. & C. Road between Black's and Rutherfordton, met with an accident at Black's yesterday, which resulted in the loss of one of his feet. He was run over by the train and the foot was so badly crushed by the wheels that it had to be amputated.
The News Observer says: The accepted plans and specifications for the new hotel, to be built by Mr. R. S. Pullen at the corner of Fayetteville and Davie streets, have been received. The building is to be a three story brick structure, the lower floor to be divided into stores, offices, etc. The second and third floors will contain parlors, halls and sixty-four guest rooms, besides all other compartments and conveniences. Every modern feature will be introduced into the building and it will be a perfect arrangement of its kind.
The Goldsboro Messenger says: Major W. A. Smith supercedes Mr. George T. Jones as one of the proprietors of the Gregory House and, consequently, the firm name has been changed to Edgerton & Smith.
[This is the former president of the N. C. R. R. and receiver of the W. N. C. R. R., once a noted Republican politician, candidate for Lt. Governor against Jarvis, now a very sound Democrat. He is Joe Turner's "Blow your horn Billy." He can blow the dinner horn to some purpose.—CITIZEN.]

OPTIONS.
A new feature has been introduced here in real estate transactions, two instances of which have recently occurred. The system has its conveniences, no doubt.
A Large Crowd.
Of busy workers were on the streets yesterday, interested in the election. A more orderly crowd never assembled, and all passed off pleasantly so far as freedom for bitterness is concerned. It is, however, in all elections here.
A St. Paul physician thinks that poppies could be raised in Florida at a profit of \$1,000 per acre. Many years ago the Atlanta Journal knew a physician of Wilcox county, Ala., who grew the poppies and manufactured the laudanum which he used in his own practice.
Tobacco sold on warehouse floors in Salisbury, 1,240,135 pounds. Of this about 78 per cent has been bought for home manufacture and about 22 per cent shipped away. On the whole it could be classed only as common, with some few exceptions of fine.
A BRITISH HERO'S REWARD.—Raynold's (London) Newspaper.—Private Wagg, who fought in the glorious cause at Abu Klea and was rewarded by eleven spears in eleven different spots, was rewarded by a pension of one shilling per day for twelve months. Her Majesty, however, now finds that he is not likely to live long, so she has decreed that the shattered wreck of Wagg should receive 10s. 6d. a week for life. Fame, two wooden legs, and eighteen pence a day, all put together, form a noble institution.

While in Jackson county last week we were glad to learn that the acreage in tobacco this year will be less than last year, and the use of fertilizers is almost suspended. The farmers are convinced that tobacco does not pay whenever provision crops are neglected. The experience of this year and of the last has been a sore one, and it will result in profit to all concerned.
Mr. McCoy informs us that yesterday morning he passed the cabin of an old negro named Smart Gudge, who, on the authority of Mr. George Alexander, who was Mr. McCoy's companion in his ride to town, was the first person born in Buncombe county after its bounds were defined as such. That happened in 1791; so that Smart is a very old man. He is very infirm.

We are sorry that Mr. Jones will not remain in our city, where he has so many warm friends, but he carries with him our best wishes for large measures of success."
THE ASHEVILLE HOME AND LOAN ASSOCIATION.
In speaking of the Building and Loan Association of Charlotte, the Observer of that city says: "The Secretary and Treasurer of the Peoples' Building and Loan Association, Mr. R. J. Sifford, yesterday closed up the first series of stock by settlement with one hundred dollars per share, the stock having reached par value two weeks ago. The association run five years and nine months. The net earnings were 111 per cent on investments. The association closed up without the loss of a single dollar, which shows wise and prudent management on the part of its officers. This association has two more series in active operation, and doing well."
This is a very suggestive showing—those who borrowed money from the association only paid 8 per cent in easy installments, for it, while those who did not borrow by compounding interest received 11 per cent and better for their money.
The Asheville Home and Loan Association, operated upon the same principles, is doing as well for parties concerned, and for Asheville. The recent statement in the CITIZEN of its good work, merited the careful attention of our people. To make it convenient for all who may wish to join the association, a new series of stock will be opened this month. Let everybody not already subscribed for shares enter at this series. Those already in, may, if they choose, take new stock. Let us enlarge the list so a large fund may be collected—a little from each—every month, and thus add to the powers of the Association for good. Call of Mr. T. W. Patton, Secretary and Treasurer, for full particulars.

The regular meeting of the Asheville Tobacco Association will be held this afternoon at 4 o'clock.

THE CHARLOTTE CHRONICLE AND ASHEVILLE.
The above journal, unlike some of our contemporaries, shows neither envy, hatred or malice in observing the increase of Asheville. On the contrary it speaks and feels like a true North Carolinian with a heart and a mind that take the interests of the whole State in their charge. This is the way we should always look at each other. We quote with pleasure what the Chronicle says about us:
"The Chronicle takes great pride in noting the progress and enterprise of the towns of our State. The Chronicle is thoroughly North Carolinian, if anything and nothing more, and it is glad to see the good old State pushing forward in every direction. The most gratifying reports come from Asheville—North Carolina's resort for tourists and health seekers."
The census of the city has been completed and shows that Asheville has 7,258 inhabitants. When the census of 1880 was taken the place had only 2,616. That there should be to-day nearly three times as many as in 1880 is a matter of surprise to many who are not familiar with the wonderful growth of that city. It is a noticeable fact that never in the history of the place, have actual settlers poured so steadily and ceaselessly into that city, as they do to-day.
This is not all—the new water works, costing over \$80,000, have been completed. They were about done a week ago, but some of the piping gave away and it has taken some days to make the necessary repairs. Now the clear, crystal, cool water from the swananoa—the 'nymph of beauty'—are distributed throughout the city imparting new charms and conveniences to this mountain metropolis and sending along every street and avenue renewed life and vigor. There can be no purer, better water supply than Asheville now enjoys.

THE CENT FORTING ITS WAY.
The cent, which could not be forced suddenly on the community, is growing into favor. A large number of houses are now willing to accept it and make their change accordingly, and the public is beginning to recognize that the cent is of some value after all. Strange to say, as at the beginning of this movement, the small dealers still hold back. Coppers will be taken in payment by almost any large dry goods house in the city, but the candy or banana peddler on the corners opposite ignores this movement, and is afraid of the copper currency. There need be no fear, however, that the cent will not succeed. It has indeed already succeeded. The new coin has been introduced. It is no longer a novelty or a surprise. Those who thought they could suddenly spring upon the community did not recognize the conservative nature of the people; did not appreciate the fact that even so small a revolution as this can only be accomplished with time and patience.—N. O. Times Democrat.
[From time immemorial the cent had no more recognition as a coin among the Gulf cities and towns than a brass button. The smallest coin that received notice was the "ninavene," the old Spanish half real, or six and a quarter cents; if you wanted an old fashioned ginger cake, value with us one cent, you had to take half a dozen. If you wanted a one cent cigar, you had to buy enough to send you to bed for a week. We are glad to see so sensible a change in habits.—CITIZEN.]

THE SPARTANBURG AND ASHEVILLE RAILROAD INVESTIGATION.
In Sunday morning's issue we noticed that the South Carolina railroad commission was to visit Spartanburg to investigate the management of the above road. By invitation, a number of gentlemen from this city leave to-day under the escort of the Asheville Board of Trade. The committee consists of Messrs. W. E. Brees, W. T. Pennington, M. E. Carter, S. R. Kepler and Hon. T. F. Davidson. We will await the action of the meeting with interest. We hope it will result in placing this road in a true relation to the communities it is assumed to unite, which certainly does not exist at present.
The following is the letter of invitation referred to:
SPARTANBURG, S. C., April 30, 1887.
Wm. E. Brees, Esq., Asheville, N. C. —
Dear Sir:—As you probably know, the Railroad Commissioners of this State will meet here on the 4th day of May, to investigate the management of the Asheville and Spartanburg Railroad, with the view of recommending the best way to run the same. It is a matter of very great importance to all living along the line, and especially to the citizens of Spartanburg and Asheville. Do you not think it would be a credit to our city, if the county of Spartanburg and your Board of Trade be represented here on the 4th? It might be best to have them represented by counsel as well as by delegation. See your Mayor and other influential citizens, and try to impress upon them the importance of immediately acting in this regard.
Yours truly,
JOHN B. CLEVELAND.

Mayor Aston had been invited to attend this meeting previous to the receipt of the above letter, and being so engaged as not to be able to attend, appointed Mr. S. R. Kepler, President of the Board of Trade. After the receipt of Mr. Cleveland's letter the Board of Trade took action as stated.

THE RICHMOND DISPATCH CORRESPONDENCE.
The Richmond Dispatch correspondent says: Noah Evans, the negro charged with burning the oil mills here, was sent to jail to-day by Mayor Dodd in default of \$500 bond, and will be tried at the July term of the Superior Court. The prosecution claim that the evidence will convict him.
Mr. H. A. James, the young man of Clinton who was so dreadfully wounded at the Clinton railway celebration by being thrust through the body with a sword, continues to improve.

Darhan's population also seems to have increased phenomenally. There are now, according to the latest census taker, 7,000 people in that stirring town, as against 2,000 only in 1880. The growth is solid too. There is nothing ephemeral about the prosperity of Darhan.

Health Notes.
The summer is once more on us, and while we may, in our excellent climate, reasonably hope to pass through it without a visitation of the frightful scourges which are so terrible in some parts of the South, yet we must expect the usual amount of summer troubles. Among these, diarrhoea or summer complaint is most to be dreaded. Fortunately this may be rendered harmless by using Dr. Lytle's Elixir, which should be used in every family.

How It Is Done.
We learn from London Queen—Young people who are to be married make a list together of all persons to whom cards should be sent, and all the invitations go from the lady's family. The bride writes a note of thanks before she leaves home to all from whom presents have come, including her husband's relatives and friends and her own. Especially is it necessary to write those people whom she does not know, but whose gifts have arisen from a regard for her fiancee or her parents. It is in better taste to write these notes on one note paper rather than cards.
The Washington Critic says, when calling to present a letter of introduction the caller does not go in. He simply leaves the letter with his card and address. If the letter has been given for a special purpose, which purpose should be mentioned in the letter, a card may be sent in with it and an interview requested.
Harper's Bazar says, on reception days a lady wears a plain rich dress, but takes care never to be overdressed at home. When visitors enter she rises and seats them so as to have, if possible, a word with each. She is on the alert to notice arrivals that she may be sure to speak to every guest.

THE LAND SALE.
The large body of land advertised for sale by Commissioner C. W. Malone in the CITIZEN the past few weeks attracted a large crowd yesterday. Mr. Malone sold the property, 11,000 acres, to Mr. Henry Koons of Buffalo, New York, for \$7,000. This is valuable property, and sold very cheaply. Before the day was over Mr. Koons was offered \$10,000 for the property but declined it, of course. He is evidently a shrewd man, and knows a good thing when he sees it. We hope he will go at once into establishing a large stock farm, for which this land is admirably adapted.

The cent, which could not be forced suddenly on the community, is growing into favor. A large number of houses are now willing to accept it and make their change accordingly, and the public is beginning to recognize that the cent is of some value after all.
