The election in Hendersonville resulted in the triumph of the License or anti-prohibition ticket by a vote of 91 to 2. The Times says the prohibitionist declined to vote, on the announcement made by Mr. T. Israel that the limits of Hendersonville were included in the limits of Mud Creek church in which the sale of liquor was prohibited, and that Hendersonville came under the operation of the law governing Mud Creek church, and therefore the election was a useless and illegal proceeding. But without this the Times thinks the vote, in a hotly contested election, would have prevailed by from a dozen to twenty votes.

THE LADIES. Of the M. E. Church, South, will all please meet with the Home Missionary Society, at the church, to-morrow (Thursday) evening, at 8 o'clock. Don't fail.

Among the relatives present were his wife and his sons from Brooklyn, N. Y., St. Louis, Mo., and Whittier, N. C., by whom his decease was entirely unexpected and deeply felt.

Keiley, of Brooklyn, in this morning celebrated mass in Maj. Keiley's private chapel. Quarantining Against Key West. (By telegraph to the Asheville Citizen.) WASHINGTON, D. C., June 7.—Acting Surgeon General Stoner of the Marine Hospital Service, yesterday telegraphed the President of the Board of Health at Tampa, Fla., for information as to what measures had been adopted at that city to prevent the spread of yellow fever. A reply was received this morning saying that passengers from infected districts are detained in quarantine fifteen days, and their baggage disinfected. The coast countries south of Tampa have also established quarantine against Key West. In order to insure thorough fumigation of mails at Tampa the employment of extra help has been authorized.

The Health of Florida Good, Except at Key West. (By telegraph to the Asheville Citizen.) JACKSONVILLE, FLA., June 7.—The Times-Union to-day in an editorial summing up the situation, says there is no yellow fever in Florida except at Key West which is on an isolated island nearly 100 miles South of Tampa and nearly 100 miles from the nearest point on the mainland which borders the Everglades. There has been no yellow fever at Tampa or any other place on the mainland. The authorities are vigilant in nearly every county in the State. The general health is excellent and the sanitary conditions decidedly good. The weather is simply delightful, the health being tempered by constant sea breezes. A rigid quarantine is maintained against Key West and Havana; and to make assurance doubly sure, certificates are required of travelers to show that they are not from infected localities. There is no danger whatever in any one coming to Florida and going anywhere in the State except to Key West.

Cardinal Gibbons' Enthusiastic Reception in Baltimore. (By telegraph to the Asheville Citizen.) BALTIMORE, June 7.—It was generally known that Cardinal Gibbons would reach Baltimore this afternoon by the limited express from New York; and long before time of the arrival of the train, the streets leading to the union station, were thronged with people wanting their way thither. Most extensive arrangements had been perfected to give him a reception worthy of the high office he fills, as well as of the general high regard for him personally without regard to class or sect. Charles street from the Cardinal's palace to the depot presented two unbroken lines composed of Catholic Knights, Benevolent associations and members of the Young Catholic Friends Society. The Cardinal was received by Mayor Hodges, members of the City Council, Judges of the Courts and Police Commissioners, who took the right of the line. On the part of the Catholic Societies the Cardinal was received by Charles J. B. Naparte, trustee of the cathedral, and a committee of the clergy who took their positions in line in rear of the civil officials. As the head of the line moved, the societies forming several divisions, fell into the wake of the procession. The second division consisted of Catholic Rerapient Legion; the third of Catholic Knighthood Union,

the fourth of German, Bohemian and Polish societies, and the fifth of the Lyceum, Beneficial and Temperance societies and other Catholic citizens. A large delegation from Washington city was also present and took part in the reception. When the head of the column reached the Cardinal's palace, there was a halt and the Cardinal with the Clergy and the Guard of Honor, entered the building. There the Cardinal was invested with his official robes, and returning to the street, the procession formed and moved to the west or main entrance of the cathedral, where there was a formal reception by manager McColgan, and the service for Cardinals reception was performed for the first time in Baltimore. At the close of the religious service the Cardinal and Clergy returned to the palace, and the procession, which had moved through several principal streets returned to Charles street, and was reviewed by the Cardinal. The ceremonies throughout were of an imposing character and were witnessed by many thousands of people. Cardinal Gibbons expressed his high appreciation of the compliment paid him.

The Great Carpenters Meeting. (By telegraph to the Asheville Citizen.) CHICAGO, June 7th.—Fully 1,500 members of the various organizations of Carpenters and Joiners assembled in a mass meeting last night to discuss the proposed action of bosses in endeavoring to restore the old system of nine hour working day. The tenor of the speeches was that the men should resist the extension of their working hours, and if needed, to strike in case a strike would prove necessary. The speakers promised aid of their respective organizations in helping men to bring it to a successful conclusion.

A Boiler Explosion and Loss of Life. (By telegraph to the Asheville Citizen.) CHESTER, Pa., June 7.—The boiler of a locomotive attached to the South bound freight train on the Philadelphia and Baltimore railroad exploded in front of the passenger station in this city at 8 o'clock this morning. The air was filled with flying pieces of iron and timber and scalding water. A number of persons were standing on the station platform and several of them were badly scalded or cut with flying missiles. One man, a carpenter employed on the road, residing in Baltimore was instantly killed. John Murphy, aged 21, a telegraph operator of this city was so badly scalded and injured that his death is momentarily expected. The fireman was standing on the said box of the engine and was blown many feet into the air. He was more hurt by the fall than by the explosion. The railroad station was wrecked and a row of buildings on the opposite side of the street was badly damaged. Portions of the engine were found three squares away.

THE BAD DEATH OF R. V. SHELTON. Died, at the Santos Agency, Nebraska, Wednesday, May 26th, 1887, Samuel Vance Shelton, son of Mr. and Mrs. S. C. Shelton, aged 16 years, 9 months, and 18 days. This young man was drowned in a small boat, near the agency, where he had gone to bathe. This sad calamity which has befallen a family who were not long since residents of Asheville, has been one that has filled the whole community here, both whites and Indians, with sorrow. The funeral services were held at the Episcopal Mission church, on Santos Reservation, and were attended by a large concourse of people. Young Shelton was an honor to his Reservation. He was highly esteemed by all. His culture and daily demeanor was a most valuable lesson to the young people of both races. His good example will be missed, but not lost. I pray that the common Father of us all may comfort the bereaved family in this new and wild land, to which they have so recently come.
