

ASHEVILLE CITIZEN.

R. M. PURMAN, JORDAN STONE, F. D. CAMERON, EDITORS.

FRIDAY MORNING, JULY 15, 1887. THE TAKING OF THE BASTILE.

Yesterday was a day forever memorable in French annals—the day in which the people set their seal to the act of liberty by the obliteration of that strong-hold of tyranny which had emphasized through centuries of oppression the terrors of despotism and the misery of the subject.

Humanity was aggrieved at the horrible license in which newly found freedom indulged itself. Nevertheless ultimately humanity was the gainer; and when the fury of the storm had passed away, France found herself the possessor of something like real freedom.

Therefore, yesterday was observed as a holiday, patriotically, jubilantly, perhaps licentiously; for the old leaven of license which worked so furiously in the tumultuous days of the French revolution still works in a populace quite as excitable as their progenitors, and quite as sensitive to the suggestions of disorder.

GOOD SENSE. The present Mayor of New York is a man who talks and acts to the point. His apprehension of what is right is almost inflexible and his expression of views is direct and happy.

“The fundamental idea of human liberty is the right of the individual to dispose of himself, his labor and his property according to his own sense of justice, and free from the control of all other individuals, except so far as personal rights are by law subrogated to the superior rights of authority. All attempts on the part of irresponsible organizations to interfere with this fundamental right of the citizens are at war with the principles of our government.”

AGRICULTURAL INTERESTS. The Raleigh News-Observer has a timely article upon our agricultural interests, from which we select the following: “There can be no solid prosperity in any line of human effort without prosperity in agriculture.”

world is never more than two weeks from a famine.” And the News-Observer adds much that is valuable and important concerning tariff and other kindred oppressions; but the greatest drawback to agricultural success is carelessness or something worse in the methods of farming.

No farmer can succeed if he relies on farming for either a living or profit, who has to buy his farm supplies. Instead of buying he should have something to sell every year; not only every year, but, by diversifying crops, have something to sell throughout the seasons.

And he is a very slipshod farmer who cultivates an acre of land, year after year, through a life time, to gather fifteen or twenty bushels of corn and wheat, and withal depend only on his corn and wheat thus raised for his supplies and for a surplus.

And, our farmers should be encouraged in individual effort for improvement in their condition rather than be taught to look to outside agencies for help. The man who depends on accidents or luck for making money will end in the poorhouse, and die, in fact, a pauper.

Almost a Miracle. We were very much surprised yesterday to see Squire Davis out upon the street again looking as though he had taken a new lease of life.

CHARLOTTE Female Institute. NO Institute for young ladies in the South has advantages superior to those offered here in every department—College, Art, and Music.

Charlie Foster, formerly a republican governor of Ohio, and a popular man with his party, thus refers to the Sherman-Blaine prospects next year: “Blaine is just as strong as ever, and the attacks upon him are senseless, but those who disliked him in 1884 hate him now. I don't think it would be as safe to nominate Blaine as Sherman, still I think most any Republican can be elected.”

The Sunday laws which closed up the bars, theatres and beer gardens of New York have been declared void by Judge Noonan, of that city.

The subsidy jobbers, pension fund swindlers and coast fortification engineers are getting ready for a fresh attack upon the Treasury on the assembling of the Fiftieth Congress. Cleveland is the most effective bar to their inroads on the public fisc.

Prominent colored Texas Republicans think their lives cast in very hard places now. One of them vented his feelings in a remark sorrowfully: “Times are changed; de hog law, lokal action 'an' bard' wire fences am gwine to ruin de country.”

Is Our Climate Changing? We are inclined to ask this question by reason of our hearing of many reports from the country, this summer, of diseases which have not heretofore prevailed to such an extent as they are doing.

Ladies will find relief from headache, constiveness, swimming in the head, colic, sour stomach, restlessness, indigestion, constant or periodical sick headaches, weakness in the back or kidneys, pain in the shoulders and different parts of the body, a feeling of lassitude and despondency by taking Simmons Liver Regulator. It is not unpleasant, is purely vegetable, and is not injurious to the most delicate constitution.

How's Your Liver? Is the Oriental salutation, knowing that good health cannot exist without a healthy liver. When the liver is torpid the bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent vomiting and a feeling of lassitude, despondency and nervousness indicate how the who's system is deranged.
