NEVER BEFORE. Has such a stock of Men's and Boys' clothing and furnishings, boots and shoes, been seen west of the Blue Ridge as will be found in Levy's store in about ten days? Mr. Levy himself assures us. He is in New York, and says his stock will not only be large, but elegant and cheap.

CHURCH STREET. We are pleased to know our city authorities are considering favorably the widening of Church street. This is one of the pressing wants of the city just now, a matter of great importance to a very large portion of our citizens and visitors. We hope it will be done at an early date.

THE BOARD OF ALDERMEN. Held a regular meeting last night, all members being present. Permission was given Hon. Thos. D. Johnston to make a certain extension, according to plans and specifications submitted to meet certain changes he contemplates in one of his buildings in this city.

WALTON'S SEEDLING—A NEW AND BEAUTIFUL GRAPE. Our countryman Mr. A. F. Walton brought to the CITIZEN office several bunches of a new seedling grape which he has developed after much patient effort. It certainly has cause to be proud of the result. The bunches are quite large and well shouldered, while the grape is large, of the richest purple, and a most delicate flavor. This matured very finely, and give evidence of proving a very popular and valuable addition to the grape family.

Chief of Police Waddell makes another good showing of the work of his department for the month of August. The "cops" and the authorities are vigilant and earnest in the discharge of their respective duties in the execution of the laws.

The old Buck Tavern, stripped of the long familiar piazza, torn away for the widened sidewalks has a most forlorn appearance. It looks like a dilapidated street loafer with seedy clothes and battered hat from which the visor has been torn away.

Oh why should the spirit of mortal be proud? Well, the Asheville mortal is proud because so many piles of building material are to be seen on every street being used rapidly in the construction of elegant houses for business or residence uses; because the walkway is charming and street and sidewalk paving goes on apace; because we are to have a fine Graded School; because the moonlight nights are favorable to outdoor promenades; because our population increases daily and frequently several times double daily; because our hotels and boarding houses are comfortably full of visitors; because our market is abundantly supplied with the fruits of the earth; because the Asheville Female College will soon be finished, and will be the handsomest building of its kind in the State; because real estate still is on the rise, and in demand by people for new enterprises; because we are soon to have a grand 75-foot-wide avenue; because we have more churches and more church going people than any city of its size in the State.

WE WOULD call attention of our bicyclists to the fact that their steeds are alarming to horses, and to request they be careful and watchful when on the streets and vehicles are approaching. One of them came near causing a serious accident yesterday by frightening a horse attached to a vehicle loaded with ladies and children. A word of caution, we are sure will be sufficient.

ABOUT 11 o'clock last night Mr. Thos Higgins, an employee of Ballard Bros., walked off the roof of a building, and fell some 40 feet. He was heard calling for help, and taken to Grant's Pharmacy and examined by Drs. Burroughs and Watson, who found his left leg broken in two places, his right leg broken, all very badly, one eye knocked out, and various other bruises. He was sent to the Hospital.

THE ANARCHISTS TO HANG.—A telegram from Chicago of September 1st says the Supreme Court will affirm the death sentence of the seven anarchists condemned to be hung for the participation in the Chicago riots in which sixty or more of the police were killed and wounded while attempting to maintain public order. It is said there will be no dissenting opinion, the justices being all of one mind. This is a notable triumph of law over notably dangerous elements.

The Wilmington Star says: Advices from up the river state that the flood in the Cape Fear is subsiding. All the low lands below Fayetteville were covered, and it is estimated about two-thirds of the crops were destroyed. The fresher has been a disastrous one to the farmers, but the water lacked about four feet of attaining the height it reached in the fresher of 1886.—Receipts of cotton yesterday 10 bales; same date last year 3 bales.—The pilot boats William & Witchard and Wildcat, have not been heard from since the recent storm. Great uneasiness is manifested at South port on account of their long absence. The supposition, however, is, that they may be at Charleston, and parties interested telegraphed yesterday to ascertain if the boats were harbored there, but no replies had been received up to last night.

C. A. Percy, a young mechanic at Niagara Falls, constructed a life-saving craft of his own. It is 17 feet long and 4 1/2 feet wide, with large air chambers at either end. He made a successful trip through the Niagara rapids and whirlpool on Sunday afternoon. A dipnet to the world says: "The voyage occupied about four minutes and was a rough one. The boat behaved well, and though frequently out of sight and full of water it quickly righted. Several times it turned around, but it never rolled over. The boat passed directly across the whirlpool and as it reached the Canadian shore Percy came out and took the oars and pulled up to the front of Col's elevator. Reaching the bank at 3:55 o'clock, Percy was nauseated, but was not injured. He was well pleased with his craft and expects to introduce it to the Life-Saving Service."

"I Love Her Better than Life." Well, then, why don't you do something to bring back the roses to her cheeks and the light to her eyes? Don't you see she is suffering from nervous debility, the result of female weakness? A bottle of Dr. Pierce's Favorite Prescription will brighten those pale cheeks and send new life through that wasting form. If you love her, take heed. d&w

Free Trade. The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicines, no doubt has largely benefited the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with Green's August Flower and Beecher's German Syrup, as the reduction of thirty-six cents per dozen, has been added to increase the size of the bottles containing these remedies, thereby giving one-fifth more medicine in the 75 cent size. The August Flower for Dyspepsia and Liver complaint, and the German Syrup for Cough and Lung troubles, have perhaps the largest sale of any medicines in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted, in every town and village in civilized countries. Sample bottles for 10 cents remain the same size. d&w
