FRIDAY MORNING, OCT. 21, 1887.

PRESIDENTIAL VISITS.

Today the citizens of Western North Carolina welcome Grover Cleveland, President of the United States.

And we hope and believe he will bear away with him pleasant and permanent impressions of what he has seen and experienced.

We may add, as the only other instance of Presidential visits to this State, that Mr. Polk in 1847, and Mr. Buchanan in 1859, came in connection with attendance upon the annual Commencements of the University of North Carolina.

The pastor of a colored church in Bradford, Penn., complains that he gets only \$372 salary, that there are no perquisites, and that upon the occasion of the only marriage in his church within a year the presiding elder did the job and pocketed the fee.

After suffering for more than three years with disease of the throat and lungs, I got so low last spring I was entirely unable to do anything, and my cough was so bad I scarcely slept at any time.

The following letter complimentary to the G. D. S. Allen & Co.'s Aromatic Elixir speaks for itself.

It is with pleasure that I certify to the curative properties of your Aromatic Elixir. I have used it personally in a severe case of obstinate diarrhoea, and I simply tell the truth when I say "it acted like a charm."

Employment as accountant, permanent or temporary. Have had practical experience in book-keeping by single and double entry.

at same year, the county, almost the State, of Buncombe, was created out of the wilderness before alone trod by the savage; and Mr. Cleveland, in his long tour will have presented to him no more significant sign of the march of progress than the evidence of the conversion of the mountain solitude into the scenes of busy and prosperous civilized life that lay spread before him.

Eye grows in cool weather when corn cannot grow, and makes excellent grazing for stock. If not needed for pasture it makes good manure for summer crops.

The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicines, no doubt has largely benefited the consumers, as well as relieving the burden of home manufacturers.

WILLS POINT, TEX., Dec. 1, 1885. After suffering for more than three years with disease of the throat and lungs, I got so low last spring I was entirely unable to do anything, and my cough was so bad I scarcely slept at any time.

Rye for Pasture and Green Manuring.

Prof. Budd writes to the Iowa State Register on this subject as follows: "I have read the brief article on sowing on stubble for fall pasturage. The idea is worthy of more careful thought than our farmers have yet given it."
