

WEDNESDAY MORNING, NOV. 2, 1887.

The St. Louis Globe-Democrat, republican which continues to wear the bloody shirt, says:

"There is no law to prevent the people of Georgia from giving enthusiastic welcome to Jeff Davis."

Nor can there be any objection thereto in the heart of any honest man. North or South. In personally respecting Mr. Davis, the people of the South but respect themselves, for they were with him in all their heart, and mind and strength in all for which the enemies for true loyalty to principal and honest government would condemn him.

By this route the distance from Chattanooga to Asheville, via Morristown, is 240 miles; via Murphy it is 210 miles.

Prof. Henry E. Colton, a native of North Carolina, is the originator of the idea of the road. He is mineralogist as well as engineer, and his reports on the mineral wealth of the section to be traversed by the road in this State and in Tennessee are interesting, and largely marvellous, though undoubtedly true. We make the following extract from one of his reports:

"Iron ore is by no means the only mineral; the continuation of the Ducktown copper lead, crosses the line of the road and several pits have already been opened. Then there are several veins of manganese, and the quantity of marble is very great and the quality unsurpassed in the world. Some of the white marble from Valley river was once taken to New York city and proved so perfect and beautiful that it was with difficulty that marble dealers could be persuaded that it was present in the United States. One marble dealer in a large Southern city says that he can sell 100,000 cubic feet of this white marble every year, and in the same region is a very beautiful dark marble, which the same dealer said surpassed in beauty and quality anything he had ever seen. Then there is talc, a mineral of great beauty, the use of which is increasing. At the same time there are the more precious metals and minerals, lead, gold, silver, chrome, asbestos, corundum, mica, nickel and possibly tin. The truth is, Prof. Colton says, that the mineral wealth of that region is not half known and there is ample room there yet for the explorer and ingester."

THE PHILADELPHIA LEDGER. Mr. G. W. Childs' excellent paper has been enlarged and improved. Mr. Childs' deserves every thing good which can be said of him, and all the success that can fall to his lot. An honest man, a true citizen, his heart abounds with good impulses and his hands are busy scattering good deeds where they do the most good. His charities know no end. The Ledger is but a reflex of his own honest, clean, sympathetic nature. His prosperity is but an illustration of the existence of that general sympathy, which ennobles mankind. We congratulate him and his patrons likewise.

THE CHATTANOOGA & MURPHY ROAD. Some time since we referred to the project having for its aim the connection of Chattanooga, Tenn., with Augusta, Ga., via Murphy, N. C., the subject acquiring interest from the fact that the lines of survey had already been run from Chattanooga up the Hiwassee river and above Murphy with encouraging, in fact astonishing, facilities of grade.

Our interest was intensified by the prospect laid open to the practical extension of the Western North Carolina Road, should it ever be completed to Murphy. When completed to that point, the work of the W. N. C. is practically brought to an end, with the tantalizing position of being brought within sight of the promised land, yet not reaching it. For while the local and incidental benefits will be immense, its destiny as a railroad will never be filled unless it form part of a great trunk line, brought into active participation in the immense and still developing traffic of the South and southwest. This will be effected by the construction of the Hiwassee road which may be worked as practical extension of the W. N. C. through harmonious cooperation of the systems, which it will be the interests of both to secure and maintain.

But should this cooperation not be obtained, there exists a strong reason why the authorities of the W. N. C. should be active in pushing forward their work. We have said that the destiny of that road would not be filled until it became a part of a great trunk line passing beyond Murphy and on to Chattanooga, at which point it would strike a number of divergent lines to the South, southwest and West, among which it could make its interest. But if aim be no farther than Murphy, there is reward for its enterprise and stimulus for its competitive energies. Cherokee presents a field of undeveloped wealth

so vast as to stimulate the quickest ambition to reach it, open it, and share it. As a North Carolinian, it is not pleasant to see the apathetic abandonment of the field to others with the certain results of alienation of Cherokee county in interest, in sympathy, in social and business relations. In State pride and political association, and the transfer of all that should bind it to the common weal of North Carolina to other States or communities.

The Hiwassee road has good prospect of construction. We welcome that prospect with hearty good will that Cherokee county may receive its long postponed development. But the brighter that prospect is, the greater the incentive is the more rapid execution of the work on the W. N. C. Road.

By this route the distance from Chattanooga to Asheville, via Morristown, is 240 miles; via Murphy it is 210 miles.

Prof. Henry E. Colton, a native of North Carolina, is the originator of the idea of the road. He is mineralogist as well as engineer, and his reports on the mineral wealth of the section to be traversed by the road in this State and in Tennessee are interesting, and largely marvellous, though undoubtedly true. We make the following extract from one of his reports:

"Iron ore is by no means the only mineral; the continuation of the Ducktown copper lead, crosses the line of the road and several pits have already been opened. Then there are several veins of manganese, and the quantity of marble is very great and the quality unsurpassed in the world. Some of the white marble from Valley river was once taken to New York city and proved so perfect and beautiful that it was with difficulty that marble dealers could be persuaded that it was present in the United States. One marble dealer in a large Southern city says that he can sell 100,000 cubic feet of this white marble every year, and in the same region is a very beautiful dark marble, which the same dealer said surpassed in beauty and quality anything he had ever seen. Then there is talc, a mineral of great beauty, the use of which is increasing. At the same time there are the more precious metals and minerals, lead, gold, silver, chrome, asbestos, corundum, mica, nickel and possibly tin. The truth is, Prof. Colton says, that the mineral wealth of that region is not half known and there is ample room there yet for the explorer and ingester."

Just What They All Say. Hon. D. D. Bayne, of Salem, Ill., says he uses Dr. Bosanko's cough and Lung Syrup in his family with the most satisfactory results, in all cases of coughs, colds and croup, and recommends it particularly for the little ones. Sample bottle free at H. H. Lyons' drug store.

One Lived, the Other Died. A woman formerly our slave is now our cook. About eighteen months ago she became sickly and had a cough and was confined to bed, and it was thought that she had consumption. The treatment by physicians failed to give relief. In December, 1884, a node the size of a goose egg formed just above the pit of the stomach, which when touched discharged matter for 8 or 9 months. One of these also formed under her arm, and three on her back, which discharged matter for a considerable time. For six months of this time she was confined to the house, and most of the time in bed. The stomach often refused food, by rejecting what she had eaten. She used a great deal of medicine, but failed to be cured. I bought one bottle of our B. B. B. (made in Atlanta, Ga.) and gave it to her and she commenced to improve. I then bought and gave her three bottles more, and she continued to improve and in two months' time her cough had ceased, her constitution strengthened, appetite and digestion good, all discharges ceased, nodes or knots disappeared and she went to work apparently healthy and fattened up greatly.

This woman had a married sister of near same age who was affected in precisely the same way and about the same time. She had nodes or knots on pit of stomach, back, etc. She did not take any B. B. B. and the nodes on her stomach ate through to the cavity. She continued on the decline and wasted away, and finally died.

There were two terrible cases of blood poison, one used B. B. B. and was speedily cured, the other did not use it and died. It is most assuredly a most wonderful blood purifier. I refer to merchants of this town.

Yours truly, W. T. ROBINSON. Tishabee, Ala., May 1, 1886. A SHERIFF RELEASED. For a period of sixteen years I have been afflicted with catarrh of the head which baffled the use of all medicines used. Seeing the advertisement of B. B. B., I purchased and used six or seven bottles, and although used irregularly have received great relief, and recommend it as a good blood purifier.

All who desire full information about the cause and cure of Blood Poisons, Scrofula and Scrofulous affections, such as, Rheumatism, Kidney Complaints, Catarrh, etc., can secure by mail, free, a copy of our 32 page illustrated Book of Wonders, filled with the most wonderful and startling proof ever before known. Address: BLOOD BALM CO., toct1 Atlanta, Ga.

Personal. Mr. N. H. Franklin, of Mobile, Ala., writes: I take great pleasure in recommending Dr. King's New Discovery for Consumption, having used it for a severe attack of Bronchitis and Catarrh. It gave me instant relief and entirely cured me and I have not been afflicted since. I also beg to state that I had tried other remedies with no good result. Have also used Electric Bitters and Dr. King's New Life Pills, both of which I can recommend.

Dr. King's New Discovery for Consumption, Coughs and Colds, is sold on a positive guarantee. Trial bottles free at H. H. Lyons' Drug Store.
