Weather Indications.

North Carolina—Fair weather, followed by rain, nearly stationary temperature, light to fresh easterly winds, increasing in force.

Mr. Dallas Dehart, of Swain, and Mr. Higdon, of Macon, are in the city.

Our friend Col. Will Gudger, of Marshall, called on city with his presence yesterday.

Turner advises all who want Christmas oysters to order them through him at once. See his advertisement.

Wagons loaded with tobacco continued to come in late last night. Sales are now getting brisk, and prices continue to look up.

Judge Montgomery sentenced Mr. C. L. Jenkins, convicted of libeling Mr. Trammell, to three months' imprisonment in the county jail.

Yesterday the weather was bright and beautiful, but was what the weather-wise call a weather breeder, fair and false. Look out for squalls soon.

Three hundred tobacco wagons in the city in one day, all loaded with the golden leaf, begins to look like business. And it is business, considering the excellent prices obtained.

The Supreme Court has affirmed the judgments of the Superior Court in the cases of McCracken vs. Adler, Magruder vs. Shelton, both from Haywood, and has reversed the judgment in Clegg vs. Clegg, from Madison.

Our types made us apply the word "impossible" to a certain mud hole in a public thoroughfare when we wrote "unpassable." It is about the same thing. But the place is now "impassable" while it is not "impossible" for the street guardians to make it all right.

Hon. Thos. D. Johnston was unanimously elected by the House of Representatives at Washington to the membership of the House committee on Contested Elections. This is a very high compliment to our representative, one that speaks for his full merits. It is a very important committee, rendered more important by existing circumstances.

THE SUPREME COURT.

The Supreme Court on Monday filed their opinion reversing the court below in the case of State vs. Gierach—deciding that Wine and Lager Beer are included in the terms "Spiritous Liquors," and hence these cannot be sold in those places where Local Option prevails.

The opinion is somewhat of a surprise, because the court very strongly intimated that such a ruling would not include wine and beer, in the State vs. Nash.

THE TOBACCO MARKET.

Very active, so much so that the clerks at the warehouses were unable to take time to make out reports of sales in time for use in this issue. We regret this, for we would have been glad to have the good news of active market and good prices conveyed to our planter friends. The influx of tobacco is much greater than ever known here at this season. Very few are dissatisfied with prices of course, as are not contented with the quality, and when that is good there is nothing to find fault with.

The market, we beg leave to remind our readers, closes on the 22nd and opens again on January 2nd, 1888.

TO VISITORS.

Visitors to the city, desiring to stay for a month or more, will find it to their advantage to subscribe to the DAILY CITIZEN by the month. Apart from the local interests which may be created by their temporary residence, they will find the telegraphic service of the paper full and ample to put them in quick possession of what is going on in the world, together with the Congressional, market and other items of general interest.

The farmers are all looking quite cheerful over the prices they are getting for their tobacco.

Mr. J. M. Carver of Madison, a prominent man in his county favored us with a visit yesterday.

Maj. James G. Martin left yesterday for England on important business. He will be gone some weeks.

The amount derived from a recent renting of the pews of the Second Presbyterian Church at Knoxville was \$2,500.

Rev. Leo Haid has been appointed Vicar Apostolic of North Carolina by the Pope. He succeeds Bishop Northrop to this office.

From the Knoxville Journal we learn that Mr. John H. Inman has declined the presidency of the Richmond Railroad Company, so unanimously tendered him.

Tobacco sales are scattering the cash among our farmers now. We would again suggest to all the importance of depositing their cash in the banks for safety. It will be better for all concerned.

Five burglars and incendiaries who are believed to be the same who some time ago nearly completely destroyed the town of Tompkinsville, Ky., have been arrested in Knoxville, and will be held to trial if their identity is established, which seems a certainty.

Mr. A. McCombs, of Asheville, a practical millwright and civil engineer, invites work from the people of W. N. C. He has certificates under seal, of gentlemen in various sections testifying to his excellent capacity in all respects. All parties desiring such work can consult Mr. McCombs, and obtain full estimates and particulars.

The Knoxville Journal says a fire occurred on the 12th on the beautiful Island Home farm of Col. Dickenson, a place always resorted to by visitors to Knoxville. The house and principal barns were saved, but a shed building containing 75 tons of hay and other forage was consumed. The loss of so much feed will compel the sale of some of the cattle on the farm.

See the important notice of the Asheville Ice and Coal Company; and don't conclude that it blows hot and cold all in the same breath, but fitly addresses itself to the needs of the seasons. Now it has cold weather in mind, and offers all sorts of the best coal in the market, and all the warmth and splendor that can be gotten out of the "black diamonds," can be secured by leaving your orders for the Ice and Coal Company.

We have frequently impressed upon our readers the value of our columns as an advertising medium, so sure and certain that it seldom fails to bring about what is wanted. It often anticipates as we have had frequent illustrations; and the very fact that it becomes known that a loss sustained was to be advertised in the CITIZEN has insured prompt recovery. We had an example Tuesday afternoon. A farmer from Madison had an ox to escape or be removed from one of the Warehouses last Thursday night. In vain he searched in vain he enquired. He came to the CITIZEN office Monday afternoon, as a last resort, to advertise the lost animal. He had no idea he would be so successful. A notice was written with full description etc. and handed over to the compositor.

Our friend left us, but returned in about an hour with beaming face. The lost was found. It was back in the stall in the Warehouse, and the owner with implicit faith in the belief that the advertisement, though never made public, did the business.

BOUNTIFUL CROPS—YANCEY AWAKE TO RAIL ROAD ENTERPRIZE—SOLID MERCHANTS AND PLEASANT DEALERS.

If you will pardon the intrusion I will give you a few items from Yancey, where your valuable paper has many friends, and should have many more in subscribers. The crops of the soil have been abundantly blessed in this county in this year of our Lord 1887. First they had a splendid wheat crop, one machine threshed over fifteen thousand bushels of wheat and oats—three fourths of the amount being wheat. This machine belonged to Messrs. C. W. Edwards and Wilson Hendley, and was handled by the farmer. The crop was fine, and of corn there is enough and to spare, it is simply enormous—the best crop ever raised in the county. The hay crop is abundant, Yancey claims to be the best grown in a rail road fifty thousand bushels of wheat and oats—three fourths of the amount being wheat. This machine belonged to Messrs. C. W. Edwards and Wilson Hendley, and was handled by the farmer. The crop was fine, and of corn there is enough and to spare, it is simply enormous—the best crop ever raised in the county.
