THURSDAY MORNING, JAN. 19, 1888

The Clyde Register says the CITI-ZEN is "considerably exercised for fear Mr. Pearson will smash somesome old line republican a chance." No, we are not exercised about it, but could not help note the fact that the republicans of this district, with all their boasting, concede they connot carry the district on a straight fair fight, with a straight-forward republican, and could only hope to do so through the use of treachery and deception, in the person of their candidate and in his methods. think they own the rank and file of that party may sacrifice their principles and attempt this, but the honest men of that party will rebuke the effort this year as they have done heretofore.

Senator Vance struck the keynote of the tax question in his speech in the Senate the other day. He said the people of North Carolina favored. even demanded, a reduction in both systems of taxation, not only in the rate of taxation, but in the methods of collection. The system of collecting the internal revenue is an offence this offense is certainly greatly enhanced by the fact that the revenue is no longer needed. But if it may be considered expedient, at least until the reduction of tariff t xation shall develop its effects upon that source of revenue, to maintain the source of revenue, to maintain the whiskey tax, then the mode of collection should be altered, and its drastic methods abolished. The tax on tobacco and fruit brandies, should certainly go, and then, as the Senator so strongly points out the tariff duties on the n ecessaries of life—the BAY STATE SHOE & LEATHER CO. articles which enter directly into the consumption of the poor people should

be lessened or repealed, and the luxject the lessening of the burdens of the farmers and the working people without doing injustice to any. Of course he is opposed by the Republican party and their allies who wish to continue taxation body for Congress and not give to enrich the few at the expense of the p ople. The Republican party would rather have a few rich men in a community with all others hewers of wood and drawers of water for them, than to have the whole community comfortably well off, w th the fairest protection and opportunity for all or the greater number. We are oppposed to the Republican idea.
