Our Charlotte contemporary, the Chronicle, says the people of Charlotte are much interested in a proposed railroad direct to Weldon.

If we may be permitted a suggestion in connection with this matter we would say that Charlotte already has good and direct connections east, and if our friends would really consult their interest they will strike for further and more direct connections with the west.

A good opportunity is presented by extending the Carolina Central from Rutherfordton to Asheville. This would be in direction of any increase of trade that Charlotte can hope for.

THE TOBACCO MARKET. The receipts at the warehouses are increasing in volume as the condition of the roads improve, and the sales to-day were largely attended and the bidding spirited.

The only appreciable change in prices is in the most inferior grades, which are not little lower than a month ago.

The reason is obvious; the world is filled with so-called tobacco waste for any use except as a fertilizer, and the planters persist in raising twice as much as they are capable of handling properly.

They complain of low prices, when nobody is to be blamed but themselves. If the planter who last year cultivated ten acres will this year confine the area to five acres, and work it as it should be, he will realize a handsome profit from his labor.

Otherwise, he will be left, for there is no demand for inferior tobacco, either in America or the world.

The truth of this proposition is demonstrated by the fact, every day exemplified at all our warehouses, that all grades of good tobacco command high prices, while nondescript qualities are hardly worth bringing to market.

The impression in Canada and throughout the United States is that Secretary Bayard has won a great victory in his settlement of the Fisheries question. The Toronto, Canada, Mail says:

"The Americans have won their case. Mr. Bayard fell heir to a question, the solution of which had baffled several generations of British and American statesmen. Under his direction it was, at length, been brought to a termination which must be satisfactory to every American, since it secured for the United States substantially, all that the United States has ever asked."

The Empire, government organ, says:

"The grumbler will find fault with the details, but reasonable men on both sides of the line will rejoice that a question giving rise to so much international feeling bids fair to be removed from the area of controversy, and that the neighboring feeling and good will which ought to prevail between people having such intimate intercourse, will again hold sway."

FROM WAYNESVILLE. The News informs us:

Last Tuesday evening there was a social party given at the residence of his nieces, the Misses Orr. A large crowd assembled by 8 o'clock, and proceeded to make things lively for the next few hours. At 10 o'clock refreshments were served, and as yet we have failed to find one who did not enjoy this feature of the occasion.

Do Men Gather Figs of Thistles? It is as reasonable to expect figs from thistles as to look for good results when poor seeds are planted. If you plant an acorn you cannot gather apples, and if you sow poor and old seeds you cannot have large and solid cabbage heads, nor round and regular tomatoes, nor perfect and juicy cantaloupes. The moral of this is, be sure you get good seeds to avoid disappointment. Lundreth's seeds are regarded the best all over the United States, and you can get the best corn at Pelham's Drug Store.

The only thing you can get free at the White Man's Bar is a wooden toothpick, and a good cigar for a nickel.
