Governor Seales will attend the National Prose-writing Assembly at Philadelphia, Pa., which begins Saturday. He has been chosen as the presiding officer at the assembly.

The abode, which has been going the rounds of the State press, is in accuracy, as we are informed. The centennial of the first national organization of the church will be celebrated in Philadelphia during the latter part of May by the assemblies commonly called the "Northern" and the "Southern" respectively. Simultaneous meetings will be held in the Academy of Music and Horticultural Hall, with sessions in the morning, afternoon and evening, at which addresses, the Doctrine, the Government and the Work of the Church, by representative men throughout the church.

Gov. Seales has been chosen to preside in the Academy of Music at 8 p. m. and his alternate is Gov. J. B. Gordon, of Georgia.

SEVERAL WAYS FOR THE DYING AND DECORATING OF EASTER EGGS.
The Easter rabbit will soon be abroad in the land. Suggestion regarding the various methods of coloring Easter eggs will be seasonable and for these interested we would say:

To dye eggs black put logwood chips into the water in which they are to be boiled. These chips may be bought at a druggist's for a trifle. It is easy to tell when the water is black enough by taking up a little in a spoon. Eggs can be dyed with these chips to lovely purplish colors or to jet black. To obtain brown eggs out of which a coffee cream is set, add to the water which contains the logwood chips a little of the following:

Cochineal, a perfectly harmless dye, will make the eggs of any shade from a deep crimson to a lovely rose pink, according to the quantity used. A pretty effect is some times given to the eggs by dabbing them here and there with grease before putting them in boiling water. Wherever the grease is the dye will not take, therefore the eggs come out spotted. Some times the name of the person who is to receive the egg is written on with the grease in the same manner.

In dyeing eggs great care should be taken to use only one spoon and an old one. The oldest saucepan in the house, too, will answer the purpose if the next day is in consequence. The following is an excellent way of ornamenting eggs with gold and silver: Boil the egg for an hour in plain water only. When quite cold rub them all over with painter's size. Have ready in a saucer some gold or silver bronze powder, such as book-binders use. Roll the eggs, one at a time, in this, rubbing gently with a soft cloth all the loose dust. Do this until the eggs can be dyed of any color, and a name, date or device may be put on in the above manner by the size and dust.

A LOVELY COMPLEXION.
It is as reasonable to expect girls from Illinois as to look for good results when poor seeds are planted. If you plant a poor seed you cannot get a good crop, and if you sow poor and old seeds you cannot have large and solid cabbage heads, nor round and regular tomatoes, nor perfect and juicy cantaloupes. The moral of this is, be sure you get good seeds to avoid disappointment. Land dealers' seeds are regarded the best all over the United States, and you can get the best crop at Pellana's Drug Store.

A STRONG TEAM.
Messrs. Walter Gwyn and W. West have formed a partnership in the Real Estate and Insurance business, a fact of which the public will be duly informed in a more formal manner. We refer to it now that two such genial gentlemen and accomplished business men have put their heads together and joined hands to the service of the public as well as themselves; two gentlemen commanding the unbounded confidence of the public in their skill, judgment and integrity, and holding the position they have won by the additional hold upon universal good will, a reward of pleasant manners and genial ways.

Mr. Gwyn has been in the Real Estate business in Asheville since 1881.
By reference to the advertisement in another column, it will be seen that the authorities of the city have postponed the election of commissioners for sewerage. Under existing circumstances we think the Aldermen have done right. It is too important a matter to canker with, and the authorities stand ready and willing to do all that the people will authorize them in a tangible manner to do. Let our people—all the people—interest themselves and act, in this very important and pressing matter, so that when a movement is made, all can go ahead.

PROSPERITY.
The country, for a long time, has been in as prosperous a condition as the present. Every one feels that good times have come at last, and come to stay, unless driven away by the force of a business depression. This may be done, of course, by extravagance, debt contracting, etc., but we will not allow any one to do this. We believe that any other relief is as good as Dr. Hart's Great Relief, all will be well, but we will justly insist that it be made to sell other Relief instead of the old reliable Dr. Hart's. We warn our friends to be on their guard.
