WELPDAY MORNING, APRIL 11, 1888 MAJ. MALONE'S PROTECTIVE

ARTICLE We give space to Maj. W. H. Malone's article advocating the republican party and its monopolistic principle of high protection. It occurs to us if it is carefully read it will convince all if not only the designs of the republican party. It is the Major's open declaration of and as such we presume it is in- pute. tended to be accepted.

The statement that Clay and Webster were protectionists in 1830 or 1835 and therefore the people now should also be protectionists has about as much force in it, so far as application to the present condition of affairs is concerned, as the statement would be that because people used to pay twenty five cents to send a letter from one Start to mother they should do son w and not complain. Conditions have changed since "before the war and a policy which circumstances might have justified then becomes intolerable now. If there be : nything in Maj. Malone's argument the reople of a community ought to be satisfied with one railroad and not permit another to be built adding totheir convenience or cheapfacilities, because one can dothe work required and the extra or excorbitant charges it makes by virtue of a bottle, price \$1.00 at its monopoly should be patiently bourne by the people as a thing that is just to the company rather than invite apportunites for competition. Maj. Malone says protection has brought about such conpetition at home that blankets and such things as the people want and must have are cheap enough; but it will be a very hard matter for him to convince the people that if by reducing taxation which they have to pay they can still get them cheaper they ought not to do it. He says in one place, the "foreign manufactures pays the tax" on blankets &c and R. L. FITZPATRICK. T. W. FITZPATRIC not the consumer in this country, and in another the tax is so heavy that but few foreign blankets can come in; last year only \$3,887 worth for over sixty million of people Yet while no blankets came in, the 71 per cent of tax was added to the cost by the New England manufac turer, and made higher than the Paints, Oils. same blanket could be bought for elsewhere, and our own people, every poor man who bought a blanket paid that extra cost. Major Malone says this is right, that the people out to be made to pay this heavy tax on blankets and other things because by so doing they make the manufacturers rich. Our people in Western Carolina have to sell their products at prices the con sumer fixes; while they have to pay the prices the Republican tariff tax enables the manufacturer to fix on his own wares. Our people have no chance at al -they have to take what others say they will give, and yet have to pay what these same others say they shall give-and Msj. Malone says this is and Democracy say this is all one-sided advantage and wrong -pive associated associated of coefficients and periods associated of coefficients and all found in a says this is right. Mr. Cleveland manufacturers protection enough to be just and fair between all the people, but no more, and reduce dealing in our line of trade or exempted to the people will pay no or exempted. Give us a call, more than is necessary to support the government. We have not space further to follow, to-day, Maj, Malone in his new found Republis can vagaries. The Major has an uphill job before him to satisfy the people, if they do any thinking at all, that they must submit to unnecessary taxation and family ex- Patten Avenue. Now when we talk of the advantages of education we mean the education of This is a Bargain! the whole man-the moral as well as the mental and physical man. And it is education in this sense that has so greatly blessed the world, and not in any narrower sense. Any system of education which comprehends only the body and mind is radically defective, for the reason that one department of genuine humanity is entirely ignored, and that, too, the real estate line. We can supply you, most important. We say the most important for the reason that the most important question relating to a man is not whether he thinks or acts, but whether he thinks and acts properly. Humanity or the world is not necessarily blessed when men are taught to think and act, but when they are taught to think and act rightly-that is, righteously. Whether a man is a blessing or a curse to society or to himself does not depend on his ability to think and act, but on his thinking and acting righteously .- Raleigh Educator.

the Cutteura Remedies.

I am going to tell you of the extracrduary changeyous Cutteura Remedies performed on met About the let of April last I noticed some red pimples like coming out all over my body, but thought nothing of it until some time later on, when it began to look like spots of mortarspotted on, and which came off in layers, accompanied with Itahins. I would scratch every night until I was raw, then the next night extress being formed meanwhile, were stratched off again. In vain did I consult all the doctors in one conarty, but without aid. After giving up all hopes of recovery, I happened to see an advertisement in the newspaper about your Cutteura Remedies, and purchased them from my druggist, and obtained almost immediate relief I began to notice that the scaly cruptions gradually dropped off and disappeared one by one, and have been fully cured. I had the disease thirteen months before I began taking the Cuti-ura Remedies, and In four or five weeks was entirely cured. My disease was eczema and psoriasis. I recommend ed the Cuticura Remedies to sill in my vicinity, and I know of a great many who have taken them, and thank me for the knowledge of them, especially mothers who have babes with scaly cruptions on their heads and bodies. I cannot express in cords the thanks to you for what the Cuticura Remedie's have been to me. My body was co ergd with sea e., and I was an avaid secincle to behold. Now my skin is as nice and clear as a bany s. the Cuticura Remediee.
