"STEDMAN TO THE FRONT."

The Wilmington Review says: to be the best interests of the State efficacy. if we fail to call attention to the necessity of placing before the people a candidate, best selected to win | a fight upon which so much depends. It is idle to deng that the contest in North Carolina will be serious, and if we have not a proper leader, doubtful. We have said it before and we say it again, that we should be ready to give up all the aspirations of the Cape Fear section, consent though with great reluctance to see a man struck down as a sacrifice, who deserves so much from his party, if that party's necessities demand it. But we can never remain silent and see him beaten for a nomination to which he is fairly entitled, and upon which in our opinion so much depends, without calling attention to his absolute availability and the great elements of strength he possesses. We believe Lt. Gov. Stedman to be by far the most available candidate for Governor, who can be brought before the people of the State. We challenge investigation both as to private and political life. His record is spotless. He has no explana foe, no defensive warfare to wage, but from the beginning to the end of the campaign he will, if nominated, ever be found carrying our flag to the front and neither asking or giving political quarter.
