It is desired and truly hoped by the managers that the school shall this summer surpass in excellence any previous term. It has gradually increased in proficiency and genuine value to the teaching profession of this section since its establishment in 1885. The managers have been vigilant of its interests and have selected for the faculty the best and most experienced talent within their reach; and they trust that they have engaged for this term the services of a corpsof teachers unexcelled in the State. So a good attendance of appreciative students will make the institution a complete success. Every teacher, and all who desire to teach, should make ready for the time and be present every day. Let every one consider well the opportunity and make the most of it.
