We would like to have the experience of George Smathers and J. Wiley Shook at the Chicago convention. We kin p'ly say the gemman fer about free days, but arter dat we's got to come down and be like under folks. Las' night I bed a room to meself, but ter-night dere'll be ten of us in one room. The Fourth in Winston. We are faithful to the committee on invitation for the celebration of the 4th of July at Winston, N. C., for a courteous request to attend, and much regret we will not be able to do so. Winston is not only a patriotic, but a live town, and we enjoy meeting with her people.

Get Up Clubs. The great campaign is now open. The CITIZEN ought to be read by every voter of every party in Western Carolina. We have already received a club of 37, several of smaller numbers; but now is the time to get up clubs. From now until last December, clubs of 10, with the cash always to accompany the order, for forty cents each. Send in the clubs.

A Double Mail. We learn that the people living along the Burnesville mail route are exceedingly anxious that a double mail, at least, as far as Ivy, be established on the route known as "Star Route No. 13176."

There has been a remarkable and steady increase in the amount of mail along this route, that a double mail is absolutely necessary for the convenience of the people. If the postoffice department sees proper to increase the mail facilities for these people, a very populous section of Buncombe and a portion of Madison will be greatly benefited thereby. Petitions asking for this increase will be forwarded to Congressman Johnston in a few days.

The Sun Fire Insurance Company. A few days ago we noticed the fact that Mr. T. W. Branch had a fac simile of a policy issued by this company, the oldest now in existence. It is known as the Sun Fire Office, and was organized in 1710, by a private firm in London, and without the issuance of stock. It became subsequently a stock company, and its shares are now valued at \$350 per share.

There was an older company, the Hand and Hand, which only insured on real estate.

The Sun Fire Office was the first to take risks on personal property. The stockholders are individually liable, and the Bank of England being one of said stockholders, the solvency of the company is assured.

Mr. Branch is its agent here. Its vitality is as vigorous as that of its younger rivals.

Fire Passage. For cows, one mile north of Court Square, on Seaverdam road. Apply to the South C. S. Coors, 414 corner Haywood and Flint streets.

Meatery's Fine 8-Gallon Cans. Will be sold at auction on Saturday, 12 m., at the watering-trough on court square to the highest bidder. Mr. Davis auctioneer.

Fine Shoes. H. Redwood & Co., 74 Patton Avenue.

ANOTHER NUISANCE. Detrimental to Health, and an Abominable Practice.

We wish it clearly and distinctly understood that the CITIZEN is not waging a war upon the administration of the city, but that we condemn certain practices and the existence of nuisances now already too numerous in Asheville. It is for the health and the prosperity of Asheville that we taken this course, and it is our intention, firm and fixed, to bring to light and urge the abatement of every nuisance that may come within our knowledge.

Thus it is that we again call the attention of the authorities to the removal of garbage, excreta, and filth, from the city during the day.

A covered wagon, filled with filth, driven along the principal streets of the city, carrying with it a stench that is sickening beyond description, is not the thing to increase the visitor's love for Asheville, or add to his high opinion of the climatic advantages to be obtained here. Neither does it aid in promoting the sanitary condition of a city that is so sadly lacking in proper sanitation.

On the other hand, the foul odor that arises from these wagons, impregnates the atmosphere and breeds fevers and diseases, terrible in their complication, and too numerous to mention. Again, the practice is unsightly, and cannot be too bitterly condemned by the citizens and press. Ladies walk the streets of Asheville in the pursuit of their various vocations, or for exercise, and it is a shame that these wagons should be boldly driven along, almost by their side, the odors, foul and sickening enveloping and surrounding them on every hand. The city authorities should put a stop to this practice, and every citizen should insist upon its removal. It is a shame that this state of affairs should longer exist, and a dark spot on Asheville's past history that it has existed so long. There is a remedy for this thing, and the people demand it. The future health of the city demands it. The Board of Aldermen represent the people, and it lies within their power to put this practice aside. Will they do it? We believe they will, and with that belief now in our mind, we await their immediate and peremptory action.

Acceptance Withdrawn. The Asheville baseball club, which was to have played a match game with the Hendersonville club, has withdrawn its acceptance of the challenge for the present, out of respect to the memory of the late W. A. Patton, who was a member of the Asheville nine.

The Daily Journal. Is the name of a new paper published in Fayetteville by Mr. D. McD. Grady, the first number of which we have just received. The Salutatory is a strong one, and places the Journal at once in the ranks of strong democratic papers.

Is the largest daily yet published in Fayetteville. We do not see why it should not succeed. The old town ought to recognize the fact that it is fast resuming the old time prominence. Nothing will advance it more rapidly than a well conducted daily paper and liberal encouragement to the same.

Visit to East La Porte. Mr. A. J. Blair has just returned from a visit to the above place, a neat little hamlet in Jackson county. He went out on Monday last with Dr. W. A. Nelson to install the officers of East La Porte Lodge, No. 358. After the installation the audience was addressed by Dr. Nelson on the subject of Masonry. About five hundred persons were present, including visitors from various parts of Jackson, Macon and other counties. A bountiful dinner was spread under the shade of the grove which surrounds the Academy to which ample justice was done. After dinner the Eastern Star degree was conferred on numbers of ladies and gentlemen, highly to their gratification.

Mr. Blair speaks glowingly of the cordiality and hospitality of the people of Jackson.

At Sylva he was met by a escort with a carriage and taken to the residence of Mr. L. J. Smith between Webster and Sylva, and was there hospitably entertained during his stay.

Mr. Blair was much pleased with all he saw in Jackson. The crops were looking well, and the appearance of the fields indicated good culture. Agricultural implements of improved patterns have been introduced, and there is general evidence of prosperous progress.

Now for Fish. Capt. Natt Atkinson will draw the water from Patterson's millpond to-morrow. Persons wishing to purchase fish are especially invited to be present.

Back from Chicago. Col. H. C. Hunt returned from Chicago yesterday afternoon, wearing a Harrison badge, and a smile that implied satisfaction with the "great freed" upon the people by the "faithful" in convention assembled.

Sewerage for Asheville. The meeting of the citizens of Asheville has been called for Monday night next at the court house, for the purpose of organizing a sewerage commission. The election will be held on July 10th, and active work will be taken at this meeting.

Looking to the carrying of the sewerage, we noticed the signatures of prominent citizens upon the petitions which were circulated in the city yesterday. It is an important measure for the future prosperity of Asheville as a health resort, and we would like to see the question thoroughly explained to the people at this meeting.

Should we Celebrate the Fourth? Ought not Asheville people to take steps to properly celebrate the 4th of July? Cannot something be done by way of having a good time, and inviting the friends of our surrounding counties to come and be with us? We feel authorized in saying if anything will be done to justify inviting the people to come, the authorities of the railroad will fix a low excursion rate, good for three days. Let our business men take the matter in hand and arrange for a good time on the 4th, and offer inducements for the people to come in and enjoy it with us. If there is anything to be done, preparations should begin at once.

The Steen Combination. In speaking of a recent performance by the Steen-Rouclere combination in that city, the Rome (Ga.) Tribune says:

"The entertainment given at the opera house last evening by the Steen-Rouclere Mystery company was a pleasing one from beginning to end, and was witnessed by a large and enthusiastic audience. To say that all were mystified and amazed would be putting it in mild terms. If any one would have told us that such strange and seemingly impossible things could be done, we would have laughed at him. We believe all were inclined to believe almost anything. We have very little faith in the 'supernatural' but what peculiar power or force Mrs. Steen uses to accomplish this, she gives, surpasses all comprehension. The entertainment is a nine-day's wonder to our citizens, and those who were so unfortunate as to miss it, really missed the best thing that has struck our city this season."

This company will occupy the boards at Opera Hall in this city on the evenings of July 6 and 7 next. Tickets will be on sale at Sawyer's next week at popular prices.

Raleigh and Asheville. From the annual report of chief of police Heatt, of Raleigh, we take the following statistics: Number of arrests made, 162 of them were for drunkenness. There are fifteen policemen in Raleigh, and the capital of the State is a dry town. Asheville is a wet town, and has seven policemen. The total amount of fines collected in this city during the past year was \$4,800, and the number of arrests made about 1200. Most of these cases were for carrying concealed weapons, and for disorderly conduct, houses of ill-fame, fast driving and minor offenses. This statement proves one fact, i. e., that the police of Asheville are more vigilant than those of Raleigh, and that the municipal laws of this city are more rigidly enforced than in the "city of oaks."

Capt. Waddell is to be congratulated upon the efficiency of his department, and deserves great credit for the effective work done by so small a force. Asheville has ten thousand inhabitants, and under the police appointment should be entitled to ten policemen instead of six. The receipts from the department pay all the expenses of the same, and we doubt if any town or city in the State has a more vigilant, capable, or finer looking body of brave men than the police of Asheville.

BALTIMORE TRAINING SCHOOL. An Asheville Boy Among the Graduates.

One of the most useful schools in the country is the Baltimore Manual Training School, where boys and young men are thoroughly educated in the practice as well as science of mechanic arts. During the past year there were 350 students at this school, and 23 graduated last week, one of whom was Mr. William Johnston, Jr., of Asheville, son of our townsman, Capt. R. B. Johnston. Willie completed the usual three years' course in two years, and won the distinction of delivering the Honorary Address. The Baltimore American says:

"All the best specimens of the work done by the boys in the Manual Training School during the year were on exhibition for public yesterday. It can be seen also to-day and to-morrow, between 10 a. m. and 2 p. m. It embraces work in the carpenter's and machine shops, forging, pattern making, drawing, wood turning, moulding, &c. It is all good work, and of the most practical and useful sort. Such a school deserves the most liberal support. A stationary, horizontal engine of ten-horse power, every part of which was made by the graduating students during the year, was shown in the front room. It is a creditable piece of work."

We congratulate our young friend, and can only hope he may win distinction in the great field of his choice, the result of earnest application and constant endeavor.

Mayor's Court. Four cases were adjudicated in his Honor's court yesterday. The charge against the defendants was disorderly conduct, and each was assessed \$2.50. One of the victims paid in the cash, and was discharged, while the other three were put in the "jug."

Gone to Baltimore. Rev. Father J. B. White, of St. Laurence's Catholic church, of this city, left this morning for Baltimore, where he goes to participate in the celebration of the consecration of the Rt. Rev. Leo Haid, O. S. B., bishop-elect of the diocese of North Carolina. The consecration will take place at St. Peter's Cathedral in the "Monumental City" Sunday morning at 9 o'clock. Cardinal James Gibbon will preach the consecration sermon.

Two Interesting Lectures. Rev. Newell S. Albright, A. M. of Ohio, will deliver on July 3 and 5, respectively, lectures upon two most interesting subjects, first lecture on the subject "In the Desert of Sinai and the Exodus;" second lecture "Jerusalem and Vicinity." Both subjects are narrations of personal observations by Mr. Albright. The lectures will be delivered in the M. E. Church, corner Haywood street and Patton Avenue. Admission for both lectures 25 cents; children 15 cents.

Weaverly is building a very convenient and handsome residence. A joint stock company is being organized, the purpose of which is to build a number of small cottages for rent to summer visitors.

A very fair percentage of apples will be harvested in this section this year, notwithstanding the report that the entire crop had been killed by frost. Some orchards are very dry while others have trees on which there are very few young apples.

Col. Boyd and family, of Bowling Green, Md., have moved to Weaverly, and now occupy the residence owned by Capt. W. E. Weaverly. They are here for the benefit of their health, and will remain during the summer season. It is intimated that Col. Boyd will ultimately make Weaverly his permanent home.

According to the New York Herald, the "old bandana" may be successful in all the following States: If so, it will forever be a republican. The ingenuity of the sealer after the unusual things has arranged the following States: California, New York, Michigan, Wisconsin, Virginia, Massachusetts.

Search for Asheville. Mr. H. Langford of the Atlanta Rubber Stamp Manufacturing Company, Richmond, Va., the largest of its kind in the United States is in our city taking orders for their superior Rubber Stamps. Mr. Langford came here direct from Charlotte, N. C., where he has been since April last, placing over 2000 Stamps in that city. The "Indelible Self-Inking Liner Marker," especially made for marking Linen, is said to be the best ever patented.

Mr. Langford is stopping at the Cowan residence on Haywood st. Any communication where to call will be promptly attended to.

A number of new things lately received, and many more expected—the selections of a former partner of our Mr. H. Redwood, now in New York. H. Redwood & Co., 74 Patton Avenue.

W. C. CARBONELL, Apothecary, 20 S. Main street, Asheville, N. C.

To Celebrate the Fourth. The Hendersonville Times says:

"Preparations for the celebration at Bowman's Bluff, on the 4th of July are progressing satisfactorily. A large crowd is expected to be present. There will be addresses, declamations, arraigning the Declaration of Independence, and a basket dinner. We have been able to obtain only a portion of the program, and prefer not to publish just a part of it. The exercises will be very interesting."

It is worthy of remark that the locality of the proposed celebration is the site of a purely English colony, immigrants of the past four or five years, and become good loyal Americans, as their patriotic action indicates, but like all Englishmen never parting with the belief that the "right Irish" claim is the greatest spot of the world and the originator and conservator of all that is great in culture, intelligence, statesmanship and every thing that gives grandeur to a race and a country.

Last year a similar celebration was observed, and a fine day was got abroad that the American flag had been torn down and trampled upon. This was all false, and it was maliciously so. Our new citizens have to work hard and sweat to make the sentiment of the land, which they have fixed their permanent abode, and are to be received in the finest and largest of a nation.

Another Letter from Mr. Robbins. We published recently the letter of Mr. J. P. Robbins, giving his reasons for withdrawing from the Republican party. His motives have been impeached, and among other charges is one, that he was angry because he was defeated at a candidate for county superintendent. This he emphatically denies. He says his purpose to leave his own party was decided before he left Raleigh. He refers to a communication in a county paper making these charges, and among other things, that he had been defeated in the election for county superintendent. He says that according to his hypothesis I will have to abandon the Christian religion because some negroes are in the church. I think, that I left the Republican party not because there were negroes in it, but because negroes control it. I am willing for the negroes to enjoy their political rights, but I am not willing for them to control me in the enjoyment of mine. Just so in church, I have no objection to negroes belonging to the same church to which I belong, so long as they remain in their place—so long as they are willing to take a back seat and do not attempt to take control of the church, do the preaching, &c., then I will say as I do of the Republican party, as I did of the Republican State Convention, there is too much negro for me.

Within Our Gates. During the next three months, we estimate that there will be fifteen thousand people. This is estimating. Our present population at ten thousand, to which we add five thousand visitors that we expect to be here and at near by hotels and boarding houses. The question arises how are we to feed this multitude?

This is a very easy question to answer, provided you have the provisions on hand. But suppose we should be visited this summer with a blizzard, such as they had in New York last winter, could we get through?

Well we hardly ever have snow storms here at this season, so enough to stop the wheels of commerce, but you need not be surprised to see our prices go a great deal lower than the lowest point registered by the thermometer during the blizzard last winter.

Having foreseen the rush of visitors to Western North Carolina this summer, we have prepared ourselves accordingly, and are now receiving the finest and largest stock of

Staple and Fancy GROCERIES, EVER OFFERED IN N. C. COFFEE.

The emancipation of twenty million slaves in South America has caused a very unsettled state of affairs among the Coffee Planters, and has the effect of advancing the price of coffee which is likely to reach still higher figures.
