322 Market Street, Louisville, Ky

Bet. Third and Fourth,

A regularly educated and legally qualified physician and the most successful, as his practice will prove.

Cures all forms of PRIVATE, CHRONIC and SEXUAL DISEASES.

Spermatorrhoa and Impotency, as the result of self-abuse in youth, sexual excesses in maturer years, or other causes, and producing some of the following effects: Nervousness, Seminal Emissions, (night emissions by dreams), Dimness of Sight, Defective Memory, Physical Decay, Pimples on Face, Aversion to Society of Females, Confusion of Ideas, Loss of Sexual Power, &c., rendering marriage improper or unhappy, are thoroughly and permanently cured. **SYPHILIS** positively cured and entirely eradicated from the system; **Gonorrhea, GLEET,** Stricture, Orchitis, Hernia, (or Rupture), Piles and other private diseases quickly cured.

It is self-evident that a physician who pays special attention to a certain class of diseases, and treating thousands annually, acquires great skill. Physicians knowing this fact often recommend persons to my care. When it is inconvenient to visit the city for treatment, medicines can be sent privately and safely by mail or express anywhere.

Cures Guaranteed in all Cases undertaken.

Consultations personally or by letter free and invited. Charges reasonable and correspondence strictly confidential.

PRIVATE COUNSELOR

ANNOUNCEMENT.

The Sisters of Mercy beg to announce to the citizens of Asheville and its vicinity that they are prepared to open an Academy in September for boarders and day pupils. The course comprises English in all its branches, Music, piano, organ and guitar, French, German and Italian, Drawing, Painting (oil and water colors), Decorative Art, Gold and Silver Embroidery, Silk and Chenille. Also, the most improved European method of imitating stained glass. The various departments of the school will be controled by experienced preceptors.

The Sisters will take a limited number of lady boarders, permanently or otherwise. Asheville, "Land of the Sky," requires no comments, telling as it does of the pure ozone forever descending the everlasting hills. Terms and prospectus on application SISTERS' RESIDENCE,

TRUSTEE'S SALE.

By virtue of a deed of trust executed to me by J. B. S. McIntosh and his wife Mary E. McIntosh and John E. Sprague, to secure the payment of a bond for thirty-five hundred dollars, with interest from the date of said bond at the rate of eight per centum per annum executed by the said J. B. S. McIntosh and John F. Sprague to H. E. Brownson, the said bond and deed of trust bearing date the 30th day of April, 1885, and the said deed or trust being registered in the office of the Register of Deeds for Haywood county, N. C., on the 17th day of April, 1885, in Book A of Deeds of Trust, on pages 6, 7, 8, 9 and 10, and upon which default has been made, I will expose for sale at public auction on the 19th day of September, 1888, at 12 o'clock noon, of that day at the Court House door in the town of Waynesville, county of Haywood, the land and premises described in the said deed of trust, a more full and particular description of which may be had by examining the deed of trust before referred to in the office of the Register of Deeds for the county of Haywood.

The property above referred to is a two story brick building, with three store rooms on the first floor and two basements underneath, and eleven good rooms on the second story. The building is situate on Main street almost opposite the court house square. Terms of sale cash.

Dated July 17th, 1888.

The cyclorama of Niagara has had an enormous success in London. As the English say, it has "fetched" the town.

The president of the Imperial academy at Pekin has undertaken, by command of the emperor, to translate "Hamlet" into Chinese.

A mass of copper weighing about twenty tons has been found at Copper Falls, Mich., and is being cut up into merchantable sized chunks.

The latest meteor story is one that is alleged to have fallen near Kiew, Russia, and which, when broken open, is said to have been found full of small diamonds.

A western man is selling large quantities of an ink which he calls "lovers' ink." Its peculiarity is that the writing in which it is used entirely disappears after twelve hours.

Farmers down in Jersey are about instituting "bug days," wherein a concerted effort will be made to exterminate the insects that just now are playing havoc with fruit and vegetables.

An experiment in tobacco growing is now in progress in southern Florida. It is said the product will be enormous, and that three crops can be grown annually. It is a leading crop in some sections of the state.

At a recent meeting of the French Physical society Sir William Thomson was present, and stated that, according to his determinations, the rate of diffusion of electricity was a hundred and ten times as rapid as that of heat in the best conductors.

Reports received by the viticultural commission show that the wine crop of California this year will not be less than 25,000,000 gallons as against 17,000,000 last year. The outlook for raisins and table grapes is also good.

Dr. Donald C. Hood has collected many facts relating to the use of salicylic acid for rheumatism. Of 728 patients treated with salicylates, 523 were relieved of their pains within seven days; whereas, of 612 patients treated by other methods, only 140 were relieved within the same time.

The Rev. Hudson Taylor, of the Inland China mission, says: "After eighty years of contact with England, there are 32,000 Christians, for which we may be thankful, and 150,000,000 opium smokers, for which we may hang our heads in shame. The slave trade, the liquor traffic, the licensing of immorality—these were bad enough, but the opium curse is the sum of all villainy."

W. A. Lyman, of Milford, Conn., is making the smallest possible specimen of an engine. It will be made from a silver half dollar. The boiler is to hold about eight drops of water, but with four drops the engine can be worked several minutes. When finished it is to be placed under a glass case three-quarters of an inch in diameter and an inch and one-eighth in height. Some of the parts will be so fine and delicate that they cannot be made without the use of a magnifying glass.

A specimen of a new campaign torch which promises to become quite popular is made from a combined composition of inflammable matter, and when lighted, burns dry; that is to say, it is free from grease, does not run, and gives off no bad odor. It may be stuck on the end of a handle or pole, can be carried in the pocket and is always ready for use. It yields a large flame. It burns thirty minutes, and three of them (with the stick) form an outfit suitable for any political procession.

Julian Hawthorne still continues to write on the calamities of authors and literary people generally. In a paper on literary syndicates contributed to the current number of America, he says: "The magazines are all overstocked, and no author can live on the royalties of his books. A syndicate will, indeed, almost always take a short story, if it be short enough; but 'short enough' means 1,500 or 2,000 words and what author, who values his reputation, will use up his plots at such a rapid rate as that?"

A Wonderful Fire Beetle.

A beautiful specimen of the celebrated West India cuculo, or fire beetle, was caught the other night in a door yard in Brooklyn by a little daughter of Mr. Stephen Averill. It is about an inch and a half long, and upon the thorax are two eye like spots, resembling those of an ordinary water beetle. When the insect is placed in the dark these spots shine with a greenish light, strong enough to produce a perceptible illumination around them. From the segments of the body underneath the wing covers a similar illumination is produced. The intensity of the light is apparently under the insect's control. When undisturbed for a time the light gradually fades out, but if its antennæ are touched, or it is otherwise irritated, the oval spots on its back and its body underneath glow with surprising splendor. So bright is the light that the insect flitting among the trees on the evening of its capture was at first mistaken for a toy fire balloon. It may have been brought to Brooklyn in some fruit laden schooner.—New York Sun.

Slave Trade in Africa.

The condition of the slave trade may be estimated when it is learned that Cardinal Lavigtrie, archbishop of Algiers and Carthage, has felt it to be his duty to go to Europe to denounce its continuation. He has lately delivered most impassioned harangues from the pulpit of St. Sulpice, Paris. He says that the evidence is that 400,000 slaves are annually sold on the African shores, and that, taking into account those killed in capturing them and the deaths from barbarous treatment, the slave trade counts 2,000,000 victims every year.—New York Sun.

A Splendid Farm

ON HOMINY CREEK

FOR SALE.

I can sell where I live, from one acre to one hundred or three hundred acres of as good land as the rich Hominy section of Buncombe county can afford. It is ten miles west of Asheville, immediately upon the Murphy Division of the Western North Carolina Rail Road. It is splendid grain, grass, fruit, and tobacco land; much of the farm is already set in grass and fine young orchard; good buildings. A promising little town already started on these premises, with three stores, two flourishing merchant mills, three churches—Methodist, Baptist, Episcopal. Very superior water-power sufficient to turn a very large quantity of machinery; a post office with mails twice daily; a fine country surrounding and tributary to this point. This farm is splendidly adapted to truck gardening.

Or I will rent my home to some family for this summer.

Parties desiring a good home, in a splendid and growing section of this Land of the Sky, would do well to call and examine.

To a party who will erect a good hotel I will give a beautiful site.
