The wrangle in the republican convention of the Fourth Virginia party in Virginia; and in that State as in this, the colored voters are used as the cat's-paws to pull the chestnuts out of the fire for their white bosses. The rebellion or resistance made by Langston is not an unreasonable one. He knows the voters of his race are vastly in the majority in his district. He knows that according to the professions of his party his rights and his claims are equal to those of his white competitors. He feels that they are entitled to be represented by one of their own color. He feels himself quite competent to that duty by education and experience. He has been U. S. Minister to Hayti; he has held prominent position at the Hampton School; he has been an intelligent party politician.

In spite of all this, the Mahone faction resisted the claums of Langeton. The result is a split in the party. Lewis, one of the colored speakers, in addressing the seceding colored delegates in the opera hall said:

"The machine in this State is broken. Notice is served on the boss that the "nigger" has broken loose, and that the colored man has the manhood forthwith to assert his rights. They were in this fight to

In this State, so far, the tail wags the dog, the 20,000 white republicans wring about with all ease the 105,000 negro voters to whose body they are appended.

Among the victims of the yellow fever in Florida is the Rev. Charles S. Snowden, who died at McClenny, a place about 35 miles from Jacks sonville, on the 19th. He was a minister of the Episcopal church, a native of South Carelina, and about 40 years of age. He died at the post of duty, not only disdaining to flee to a place of safety, but willings ly giving his time, his labors, and if needed, his life itself, to the alleviation of the sufferings of to his people in sickness and in health, and to share with them their woe as well as their weal. Human nature is ennobled by devotion such as this; and Christianity is glorified with a brighter lustre when it proves its power to obtain the victory over selfishness, and to strengthen it, from the high impulses it inspires, against the suggestions of fear, or of prudence. The ministering angel by the sick bed of deadly pestilence carries a neart greater than that of the soldier who braves the danger of battle. The one has his inspiration in the excitement of the hour, and beholds his reward in the applause of the world. The other has to look danger and death calmly in the face, with only the eyes of the sick

consciousness of his duty, strengthe ened and sustained with the subline thought that God has sent him forth to alleviate suffering, to cherr in the convalescent or to give consolation. After trying all kinds of remedies at spending hundreds of dollars, from which I spending hundreds of dollars. leaving in His bands the issues of life and death. Falling in such cause, he truly earns the glorious crown of martyrdom. COUNTY GOVERNMENT-THE PO

SITION OF THE DEMOCRATIC

In its relation to the State and national platform; the democratic party holds a position in harmony with both, and making the support of tone coincide readily with that of one coincide readily with that of the other. With one exception, the objects to be attained in the one are involved in the other; that exception involves an exclusively State issue, the maintenance of the doubt the greatest blood purifier ever compounded. present, or an equally effective, system of county government.

The present system exists in the plea and the demand of the white people of the east for protection to person and property against the iniquities following from negro supremacy in that section. And that BARY'S Skin and scalp preserved and beautified supremacy was secured by a then dominant party with the double object of securing its hold on power, and humiliating the whites by subjecting them to the domination of a killing Planter. 25 cents, lately liberated servile race, ignorant, inexperienced, and with wildly exaggerated ideas of the powers, upon the race that had for so many Perfect enfranchisement naturally impelled to the use of a power that would lead to a reversal of condi-

prevaining in Assevine. He denounced the statement promptly, and upon arriving at home, called on Dr. W. D. Hilliard and others of our prominent physicians for a statement concerning the present health condition of Asheville. These gentlemen readily responded as follows Asheville, N. C., Aug. 29, 1888. Congressional District has resulted in a color line fight in the republican party of that State. As in North Carolina, the negro yote constitutes the main strength of that state of the contrary are absolutely false. As and the unanimous of the contrary are absolutely false. As and the unanimous of the contrary are absolutely false. As and the unanimous of the contrary are absolutely false. As and the unanimous of the contrary are absolutely false. As and the contrary are absolutely false. vote of the negroes, the determination was aroused to protect the helpless people of the eastern counties, and at the same time assert the right, the wisdom and the justice of retaining the control of public affairs, the interests of society, or government, of civilization in the hands of the race, who, in all the pages of recorded history, had alone proved itself competent to maintain and advance them. In this purpose tween the democrats of all sections vastly increased impulse given to all industries, the diffusion of prosperity, only at present clouded by a financial condition the baleful fruit of a republican national policy, the

State financial affairs, the light pres-hardly bear inspection at any time; if it is not white and furred, it is rough, at all ure of public debt, the great dimintion of public taxes, the wide spread blessings of a liberal school system, generously and justly apportioned to both races, All these result from and often headache and wise, firm and just democratic polis flatulence and tenderness in the pit of the stomach. To correct all this if not stepped in to protect the weak counties of the east, and enable them, with their vast natural resources, and their characteristic energy and intelligence, to make that development which has acted beneficently on the fertunes of the whole

The proposition made and urged by the republican party, the prominent feature in their platform, the leading idea of its writers and speakers, to repeal the present system, would be fatal retrograde. Tothe people of the west return to the old orthe present system might be immaterial. It might be well to say that the system advocated by the repubothers true to his obligations to cling to 1875, and has no claim to be relicaus had existence only from 1868 garded as a time and custom honored right. To the east it would be fatal; and to the whole it would be ruinous. And it is not in the interest of the white race. It is not demanded by them. It is the demand by the negroes, or made in their
