IT IS EASY TO TELL.

People who fail to look after their health are like the carpenter who neglects to sharpen his tools. People are not apt to get anxious about their health soon enough. If you are "not quite well" or "half sick" have you ever thought that your kidneys may be the cause of your sickness?

It is easy to tell by setting aside your urine for twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stains linen it is evidence of kidney trouble. Too frequent desire to urinate, scanty supply, pain or dull ache in the back is also convincing proof that the kidneys and bladder are out of order.

There is satisfaction in knowing that the great remedy Dr. Kilmer's Swamp-Root, fulfills every wish in relieving weak or diseased kidneys and all forms of bladder and urinary troubles. Not only does Swamp-

Root give new life and activity to the kidneys—the cause of the trouble, but by treating the kidneys it acts as a tonic for the entire constitution. If you need a medicine take Swamp-Root—it cures. Sold by druggists, price fifty cents and one dollar, or by sending your address and the name of this paper to Dr. Kilmer & Co., Binghamton, N. Y., you may have a sample bottle of this great discovery sent to you free by mail.

A NOTED ATLANTA CASE.

For four years I have been afflicted with a very troublesome nasal catarrh. So terrible has its nature been that when I blew my nose small pieces of bone would frequently come out of my mouth and nose. The discharge was copious and at times very offensive. My blood became so impure that my general health was greatly impaired, with poor appetite and worse digestion. Numerous medicines were used without relief, until I began the use of Botanic Blood Balm—B. B. B.—and three bottles acted almost like magic. Since its use over a year, not a symptom has returned, and I feel in every way quite restored in health. I am an old citizen of Atlanta, and refer to almost any one living on Butler street, and more particularly to Dr. L. M. Gillam, who knows my case.

"Moments are useless if trifled away," and they are dangerously wasted if assumed by delay—in cases where a "want ad" inserted in the Gazette will bring you what you want immediately.

Speaking of the question of the annexation of Hawaii, which will be one of the most important to become before congress, the Knoxville Sentinel says: "As this annexation is a thing we can't do and then at the next congress undo, as is the case with tariff and currency legislation, it is a matter which in importance transcends any proposed legislation on either of these lines. It involves, too, a vital political principle; it means all probability imbroglgios with foreign governments and the maintenance of a dependency. It indicates a further course of territorial expansion and aggrandizement; all of which will without doubt redound to the greater centralization of power in the federal government and the weakening of state lines, or the shearing of the state's rights. But considering the question of annexation irrespective of any questions of political principles; laying aside for the once the warning of Washington to beware of foreign entanglements and keep our attention wholly occupied with local affairs, the acquisition of the Hawaiian islands would be of extremely doubtful expediency."

* When we put a chip on our hat, as Hawaii would be, there'll be no lack of enemies to knock it off. It will invite attack and be a source of as little profit and as much vexation as Cuba is to Spain."
