You would be surprised to know how few people believe the average advertige. ment because there is so little truth in them. I say it is a shame on our merchapts that this is the case. One merchant returned from New York and advertised that he bought \$20,000 stock of new goods and when he went to the court house to pay tax on his goods he made oath that he only bought \$800. Another will advard tise that he has reduced all of his stock and will sell 10c fast black hose for 5c, fe calico for 3c and so on, when the fact is the hose are only worth 5c and never were worth any more. This is so often done and people deceived so much that when a merchant advertises the truth people are loath to believe it.

We have a good callco for 5c as well as a 50 bleached for 5c; ladies' black hose for 5c. If you will take the time to look through our stock you will find our values as good as any and prices ofttimes much lower. We are paying special attention to our dress lining department and corset parlor.

there has been abundant discussion as to
