Walnut street, between Haywood and Water streets, is undergoing some badly needed repairs in its drainage. From Haywood street, Walnut is a steep slope with few draining facilities. Every rainstorm the water from Haywood and Penland streets would drain off into Walnut and at Water street, where the slope ends, it would form into a miniature lake. The new drain has been built from Water street half way to Penland will extend up to Haywood street when completed.

Prof. Gentry is advertising his show by means of a pretty collection of photographs of some of his famous quadrupeds. One of these frames was fastened in front of Carmichael's drug store yesterday afternoon. Chief Lyerly considered it a violation of the city ordinance and ordered it removed. DEPARTMENT.**

If you ask the best dressed men in Asheville where they have their clothes made NINE OUT OF TEN will tell you at "the Men's Outfitter." Why? Because we represent THREE of the best makers in America, and have MORE STYLES to select from than all our followers together. There is as much art in measuring a man correctly as in making the suit. We possess that art; besides if the suit doesn't fit you, you don't have to take it. We guarantee fit and quality. Prices are also lower for same quality. Our line of ready made clothing for men and boys and children is the largest and best assorted in the city.
