STILL STARVING

Condition in Cuba but Slightly Improved.

Supply Ship Bratton's Cargo Quickly Consumed and Wholly Inadequate.

Authorities Fine La Lucha for Printing the Truth and Threaten to Expel Sun Reporter.

Blanco and Other High Officials Drew Every Cent of Their Salary but Clerks go Unpaid.

Havana, via Key West, Dec. 1.—Hundreds are dying of starvation in this and adjoining districts. The situation is pitiful beyond description.

The food from the supply ship Bratton has been distributed but the supply is wholly inadequate.

A fine of \$200 was imposed on La Lucha for printing the truth about the starvation and the authorities threatened to expel the New York Sun correspondent for filing a cable dispatch saying that the committee wished to send thanks to the Sun for publishing Admiral Sampson's letter calling attention to the pitiful condition of the inhabitants.

Before leaving ex-Captain General Blanco drew the last cent of his salary as did the other high officials though the civil employes have been unpaid for nine months.

WITHOLDS CUBAN TARIFF

Commissioner Porter Cables That Changes are Necessary.

Washington, Dec. 1.—Commissioner Porter has cabled Secretary Gage from Santiago to withhold the promulgation of the new Cuban tariffs for the present.

It is believed that Porter has found that a change in the rate schedules would be desirable. The promulgation will be withheld.

TARIFF AS CUBANS WANT IT.

Santiago, Dec. 1.—A committee of the chamber of commerce met Tariff Commissioner Porter today and presented a long memorial praying for the abolition of the tax on sugar and the admission of sugar free to the United States. This, it declared, was absolutely necessary to revive the industry.

The memorial urged that the Spanish tariff favoring Spanish manufactured goods be abolished as the prices were doubled under that tariff.

It also asked for a reduction in the tariff on large numbers of the necessities of life and the abolition of the tariff on many food stuffs. It recommends the imposition of a small tariff to realize the fund for paying the Cuban soldiers.

Porter in his reply congratulated the Cuban people on obtaining their industrial freedom and said the resources of the island would no longer be drained away by any European power.

Under the American occupation every dollar of the island's resources would be honestly applied for the benefit of

the people. He congratulated them on having so wise a governor as General Wood and attributed the improvement of the condition of the people to Wood's broad-minded policy.

Berlin, Dec. 1.—The jingo organs are agitating in favor of Germany's deriving some benefit from the Spanish-American war.

NEGRO AS A VOTER

Ex-Gov. Bullock of Georgia Talks Out.

Believes in Restricted Suffrage and Says That Intelligent Negroes Want It.

Negro Will Get Justice When has Ceased to be "A Pet of a Party" and Political Tool.

Negro Attacks not Confined to the South—Says Blacks are Most Progressive.

New York, Dec. 1.—The Sun will tomorrow print a somewhat lengthy communication from ex-Governor Rufus B. Bullock, of Georgia, discussing the negro and suffrage in the light of the exciting events which have recently transpired in North Carolina and elsewhere. He says, after discussing the results of the wholesale enfranchisement of the negro and declaring that no harm ever came to the state of Georgia from the negro vote:

"I have continued to maintain to the best of my ability the civil and political rights of the colored citizens." He says further, "I have sustained the president in his appointments of competent colored men when duly recommended for office by their party organization. I have not changed my views in the slightest."

"I have believed and have long since advocated state suffrage, based upon intelligence and property qualifications. While there may be those among us who would seek to limit suffrage on the color line, no one who can read the fifteenth amendment is fool enough to attempt such a proceeding."

"It can safely be accepted as a fact by our friends north that the intelligent, property owning and taxpaying colored citizens of Georgia have no objection to amendment of the franchise of our state upon such a basis. Their interest in an intelligent franchise is greater than that of the white man, because the white man can care for himself even under adverse circumstances."

"The first effect of such modification of the franchise would be a lenient toward white men who are not legally qualified. But the rivalry of candidates would soon enforce the law equally."

"There is no danger and there has been heretofore no fear of negro domination in Georgia; there is none and will be none hereafter."

"The general complaint against the south is that our election laws are loose and liable to fraudulent manipulation; that by intimidation and otherwise large numbers of negro voters are not permitted to vote for members of congress. It is the duty of congress to see to it that its members are fairly representative of the majority of all the voters of their respective districts, and when a man presents himself who is not thus entitled my recommendation

is that congress refuse to seat him and notify the proper authorities to order a new election.

"I have not modified my views as to the negro's civil and political rights or as to his lawful exercise of them, nor have I ever hesitated to maintain them publicly, but the time for legislation by the republican congress in his behalf has long since passed. Whenever it is understood that a negro is simply a citizen like the rest of us and not the ward of the nation or 'pet of a party, he will receive justice from the people among whom he lives."

"Sporadic cases of unjust, unlawful and barbarous treatment of the negro cannot be denied, nor is it entirely confined to the south. But such instances are light compared with the total number of negroes. There is no recorded history of any race having equalled the progress of the negro from slavery to the present day."

NEGROES ORGANIZE

A National Racial Protective Association Formed at Washington.

Washington, Dec. 1.—A meeting attended by about three thousand leading colored citizens of this city was held tonight for the purpose of organizing a "National Racial Protective association" with auxiliaries throughout the United States.

The object as stated in the preamble of the constitution which was adopted at tonight's meeting is to "enter our solemn protest against such violence as has been practiced in North Carolina and to condemn the inactivity of our government and its apparent indisposition to protect all classes of citizens in their civil and political rights; that the invasion of a foreign country and the conquest over a foreign foe upon humanitarian grounds, tends to show the mockery of our civilization at home."

It is the intention of the organizers of the association to solicit the cooperation and support of every minister and church in the United States.

AFTER NEGROES; KILLED A MARSHAL

New Orleans White Caps Make a Big Mistake.

New Orleans, Dec. 1.—A gang of whitecaps started out last night to intimidate some negroes and fired into the residence of George Harris.

Paul Dulhan, the town marshal of Covington, opened the door of his home to learn the cause of the shooting when the whitecaps fired wounding him fatally.

They came willingly and the marshal had no trouble. The men gave bond in the sum of \$1,000 each, their cases being continued to the next term of court.

TANNER INDICTED

Governor of Illinois Charged With Malfeasance.

Charged with "Wilful Neglect of a Palpable Duty" in the Recent Virden Riots.

Manager Lukens Indicted for Manslaughter and Many Miners Charged With Rioting.

Jury Stood 13 to 10 on Tanner's Indictment—Foreman Lauds the Governor.

Carlinville, Ill., Dec. 1.—Governor Tanner and fifty-four others were indicted by the grand jury this evening on charges in connection with the Virden riots of October 12.

The indictment against Governor Tanner specifies that he was guilty of "wilful neglect of a palpable duty as an officer" and for malfeasance in office. The grand jury has been in session since November 9.

Among others indicted is Manager Lukens, of the Chicago-Virden Coal company, who is charged with murder and manslaughter.

The others indicted are nearly all striking miners charged with rioting, parading with arms, assaults, etc.

The grand jury makes a long presentation in the case, detailing the history of the strike, the rioting and the governor's ignoring the appeal for troops until too late to prevent a riot.

In the case of conviction on a charge of malfeasance Governor Tanner is liable to a fine of \$10,000.

On the question of indicting the governor the jury stood thirteen for and ten against indictment. The foreman said: "Tanner is today the best friend of the laboring man in the state of Illinois and I voted against the indictment."

A great many people believe the case against Governor Tanner will never be tried.

INTERESTING DISCOVERY IN ROME.

Rome, Nov. 29.—A search of the vaults of the Corceni palace for possible anarchist arrangements to blow up the anti-anarchist conference, which is meeting in the palace, led to an interesting archaeological discovery of a sepulchral monument to the president of the Farnese palace, where the French embassy is located.—New York Sun.

ONLY IMPROVING HIS MIND.

George W. Tilson has received a letter from Congressman-elect W. T. Crawford, in which it states that Honorable Richmond Pearson has served no notice of contest, on the writer.

Hon. Richmond Pearson was seen as he was about to leave for Washington yesterday afternoon. When asked regarding his reported intention to contest the election of Hon. W. T. Crawford, he still refused to speak for publication.

"It is true that you were here looking up places on which the contest would be made?"

"Oh, no. I have just been improving my mind, that's all," murmured the Hon. Pearson, with a smile.
