Colombia Agrees to Indemnify the Owners of the Panama Star and Herald.

Washington, Jan. 25.--The state department today received a telegram from Mr. Hart, the United States minister at Bogota, United States of Colombia, saying that he had accepted the offer of the Colombia government to pay \$30,000 in three equal installments as settlement of the Panama Star and Herald, an American newspaper corporation. This claim has been presented to Colombia by seven secretaries of state. In 1886 the military governor of the province of Panama arbitrarily suppressed the publication of the Star and Herald. This action was clearly illegal and the newspaper company filed with the state department a claim for \$30,000. The amount was subsequently reduced by the United States in presenting the claim, but the state department stood out for more than the \$30,000 Minister Hart received.

FOR GOVERNOR OF KENTUCKY.

Louisville, Ky., Jan. 25.--State senator William Goebel of Covington recently opened the Kentucky gubernatorial campaign at Lebanon, announcing his candidacy for the democratic nomination. Goebel declared himself unequivocally for the Chicago platform in its entirety and declared he would accept no nomination from a state convention that failed to reaffirm that instrument. He also declared for Bryan in 1900 and on state issues expressed himself in favor of anti-trust and restrictive railroad legislation. Goebel is the author of the new election law which is bitterly opposed by republicans and conservative democrats. His only opponent for the democratic nomination thus far is Gen. P. W. Hardin, though the Hon. J. W. Stone may be a candidate.

A Chinese View of Americans.

This is how a Chinese visitor in this country describes Americans in a Chinese paper: "They live months without eating a mouthful of rice; they eat bullocks and sheep in enormous quantities; they have to bathe frequently; they eat meat with knives and prongs; they never enjoy themselves by sitting quietly on their ancestors' graves, but jump around and kick balls as if paid to do it, and they have no dignity, for they may be found walking with women."

You can't keep a good thing down. News of it travels fast. When things are "the best" they become "the best selling." Abraham Ilare, a leading druggist, of Belleville, O., writes: "Electric Bitters are the best selling bitters I have ever handled in my 20 years experience. You know why? Most diseases begin in disorders of the stomach, liver, bowels, blood and nerves. Electric Bitters tones up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures multitudes of maladies. It builds up the entire system. Puts new life and vigor into any weak, sickly, run-down man or woman. Only 50 cents. Sold by T. C. Smith, W. C. Carmichael and Pelham's pharmacy, guaranteed."

Sales, deceased, late a resident of Buncombe county, all persons having claims against the decedent are hereby notified to exhibit the same to such administrator, on or before the 6th day of January, 1900, or this notice will be pleaded as a bar to the recovery thereof. This January 5th 1899. JOHN A. BROOKSHIRE, Administrator of estate of W. H. Sales, deceased. 286-61w.

NOTES.

There are two more strong candidates for railroad commissioners in the field. They are ex-Governor Jarvis for chair man, and J. W. Sprull, of Franklin county. Senator Murray is heart and soul for James Redmond, of Madison and if Redmond has no chance, then to J. M. Campbell.

Benjamin Aycock, of Winston, brother of C. E. Aycock, will be urged for Superintendent of the Penitentiary. He is supposed to be on the ticket with Sprull and Jarvis. It is said that Gov. Jarvis does not want to be commissioner but friends are urging him to get him out of the race for bigger places. But this is lobby talk.

CASTORIA For Infants and Children. The Kind You Have Always Bought. Bears the Signature of

A CORUNDUM EXPERT.

In this issue of the Gazette will be found the card of Mr. Charles N. Jenks, mining engineer. Mr. Jenks is the oldest engineer in the world in his specialty, corundum, having been associated with his father, Col. C. W. Jenks, in opening and developing the first mines of this abrasive known to the world as early as 1871 and 1872. These mines were the "Corundum Hill" mine in Macon county, N. C., and the "Laurel Creek" mine in Rabun county, Georgia. They have both been in almost constant operation ever since their first discovery, although under different managements. Mr. Jenks has had a more extended and varied experience in corundum mining and prospecting than any other engineer, and his experience is peculiarly valuable on account of his practical knowledge of mining in these localities. He has personally inspected during the past ten years all the known mines and outcroppings of both corundum and emery in the United States and Canada, also the gem deposits (corundum) of Montana and New Mexico. He has frequently been consulted by the United States and Canadian government representatives on these subjects as the first living authority. He is also the recognized comparative efficiency of the different abrasive materials, as he has spent much time in testing both emery and corundum products, and in exhaustive practical comparative tests, in which he has used all abrasive products known. Mr. Jenks has been a liberal contributor to the world's practical printed information on these and kindred subjects, and to such leading scientific journals as The Engineering and Mining Journal, The Mineral Industries, The Mineral Resources of the United States (published by the United States Government), The Scientific American, etc. Mr. Jenks believes there is a great future for this industry in its various branches in North Carolina, especially as the heavy deposits of corundum appear to be restricted to a very limited area in the state and upper Georgia, and as the peculiar conditions under which these heavy deposits occur have thus far been found nowhere else in the world.

HOW TO FIND OUT.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too free desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidney, liver, bladder and every part of the urinary passages. It corrects inability to hold water and scalding water in passing it, or bad secretions following use of liquor, wine or beer, and overcomes that untoward condition of the body, and to get up many times during the night. The mild and extraordinary effect of Swamp Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. At druggists fifty cents or one dollar. You may have a sample bottle and a book that tells more about it, both sent absolutely free by mail, if you send your address to Dr. Kilmer & Co., Binghamton, N. Y. When writing be sure and mention that you read this Gazette.

KILLS CONSUMPTION

IN THREE WEEKS' TIME

Dr. Preston's Method Works Wonderful Cures in Many Places.

Dr. Preston has cured his first patient of consumption, since locating here, four months ago. He only asks three weeks to destroy the germ. He is treating a number of patients, and they are all doing nicely, and will get well. Remember the doctor does not give you any creosote or other drugs, by the stomach, that is not the way to reach the lungs, he gives all his medicine by the hypodermic syringe, which is injected into the arm or thigh, once each day for 21 days only, which causes little or no pain, the blood is kept saturated during this time, and the germs of consumption are destroyed. The veins begin to fill with rich, new blood, and the glow of health returns to the cheeks, before all the treatments are taken. If there is a cavity in your lung, and your feet are not swollen, you can be cured. It has only been a few months since even he could cure these scores of these sufferers in the past five years, that had been pronounced incurable by the most eminent physicians of the United States. Office in Sondley building rooms 4 and 5, over Heinitch & Reagan's drug store.

ARTISTIC PORTRAITURE

Our operator, Mr. White, has had several years experience in large city studios, and understands thoroughly how to make good photographs. We are gaining patronage daily and permit no work to leave the studio that is not all right in every respect. Re-sittings cheerfully given when necessary, but this seldom happens. We charge enough to afford to give all work our best attention, but believe in liberal treatment. If any part of our work is not satisfactory we make it so. Our large photos of the beautiful Swannanoa river are unequalled anywhere. We use the same materials and amateur work as well as we do our own work. The photo supply department carries everything needed by photographers, at reasonable prices. Ray's Studio, 8 North Court square.
