Books and a Case

are two things that every refined family must possess. You cannot afford to exist without books, as they are the greatest means of enlightenment. You cannot afford to have books without a case, as the books will soon go to the bow-bows. We have the only bookcase worth having. It is the Wernicke Elasta. You can buy it to just fit your library and make its growth keep pace. If you have books you will enjoy an inspection of these cases. Call and see catalogue.

You will always feel warm and comfortable when your rooms are heated with our Jellie coal. It is economical and satisfactory for furnace, range, fire place or heating stove, and throws out more heat to the ton than can be produced by double the amount of inferior grade coal. It makes a clean, clear fire that radiates an intense heat, and is the coal you need for use in cold weather.
