Mr. C. M. Steinmetz, of Rose Hill, secretary of the Eastern Carolina Truckers and Fruit Growers' association tells the Wilmington Star that, so far as he has been able to ascertain, the damage to truck by the recent severe weather is very slight, owing to the fact that plants were covered with snow before the extremely cold wave reached that section. "Strawberries," says the Star, "are not hurt at all, he thinks. The lettuce is probably the most badly damaged crop. Cabbage, radish and similar plants are also injured and killed outright. A number of truckers in this immediate vicinity report losses by reason of damage to crops of this character. However, it is not generally believed that the loss to truckers in this section will be even as heavy as now estimated."
