He also considered that they had been sufficiently punished and as any other violation of the police regulations would mean dismissal, he did not think that the policemen would offend again. On his representations the men were re-instated. They will report for duty tomorrow.

AN ASHEVILLE SYNDICATE

Mr. Loughran Contemplates Organizing a Stock Company to open American Hotel in Havana.

Frank Loughran, proprietor of the Hotel Berkeley, is contemplating the organization of a stock company for the purpose of opening an American hotel in Havana, Cuba.

The project is not the outcome of a hurried conclusion. Mr. Loughran has given the question serious consideration for some time and it is certain that there is a splendid opening in Havana for the establishment of a purely American hotel, equipped with an American cuisine and bar. The vast number of American soldiers garrisoned in or near Havana will certainly create a demand for a national hotel.

Mr. Loughran has mentioned his scheme to a number of moneyed men and all expressed a desire to subscribe for stock. From various other sources Mr. Loughran has been assured that ample capital will be forthcoming if he will agree to give the new hotel his personal supervision.

The one drawback, if it can be considered such, is the Cuban climate.

Reese was taken to Marshall and arraigned before United States Commissioner C. W. Tweed. He was released under bond.
