BUNCOMBE'S ONLY MACADAMIZED ROAD

Progress of the Work Being Done by Convicts North of Asheville. Dr. I. A. Harris, the county physician, returned yesterday from a visit to one of the convict camps. The condition of the roads and weather has progressed much road work lately. Dr. Harris speaks of the terrible condition of the county roads, especially the Burnsville road, excepting the part that is being macadamized. The macadam work has now been extended about one mile and three quarters from the city limits. The old board (Caney Brown's) carried the work from the city bound ary to the creek, and the new board has gone on beyond the creek. The stone for the macadamizing is obtained right alongside the road. The new quarry on the Woodfin farm between the creek and the Burnsville hill produces good solid stone for the work, a great improvement on the first stone used on the road. The convicts have been at work on this first attempt at macadamizing Burnsville's roads since last October but the slowness of their progress is due somewhat to the season in which the work has been undertaken. It is a great relief to farmers coming to town to strike the hard macadam of the completed stretch of road after the terrible river of mud that extends beyond it both north and south.

HENDERSONVILLE ITEMS.

Hendersonville, March 14.—Workmen are busy clearing off the ground for the building of the big new hotel. W. F. Edwards has the contract for the construction of the building. Every contractor in Hendersonville has his hands full for some months ahead. Seven or eight business houses are to be built on Main street during the summer and a number of residences in the suburbs have been contracted for. An effort is being made to organize a company to extend the street car line to Flat Rock. If the plan goes through the cars will be run by dummy engines. The telephone system just opened is in good working order. Nearly all the business houses of the town and many private residences are subscribers.

J. Sheer, Sedalia, Mo., conductor of electric street car line, writes that his little daughter was very low with croup, and his life saved after all physicians had been failed, only using One Minute Cough Cure.—Paragon Pharmacy.

DeWitt's Colic & Cholera Cure.

Quickly cures Dysentery and Diarrhea.

HOT WATER WELLS.

In Some Cases Temperature Rises Twenty Degrees in a Single Night—Cause of the Phenomenon.

The wells in parts of Arizona have recently become producers of hot water, and apprehension is felt by many of the residents of the region affected that they are about to become participants in a grand volcanic drama. In some of the wells the temperature of the well water rose 20 degrees in a single night. In a few the phenomenon disappeared soon after its appearance. In a majority of the cases, however, the wells fairly steam from their newly-acquired heat. The first known of this curious state of affairs was a report that the wells at Maricopa, on the Southern Pacific railroad, 30 miles south of Phoenix, had suddenly become hot, says the Omaha Bee.

It was four days thereafter that the phenomenon first was noticed a dozen miles west of that city. A test at one well showed a temperature of nearly 100 degrees. No difference is noted in wells in the immediate vicinity of Phoenix. The line of subterranean heat wave follows the general direction of the Sierra Estrella mountains, a volcanic chain lying immediately south of the Gila river. Thence it appears to continue on in the direction of the Harqua Hala mountains, near which are a number of large and modern volcanic cones and hills of drifted volcanic ash. Further to the east the lava flows are so geologically modern as to have overwhelmed in a number of places the cliff dwellings of the ancients.

DISCOVERED BY A WOMAN.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose that she slept all night, and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hammick & Co., of Shelby, N. C. Trial bottles free at T. C. Smith's and W. C. Carmichael's drug stores, and at Pelham's Pharmacy. Regular size 50c and \$1.00. Every bottle guaranteed.

MUST FEED STATESMEN WELL.

Cooks of Washington Hold the Fate of a Presidential Administration in Their Hands.

"My supreme social effort has been accomplished, and I am nothing but a wrung-out rag left to tell the tale," writes "A Cabinet Member's Wife" in the Ladies' Home Journal in her series of letters giving her experiences in Washington. "I'm tired enough to go to bed by the time breakfast is over. Do you suppose I am catching laziness? It's in the air. By the supreme effort I mean my cabinet dinner, the last one of this season, and the first state affair to follow Lent and Easter. There is no set time nor rule governing these dinners. This year the cabinet ladies got together and decided to divide the honor equally among them, half of our number entertaining each year, consequently I will only give two cabinet dinners during the administration. Everything went off smoothly owing to Lem and a good caterer. The truth is, Lyde, the servants make or mar an administration. Tariff and currency are of importance, but good domestic service is a necessity. If I were lobbying for a bill I would first feed well the House and Senate."

A Mother's Duty

is to see to it that her children begin early in life to shampoo their heads regularly once a week. In each instance, after the hair is thoroughly dry, some mild, hair-giving tonic should be applied to the scalp to aid nature in creating the best possible growth of uniformly colored, lustrous, healthy hair—the most important feature in the make-up of beautiful women and handsome men. For more than fifty years, the **Sutherland Sisters' Scalp Cleaner** has stood at the apex of all shampoo washes, while the "HAIR GROWER" has been equally successful in its efforts to return the injured scalp and almost lifeless hair to their original luxuriance.
