Otis' Advices Indicate a General Re-
newal of the Aggressive
Campaign Against the
Filipinos.

Washington, April 8.—Advices from
Otis indicate that he is preparing for another
advance. It is hinted at the war department that MacArthur's division will move northward to Calum-
pit and Lawton at the same time attack the
Filipinos south of Manila. Officials are reticent, but admit that news of more fighting may be expected
Monday.

LAWTON'S EXPEDITION.

Manila, Saturday Evening, April 8.—An expedition consisting of eight companies of the Fourteenth infantry, three companies of the Fourth cavalry, four each of the First North Dakota and First Idaho, two mountain guns and two hundred sharpshooters, aggregating 1,500 men, under command of General Lawton, embarked tonight on the River Pasig at Cascoes and San Pedro Macate for Santa Cruz on Laguna de Bay. The troops were convoyed by three army gunboats.

Poisoned By Others OR COMMITTED SUICIDE.

Bodies of a Man and His Daughter
Who had Life Insurance Found
in Their Home.

St. Louis, April 8.—The bodies of John Sullivan and his daughter, Mrs. Minnie Dunn, were found badly decomposed in their rooms this morning. They were insured in a local mutual company, and whether they committed suicide because of poverty and in order that relatives might get the money or whether they were poisoned are theories upon which the police are divided. Two little children of Mrs. Dunn had also been poisoned, and little hope is held out for their recovery. The family had moved to their present home on Thursday last and it is believed they either took or were given poison that evening.

Sullivan's son has been locked up pending an investigation. He saw the bodies yesterday, but failed to report the matter to the police.

THE WIDELY DISTURBED WEATHER.

Charlotte, April 8.—The weather bureau report today says:

"The disturbance has continued its northeasterly course since yesterday morning, its centre today being over the New England states. General rains have marked the path of this disturbance, the heaviest falls being as follows: Norfolk, 1.08; Pittsburgh, 1.14; Tampa, 1.34; Raleigh, 2.48. Charlotte's amount was .22.

"It is appreciably cooler over the eastern half of the cotton belt; the temperature changes ranging from 8 degrees to 12 degrees. Charlotte had a decrease of 8 degrees to a minimum of 43 degrees. The atmospheric pressure is highest along the Rocky mountain slope, and the lowest readings of the thermometer are reported from stations in that section."

MALIETOA INSTALLED KING OF SAMOA

Kautz Reports no Fighting
Since the 21st—King's
Reign may be
Short.

Washington, April 8.—A despatch from Admiral Kautz at Apia today said that Malietoa Tanu was installed as king on March 23 with appropriate ceremonies. A report by mail stated that there had been no fighting since the 21st. Great Britain's assent to the appointment of a joint commission is assured, although not given formally, and the commissioners will probably be appointed very soon and then start for Apia. It is the present purpose to invest them with the highest authority even to the extent of deposing Malietoa and assuming the government themselves.

NEGROES DISCUSS LYNCHING.

Afro-American Council Finishes Its Session.

Washington, April 8.—After two days' session the working committee of the National Afro-American council had adjourned. The meeting was the first held and there were representative negroes from a number of states. The recent lynchings in Georgia and Arkansas were discussed. It was decided to establish literary bureaus in a number of sections to bring before the negroes the leading issues in which they are interested. One day in June was set aside for fasting and prayer that lawlessness be blotted from every state.

The council will be incorporated as a benevolent and educational institution.

A PRESENT FROM FRANCE.

Washington, April 8.—In the blue room of the executive mansion this morning French Ambassador Cambon presented to the government and the American people, through President McKinley, two magnificent vases from the French national pottery at Sevres. The gift is from the late President Faure and commemorates the opening of the new Franco-American cable August 17. The vases and pedestals stand six or eight feet high. They will remain the permanent possession of the white house.

SHOT DEAD FROM AMBUSH.

Louisville, Ky., April 8.—Henry Massie and his son, John, were shot dead from ambush in Harlan county instantly. The Masses had been at a neighboring farmer's, and the men came to blows after an argument about crops. The Masses had gone but a short distance on their way home when some one fired at them from the house, instantly killing the boy. The second shot hit Massie, and he died an hour later. It is feared a deadly feud will result.

JUSTICE FIELD DYING

Lying Unconscious at His Residence in Washington City.

Washington, April 8.—Stephen J. Field, associate justice of the supreme court, retired, is lying at his residence in this city dangerously ill, and his recovery is not expected. At a late hour tonight he is unconscious and his death may occur at any time. On the 26th of March Justice Field drove out to the soldiers' home in an open carriage. The day was raw and he returned chilled through. Since then he has been gradually failing, a complication of disorders wrecking his system. At 10 o'clock this morning he became unconscious and remains in that condition.

ROTENNESS OF ARMY BEEF

Soldiers all Believed it was Embalmed—Powell's Process.

Washington, April 8.—John Rush, who was a cook of the Second New Jersey while at Jacksonville, testified before the board of inquiry today to the rottenness of the refrigerated beef. All the regiment, he said, believed the beef had been prepared with what they embalm dead people.

A man named Powell, who was proprietor of the Powell process for preparing beef, testified he didn't use chemicals, but prepared the beef by fumigation. He relied entirely upon the effect of burning chemicals in a closed room. Neither Armour nor Swift used the process, but some beef prepared by him was sent to Jacksonville as an experiment.

CROPS MUCH INJURED.

Raleigh, April 8.—Reports to the weather bureau here, for the Weekly Crop Bulletin, show that great havoc was caused in the trucking section of the state by the recent frosts and the snow storm. Much of the early produce was entirely destroyed and all of it received a severe setback. Conservative estimates place the damage to the strawberry crop along the Wilmington and Weldon railroad at twenty-five per cent. of the whole crop. Although many farmers covered their crops and sustained practically no loss, others failed to cover and suffered heavily. The crop was looking extra fine before the freeze.

NEGRO MURDERER HANGED.

St. Louis, April 8.—Matthew Hancock, colored, who shot and killed Tick-Brook Horton in front of the Union station in 1897, was hanged in the jail yard today. He strangled to death, the noose slipping around under his chin. Among those present at the hanging were Jim Jeffries, the prize fighter, and a number of actors.

A SHIP GOES DOWN IN BRITISH CHANNEL

One of Her Boats Sighted
With Three Men in It,
but That Also Dis-
appeared.

London, April 8.—A trawler reports that a ship has foundered off Lundy Island, at the entrance to the British channel. She is believed to have been a Norwegian vessel. The trawler saw three men in a boat but the boat sank before the trawler could reach it. The trawler remained in the vicinity two hours but saw nothing more.

BINGHAM SCHOOL MUSICIANS.

Marion, April 8.—The Bingham Mandolin, Banjo and Glee club will appear at the court house hall on Monday, April 10. The club consists of twenty persons. A large number of tickets have been sold and a large and fashionable audience will greet the club.

They are playing under the management of Mr. Claude Powers, one of Marion's most enterprising and popular young men. After the concert the club will be entertained at the Fleming by the Gruber Concert company.

NOTED BLOCKADER CAPTURED.

Officers Compelled Surrender with Drawn Revolvers.

Robert Whittemore, probably the most noted blockader in the state, was captured in Big Ivy yesterday by Deputy Marshal Chambers and ex-Deputy Collector F. H. Reeves.

Whittemore is regarded as a dangerous customer by every revenue man in the fifth district. He was known to be somewhere in Big Ivy and Friday Deputy Marshal Chambers set out to effect his capture. He was accompanied by F. H. Reeves. By a dint of inquiries, the noted blockader was discovered working on a little farm on the Whittemore branch of Big Ivy.

As the officers approached Whittemore reached for his hip pocket, but before he could draw it was covered by the officers' revolvers and ordered to surrender. He made no further resistance and sullenly allowed the officers to shackle him.

Whittemore was brought to Asheville and arraigned before United States Commissioner Summey. The preliminary hearing ended, Whittemore was held for court in \$200 bonds.

DEMOCRATIC COMMITTEE.

The newly elected city democratic executive committee held a short session yesterday afternoon at 9 o'clock in the city hall. Julius C. Martin was elected chairman.

In Mr. Martin's speech of acceptance, he said he took the office with the greatest reluctance, as he felt that he hadn't sufficient experience to manage a campaign successfully.

The committee gave the chairman power to appoint a secretary.
