If all signers of this contract, except the accused, decide that any signer has violated the conditions of this agreement, he shall forfeit \$25, the money to be divided equally among the signers.

A CONFESSION.

Says She Can Now Talk With a Clear Conscience.

"While attending the state convention of the W. C. T. U. at Manville, Wyo., I was entertained by Mrs. Niaz Higby. I am a temperance lecturer, and at breakfast Mrs. Higby handed me a regular cup of coffee with the remark, 'did you ever realize that it is not at all consistent for temperance people to continually advise others to avoid poisonous stimulants, and yet day by day drink such articles themselves. This is particularly true of coffee, which is one of the most powerful narcotics in existence, although its effects are not shown as actively as whiskey.'

I was rather surprised at her remark, but after thinking it over a moment, I realized that it was apropos. I had noticed many a case of nervous prostration that was directly traceable to coffee, for the individuals at once began to improve when they left off coffee, and I had found it so in my own experience. I had made several attempts to break away from the habit and had failed, much to my disgust, and, oftentimes, when addressing an audience on the evils of liquor drinking, I had in my own heart felt that I was very much like an old toper, the only difference being that I wanted coffee and he wanted liquor.

Mrs. Higby went on to say, 'we have abandoned coffee entirely, and are using the Postum Cereal Food Coffee made down at Battle Creek, Mich., and I think when you drink this cup, you will agree with me that it is in many respects a more delicious beverage than ordinary coffee, for it has a smoother, more fascinating taste, much like the very highest grade of mild Java.' I drank the cup slowly and realized that her remarks were true, and I want to say to you that I gained no more valuable knowledge at that convention in Wyoming than that which I learned at the breakfast table where I had my first cup of Postum. I have since used it regularly, very greatly to my physical and mental advantage, and have found no difficulty whatever in doing away with coffee. No one can tell how glad I am to be free from its baneful effects. I can now make a temperance address with a clear conscience, and, perhaps I might add a clearer complexion than formerly."
