A telephone message from Reidsville says that a severe cyclone passed that city late yesterday afternoon and badly damaged some property near there. The Reidsville concert band was practicing in the pavilion at the race track when the violent wind came up. The pavilion was unroofed, the top falling through and slightly injuring some of the members of the band. Mr. Fletcher Jones, one of the band boys, was right badly hurt.-Greensboro Tele-

Friday evening as the crowd was returning from the baseball game, Tim Leinster and Tom Miller, two youths, decided to have a bicycle race. They were coming down Broad street at a good pace, when, near Walton's store, Tim, who was in front, fell, breaking his collar bone and receiving severe bruises. Leinster, while not so badly injured, suffered a "green stick fracture" of his right leg, just above the ankle. A "green stick fracture" occurs where the bone of a young person bends rather than breaks.-Statesville Landmark.

A bolt of lightning played a curious prank during the thunder storm in this city last Sunday evening. Standing about thirty yards from the residence occupied by F. A. Gennett is a pine tree, to which is attached one end of a clothes line. The wire runs from this tree to another, thence to the side of the house, where it is fastened to the window casing with a large spike. After striking the tree and splitting and ripping the bark up considerably, the bolt followed the wire the entire distance, and at the end where attached to the house, it tore the window casing loose and otherwise damaged the weather boarding. Mr. Gennett had been sitting by the window reading, and had only a few moments before the flash came left, thus narrowly escaping at least a severe shock, if not a fatal accident.—Murphy Republican.

ESMERALDA INN.

Esmeralda, June 1.—Hi kory Nut Gap is now as beautiful as nature can make it. The large rhododendron is budding. and will be out in all their glory in a week from now. The raspberries are now ripe and pleasant for breakfast, and have had green peas and new potatoes out of the garden for some time.

There has been good fishing in Broad river for a month past and the fish bite freely now. Amything more delighbful than a plunge into the swimming pool, with its sandy beach, is hard to realize. The latest arrivals at the Inn are:

There are a half dozen patent medicine firms in St. Louis, each of which sends out 2,000,000 almanacs each year. At least 20,000,000 almanacs, made in St. Louis, are spread broadcast over the country each year. The almanacs for a certain year are shipped out in the fall of the previous year. The average cost for making and delivering them is from \$5 to \$6 and \$10 per thousand. As every large patent medicine establishment now has its own printing department, the cost of making almanacs is reduced to a minimum.

The astronomical portions of the almanac, including the weather predictions, signs of the zodiac, changes of the moon, and so on, are prepared by some astronomer. A certain astronomer in Massachusetts has made a specialty of doing this work for patent medicine firms for years. He charges \$30 for preparing the astronomical letterpress for one year's almanae. - Chautauquan.

Speaking of money reminds me of a story I read the other day. An Americanin London, talking of an unfortunate person who had just died, quoted Artemus Ward's saying, "It would have been money in his pocket if he'd never been born."

The Americans present laughed heartily, but the Englishmen sat sober as owls, and after a moment or two of silence one of them broke out with:
