

The Misses Bell

Complexion and Hair Specialists.

The brilliant complexions of women in the more exclusive circles of New York society are not explained by the theory that associates beauty and idleness. In fact, many leaders of the world of fashion are hard workers. Yet they keep their good looks even when they are old. How do they manage it? THE MISSES BELL, of 73 Fifth Avenue, New York, themselves connected with some of the most noted and honored families in the metropolis, have answered the question. They have prepared for the use of women in general, five preparations for improving the complexion and the hair.

Five Toilet Treasures.

The Misses BELL'S COMPLEXION TONIC
Is an external application, the presence of which on the face cannot be detected. It is perfectly harmless even to the most delicate skin. It is a sure and quick cure for all roughness and eruptions. It acts on the skin as a tonic, producing a naturally pure complexion, cosmetically removing fine blemishes. The Tonic gets rid of them.
It removes pimples, freckles, black heads, moth patches, liver spots, eczema, redness, oiliness and all discolorations and imperfections of the skin. Price, \$1 a bottle.

The Misses BELL'S COMPLEXION SOAP
Is made from the pure oil of lamb's wool. It is heating and gratifying to the skin, keeping it at all times in a clean and healthy state. This Soap is daintily scented, and is a most welcome aid to most care is taken in selecting materials and scrupulous cleanliness in the laboratory insures the purity of the product. Price, 25 cents per cake, large four-ounce size.

The Misses BELL'S HAIR TONIC
Cures dandruff and prevents any return of it; stops that maddening itching of the scalp and makes the hair strong, soft and lustrous. It is especially helpful to persons whose hair is liable to fall out. The Tonic cleanses the skin about the roots of the hair; will soon cover bald spots with a handsome growth. Price, \$1 a bottle.

The Misses BELL'S CAPILLA-RENOVA
For restoring prematurely gray locks to their original color.
It is not a dye nor a stain. It is a colorless liquid that is applied to the roots of the hair and leaves no telltale signs on the scalp or forehead.
Neither does it change the color of the hair all at once. Only dyes do that, and they wash off. But Capilla-Renova will not wash off. Price, \$1.50 per bottle.

The Misses BELL'S SKIN FOOD
Is a soft, creamy, exquisitely perfumed ointment, which helps the action of the Tonic, and, in mild cases of roughness, redness, pimples, etc., is a cure in itself. It clears the pores of the skin of all impurities and feeds it by building up the texture and making the flesh beneath it solid and firm. Price, 75 cents per jar.

I am a farmer located near Stony Brook, one of the most malarious districts in this State, and was bothered with malaria for years, at times so I could not work, and was always very constipated as well. For years I had malaria so bad in the spring, when engaged in plowing, that I could do nothing but shake. I must have taken about a barrel of quinine pills besides dozens of other remedies, but never obtained any permanent benefit. Last fall, in peach time, I had a most serious attack of chills and then commenced to take Ripans Tabules, upon a friend's advice, and the first box made me all right and I have never been without them since. I take one Tabule each morning and night and sometimes when I feel more than usually exhausted I take three in a day. They have kept my stomach sweet, my bowels regular and I have not had the least touch of malaria nor splitting headache since I commenced using them. I know also that I sleep better and wake up more refreshed than formerly. I don't know how many complaints Ripans Tabules will help, but I do know they will cure any one in the condition I was and I would not be without them at any price. I honestly consider them the cheapest-priced medicine in the world, as they are also the most beneficial and the most convenient to take. I am twenty-seven years of age and have worked hard all my life, the same as most farmers, both early and late and in all kinds of weather, and I have never enjoyed such good health as I have since last fall; in fact, my neighbors have all remarked my improved condition and have said, "Say, John, what are you doing to look so healthy?"

Baldness Can be Cured

Just so long as there is a particle of vitality left in the hair roots. The fact that the hair is smooth and shining is no positive proof that the roots beneath are dead. Deep down beneath the skin, hair roots may yet exist, filled with latent vitality, and all that is required to develop them into a beautiful head of hair is the faithful application of the proper agents.

Seven Sutherland Sisters' preparations furnish the easiest, surest and quickest way to assist, if there is or is not latent life beneath a head bare of hair. Why not try?

SOLD BY DRUGGISTS.

SPRUCE GUM HUNTING.

The Adventurous Maine Woodsman Who Carry It On.
Although chewing gum of various kinds—peppin and special digestion aids—can be procured at every city corner from the penny slot machines, nothing has ever taken the place of the genuine spruce, and it still sells at a high price. It cannot be imitated, nor is there any counterfeit which is anything like it. Some of the druggists in eastern Maine have contracts for spruce gum aggregating thousands of dollars. Some of them have "staked" gum hunters and sent them into the woods. Most of the Maine gum finds its way to the city markets that demand for consumption the round, red lumps that gleam with inner fires like the bloodstone. This choice gum is readily sold by the Maine wholesalers at \$1.50 a pound.

Gum hunting has many elements like rubber cutting in the tropics, the men burying themselves in the wilds for months. The expenses of the hunter are almost nothing, and the receipts from his quest are likely to be in the nature of a small Klondike find. Some tobacco, a few bushels of beans, some coffee, flour and fat meat, with the game he kills, furnish him bodily fuel for the season, while he will frequently in a single day secure gum that will net him \$10 in the market. He is independent, too, with his canoe, his snowshoes and his gun. His canoe will be laid up during the winter, but when the rivers open he will bring down his winter's finds. He is not likely, however, to work any too industriously in gum hunting, but rather to make short days, and bushels of beans, some coffee, flour and fat meat, with the game he kills, furnish him bodily fuel for the season, while he will frequently in a single day secure gum that will net him \$10 in the market.
