ALGER TO RESIGN

Report Circulated in Washington Generally Believed.

Strained Condition Between President and Secretary of War Can't Last.

Combination Between Pledge and Alger Cause of Misunderstanding.

Secretary Was Left Out of Conference Between Roosevelt and Chief Executive, Which Excited Comment.

Washington, July 10.—Secretary Alger's days as a member of the cabinet appear to be numbered. There is a report in circulation tonight that his resignation and the appointment of his successor will be announced in a few days, while it is impossible to get direct confirmation of the report, there is high authority for the statement that the present condition of affairs cannot last much longer. The combination, real or alleged, between Secretary Alger and Pledge, is the cause of the troubles. The president's dissatisfaction with him dates from the time the combination was arranged. Relations between the two have been strained to the breaking point, and Secretary Alger, having only within the last day or two become aware of the president's attitude, has determined to resign. It is understood the president has not yet asked Secretary Alger for his resignation.

Since Roosevelt's visit to the president Saturday there has been a good deal of comment over the fact that the secretary of war was not asked to participate in the conference which concerned the army appointments, and there is every indication that this opened the secretary's eyes. The fact is that the president has practically ignored Alger since the secretary returned from his Michigan trip, and has been himself the real secretary of war. The cabinet, it is understood, backs McKinley in his present attitude, and though the president will hesitate long before demanding Alger's resignation, it is believed that Alger will relieve the situation by resigning.

ACCIDENT TO TEACHERS' TRAIN FOR LOS ANGELES

Two Ladies Killed and Thirteen Injured in a Collision.

Newman, Cal., July 10.—A special train loaded with teachers for the national educational convention at Los Angeles ran into a freight train early this morning with the result that two ladies were killed and thirteen injured, one most severely. The killed are Mrs. Lena Hammond, of Seneca Falls, N. Y., and Mrs. Addie Harris, of St. Louis.

KIDNAPPING IN CUBA.

Havana, July 10.—Following the kidnapping of Gutierrez Cells, a rich Spaniard of Cristobal, by bandits, comes the report from Bajual that a band, under the leadership of Marino Rodriguez, a Spanish ex-guerrilla, has kidnapped Julio Alonzo Angulo, a rich Cuban planter, and is holding him for ransom.

DEATH IN NEW ORLEANS.

New Orleans, July 10.—Louis H. Hastings, of Wilmington, Del., said to be a well-to-do man of that city, was found dead in bed here today.

Go to Mrs. L. A. Johnson's to furnish your house. She will give you half price back for what you buy from her if returned within six months.

SENATOR GALLINGER TO BE ARRAIGNED

Soliciting Campaign Funds in Violation of Civil Service Law.

Concord, N. H., July 10.—Senator Gallinger will be arraigned tomorrow before Commissioner Harlan, of the United States civil service commission, charged with having violated the civil service law in having sent out to federal office-holders, while he was chairman of the state committee, specifying certain sums to be contributed to the campaign fund. The penalty which may be imposed upon Senator Gallinger, if he is convicted, is \$5,000 fine, or three years' imprisonment, or both.

SCHOONER WRECKED IN MACHIAS BAY, MAINE

Passengers and Crew Have Not Yet Been Heard From.

Machias, Me., July 10.—The schooner Ida S. Hull, hailing from Barnstable, Mass., went ashore early this morning on Camp Island, in Machias bay, and it is feared that the fifteen persons on board, passengers and crew, have all perished. The steamer Frank Jones had heard cries in the direction of Camp Island, and a party was sent from Jonesport to locate the trouble. Wreckage of the schooner was found, but no trace of the crew. It was reported late tonight that the crew had possibly escaped from the hull and had landed at Roque Bluff, but confirmation of the report has not been received.

FIRE IN NEW ORLEANS.

New Orleans, July 10.—Fire destroyed Dan Shea's boarding house and some surrounding party in Carrollton at an early hour this morning. After the flames were subdued, the charred remains of William A. Odsifer were found in the ruins. Odsifer was a paper hanger and decorator. The property loss is \$6,800.

BASEBALL GAMES YESTERDAY

At Boston— R. H. E.

The best stoves for the money at Mrs. L. A. Johnson's. They are O. K.

SHOT DURING A REVIVAL

Cousin of Ex-Secretary of Treasury Killed Former Nashville Man.

Dallas, Tex., July 10.—Professor Wm. Lipscombe, principal of the Dallas high school, was shot to death in the First Christian church tonight by John T. Carlisle, formerly chief janitor of the school. A revival was in progress at the time, and the invitation hymn was being sung when the shooting occurred. Lipscombe died in the church a short time after the shooting. Carlisle, who is a cousin to the ex-secretary of the treasury, blamed Lipscombe for his failure to secure a reappointment as janitor.

GOOD ROADS ASSOCIATION

To Defray Expenses of Buncombe Representatives.

At a meeting of the directors of the Good Roads association, held yesterday, Chairman R. J. Gaston, Commissioners Woodard and Ashworth, Superintendents Powers and Britain, of the convict force, and Road Supervisors Cowan and Clark were invited to attend the good roads institute to be held at Charlotte, commencing today, at the expense of the Good Roads association. These gentlemen will be accompanied by John A. Roebling, vice president of the association, and President John A. Nichols, of the board of trade.

It is likely that President Loughran, of the Good Roads association, will join the delegation before the adjournment of the institute. The association was very much gratified because of its ability to defray the expenses of the gentlemen, as the step, it is believed, will result in something valuable and practical to the object of the organization. Buncombe will be represented at the institute in a manner altogether satisfactory to the people of the county generally. The party will leave today.

BOARD OF EQUALIZATION.

Assessment on Biltmore Estate More Than a Million.

The board of equalization met yesterday in the court house to consider the valuation placed upon property by the assessors of the county township. Chairman Gaston presided and J. E. Dickerson served as secretary. Leicester township showed a considerable decrease, which will have to be made good, but the other sections showed an increase in values. The records have not been completed, but it is certain that the Asheville township will make a satisfactory showing.

It is said that the assessments on the Biltmore estate will pass the million mark.

GENERAL WOOD HAS RETURNED TO SANTIAGO

Ordered Yellow Fever Headquarters Moved Into the Mountains.

Santiago, July 10.—General Wood arrived here today and immediately took heroic measures against the yellow fever, which he found worse than he had expected. He ordered the headquarters moved to Songo, a pleasant mountain village, twenty miles north of Santiago. The situation is better in the camp, but there are many new cases in the city.

NATURAL GAS EXPLOSION.

Altoona, Pa., July 10.—An explosion of natural gas in Laughman & Co.'s colliery at Chromfeld today resulted in loss of lives and serious injury to three miners. One of the injured will probably die. The explosion shattered window glass in town. This is the first mine accident of this character ever reported in Pennsylvania. A fall of slate uncovered a natural gas pocket, and the gas became ignited from a miner's lamp.

RED CROSS LINER WRECKED.

Halifax, N. S., July 10.—The Red Cross liner Portia has been wrecked in the Big Fish Shoal ten miles from here and abandoned. Her passengers were landed on Sambro island, where they are now awaiting rescue.

NEGRO DECLINES POSTOFFICE.

Montgomery, Ala., July 10.—The president appointed Jack Bishop, a negro, to be postmaster at White Oak, a village in eastern Alabama, a few days ago. Bishop knew that his acceptance would breed trouble, and promptly declined the appointment. He had not applied for the place.

GOV. TYLER A CANDIDATE.

Richmond, July 10.—Governor Tyler confirms the statement that he will be a candidate against Mr. Thomas Martin for the senate. This he gives out officially from his country home at Potoski, where he is spending his vacation.

TAYLOR HAS ENOUGH VOTES PLEDGED HIM

Forces Against His Securing Republican Nomination for Governor.

Lexington, Ky., July 10.—Preparations have all been made for the republican state convention which convenes here Wednesday. While Attorney General Taylor has more than enough votes pledged to nominate him on the first ballot, influences are at work today to get him off the track, due to the opposition of democrats who are against Goebel, and of negro republicans. The negroes threaten to vote for Goebel if Taylor is nominated, while the democrats will put up a third ticket.

M'KINLEY APPOINTS LIEUTENANT-COLONELS

These Officers for the Volunteers Are All Veterans.

Washington, July 10.—The president has appointed the following lieutenant colonels of volunteers: Major J. F. Bell, assistant adjutant general of volunteers now serving in the Philippines. He was appointed from Kentucky to West Point in 1874. He went to Manila with Merritt and has had charge of the bureau of military information.

Captain Herbert H. Hergeant, who was colonel of the Fifth Immune regiment during the war with Spain. He was appointed to West Point from Illinois.

Captain John B. Breerton, of the Twenty-fourth infantry. He was appointed from New Jersey to West Point and graduated in 1877, since which time he has been with the Twenty-fourth infantry. He was in the battle of San Juan hill and highly recommended for coolness and bravery.

Captain E. H. Plummer, of the Tenth Infantry. He was appointed to West Point from Maryland in 1873. During the Spanish war he was on duty in Cuba as brigade quartermaster at the headquarters of the Fifth corps.

Captain Plummer is recommended for brevet for gallantry in action at Santiago.

TWO REGIMENTS ASSURED.

Washington, July 10.—General Otis cables the following: "Two veteran regiments are assured. Will enlist about one thousand. You can appoint eleven second lieutenants for the first and nine for the second regiment to recruit in the United States; all other offices are filled. The regiments are styled First and Second Philippine-United States veteran volunteer infantry."

Adjutant General Corbin cabled General Otis that these designations could not be allowed for the Philippine regiments, and in order to save confusion they will be called the Thirty-sixth and Thirty-seventh United States volunteer infantry.

DISCOMFORTS OF THE RAINY SEASON.

Manila, July 10, 8 A. M.—It has been raining and storming almost constantly for two days and the country along the American south and bay lines is literally flooded. The soldiers are suffering great discomfort.

The Thirtieth infantry, at Pasay, is in the worst position, being practically surrounded by water. The bridges that were used for supplies have been washed away, and some of the companies are now separated by streams six feet deep. In many cases the men are sleeping with three feet of water beneath their bunks, which are elevated on cracker boxes. The company cooks when preparing the meals stand knee deep in water. Some of the roads leading to Pasay are simply impassable, and the rice fields on all sides are one great lake. A high wind blew over several tents of the second reserve hospital.

Manila bay is impossible of navigation by either launches or canoes and no vessels are leaving the harbor.

The United States transport Centennial is ready to sail for San Francisco with discharged soldiers, but the latter have to sit around the water front all day, drenched to the skin, waiting for a launch to take them to the steamer.

The river Pasig and all the other streams are swollen, and the city streets at low points are covered with water.

SPANIARDS QUITTING CUBA.

City of Mexico, July 10.—Spaniards formerly in business in Havana and other Cuban cities are now arriving here looking for investments and say that by October fully \$30,000,000 of Spanish capital will have been withdrawn from the island, for Spaniards of wealth do not ant to risk a long period of political unrest and possible coming into power of professional Cuban politicians.

FOR BANTAM CHAMPIONSHIP.

New York, July 10.—A fight between "Pedlar" Palmer and Terry McGovern to decide the bantam championship of the world was practically arranged. Dr. Ordway signed articles on behalf of Palmer to face McGovern before the West Chester Athletic club about the first of September, but Harris, McGovern's manager, withheld his signature for a few days to give the other clubs chance to bid. The West Chester club guarantees a purse of \$10,000 and an additional percentage, and its offer will doubtless be accepted by Harris.

MORGAN'S OPINION

Says it is Time for Conservatism to Rule.

Even if it Goes to the Length of Throwing Bryan Over.

The Kind of Man to Nominated in Order to Bring Harmony.

Needn't be an Ardent Silver Man But Must be Prepared Not to Veto a Free Coinage Bill.

Washington, July 10.—Senator Morgan, of Alabama, one of the most ardent free silver democrats in congress, is evidently convinced that the time has arrived when conservatism must rule his party, so that all sections of democracy can be welded together even at the expense of throwing Bryan overboard.

"I fear very much," said Morgan, "that the democratic party of the east and the north cannot be brought into harmony with the party of the south and west until we have a candidate who is recognized for his wisdom and willingness to follow the instructions of his party, when his party has power to issue instructions through legislation."

Morgan said his idea of bringing about harmony was to nominate a man who was willing to say to the party something like this: "When my party is able in congress to pass a free coinage bill I will not veto it, but will permit it to become a law. Whatever my own opinion may be, I believe the combined wisdom of my own party in congress is better than mine."

"The man who will make such an announcement and live up to it could easily," continued Senator Morgan, "be elected by democrats to the presidential office. Then if the people saw fit in their respective districts to elect advocates of the free coinage of silver, we should have it."

Morgan instanced Cleveland's vetoing of the silver bill in 1894 as a deplorable incident. Morgan believed the man could be found who would so follow the will of his party, and that that was the only way this great question could be settled. He could name several such men but that was not in his province.

"Common sense and loyalty," said Senator Morgan, "are better factors in making a good administration than too high a degree of what is known as statesmanship."

DEMOCRACY MIXED.

New York, July 10.—The democratic situation is becoming rather mixed. Today ex-Governor Stone, of Missouri, did not call on Van Wyck, as was expected, but ex-Governor Hogg, of Texas, and Willett, of Alabama, did. It is said that while Stone says Bryan is the only possible candidate, he would prefer the nomination himself. Today he gave out an interview that he was not after the chairmanship of the national committee and that Senator Jones would continue to serve. Van Wyck would say nothing about his talk with Hogg and Willett, but it was learned that Hogg and Stone, too, would desert Bryan if such a step proved advisable.

BROTHER OF CZAR DEAD.

St. Petersburg, July 10.—Grand Duke George, brother of the czar, is dead. He was born April 27, 1871, and has been in ill-health a number of years from consumption.

Corn Cure.

We prepare two excellent corn remedies, one a salve, price 10 cents, the other a liquid, price 25 cents.

Both give satisfaction, but we specially recommend the liquid as being easier and more cleanly of application.

Turnip and Ruta Baga Seeds: We carry the best grades only, and sell at reasonable prices.

All in
..Your
Eye.

Is a saying expressive of imaginary trouble. It is more probable that the real trouble will be all in the eyes. This is an age of defective eyes, but not so much of serious eye trouble as before the extensive use of glasses. Statistics show that blindness has decreased over 50 percent, since the advent of glasses for the correction of complicated optical defects. We give them a scientific examination free of charge.
