

CAR STRIKE A FAILURE

Brooklyn Lines Running Nearly Full Complement.

Serious Rioting in Outlying Districts of the City.

Policeman, Motorman and Conductor Were Wounded.

Ring Leaders of Mob Arrested—Cars Run on Most of the Lines Until Midnight.

Brooklyn, July 18.—The strike on the trolley roads is virtually over. The company has been steadily increasing its service of cars today, and this evening fully 80 per cent were running on schedule time. After nightfall the strikers, who had been comparatively quiet throughout the day, began to attack the cars with stones and all sorts of missiles at a number of points, especially in the outlying districts. Several cars were partly wrecked and the motormen and conductors were roughly handled.

The most serious demonstration occurred on the Third avenue line. While a car was passing through a tough neighborhood obstructions were thrown on the track, compelling the car to stop. It was immediately surrounded by a crowd of several hundred who pelted it with stones, breaking the windows and wrecking it generally. The policeman guarding the car was struck on the mouth with a brick and knocked to the ground, where he was set upon and badly beaten. The motorman was roughly handled. His arm was broken and he was otherwise injured. A rock thrown by the strikers struck the conductor, cutting his head open. All three were seriously injured that they had to be removed to the hospital. A reserve force of police was quickly dispatched to the scene, and by a free use of clubs quickly drove away the mob. The ringleaders were arrested. The police have orders to disperse all assemblages and prevent crowds from gathering in secluded places. Cars will be operated on nearly all of the lines until midnight.

ELEVATED RAILROAD STATION BLOWN UP

Brooklyn, Wednesday, July 19, 2 A. M.—Some unknown person at 1 o'clock this morning placed an explosive at the base of the pillars supporting the elevated station at Fifth avenue and Thirty-fifth street and exploded them. The station was blown almost to pieces.

THE ROAD BLOCKED.

Brooklyn, July 19.—Two heavy explosions startled half of Brooklyn at 1 o'clock this (Wednesday) morning. It was reported at the office of the trolley company a few minutes later that some one had placed a bomb under the structure of the elevated road at Fifth avenue and Thirty-seventh street, and that the structure had been wrecked. This would completely block the running of the entire road.

HARRISON'S REFUSAL

To Attend National Committee Meeting—Will Committee Change Rules?

Chicago, July 18.—Just what Bryan will say tomorrow concerning Mayor Harrison's refusal to attend the meeting of the national democratic committee is one of the problems here tonight. Altgeld believes that Harrison, in refusing to attend, made the greatest political mistake of his life. Harrison's friends think otherwise.

Talks with prominent democrats here today show that the majority of the democrats of Illinois firmly believe in a reaffirmation of the Chicago platform. They are convinced that Harrison is playing with Gorman, Croker and Murphy.

Friends of Bryan are demanding that the committee abolish the unit rule, the rule requiring candidates to be nominated by a two-thirds vote and that credentials be refused to all who either bolted the candidates or the platform of 1896.

GOEBEL GOES TO CHICAGO TO GET BRYAN'S AID

Kentucky Candidate Wants to Combat a Prevailing Belief.

Louisville, Ky., July 18.—Goebel, candidate for governor of Kentucky, with a number of his followers, leave tomorrow for Chicago, where the democratic national committee will meet.

The object of Goebel going to Chicago is to persuade Bryan to come to Kentucky to make at least one speech for him. Goebel wishes to force Bryan to do this, in order that he may have material with which to counteract the belief that he is the Kentucky agent of the McLean-Croker-Gorman combine to overthrow Bryan. The Courier-Journal, Goebel's supporter and organ, this morning announced that this would be one of the objects of the visit of the Kentucky candidate to Chicago.

M'LEAN SAYS HE IS NOT OPPOSED TO BRYAN

Dayton, O., July 18.—The following letter was printed in the Evening News today:

"Narragansett Pier, July 12. "J. H. Dowling, Esq., Dayton, O.: "My Dear Dowling: I cannot imagine how any man can think I am against Mr. Bryan after the public declarations of my paper, the Cincinnati Enquirer. "I write you this letter so that you may show it to anybody that you wish, and I hope you will show it, as I feel that I have the friendship of Mr. Bryan and that he has mine. Very respectfully, J. R. M'LEAN."

PERISHED IN ALASKA.

Seattle, July 18.—The steamer Roanoke which arrived here from St. Michael's reports that twelve members of the steamer Elk expedition to Kotzebue perished at various points along the trail between Selawick and Koyukuk rivers. The deaths were due to starvation, scurvy, and frost. Among them was P. V. Vetter of Stratton, Pa.

THE DREYFUS CASE.

Paris, July 18.—In legal circles it is considered that the Dreyfus case is not likely to last more than ten or fifteen days and that it will all be over long before the end of August. The attempt on the part of M. Quesnay de Beaurepaire, formerly a justice of the court of cassation to bring in outside matters will be blocked, and the court martial, acting in accord with the government, will probably confine its attention to the bordereau as directed by the supreme civil tribunal.

OPPOSED TO SENATOR HOAR.

Boston, July 18.—The republican state organization is looking about for another candidate for the United States senate when Senator Hoar's term shall expire next year. The organization is a unit in favor of supporting the McKinley administration, and feel that it is for the good of the party in this state that the senior senator should not be re-elected.

There is nothing so annoying to glass wearers as to have a "break" and not get it repaired quickly, or after one gets it to find it improperly done. We make a specialty of "hurry up" repair jobs. We know instantly just how to go at every break or kink in a frame or to duplicate a broken lens quickly and properly. Experience and "the know how" enable us to make everything as good as new. TO DO AWAY WITH WAR

White Instructed to Sign Treaties at The Hague.

Whereby Nations May Settle Differences Peaceably.

The Three Most Important Schemes for Arbitration.

Provisionally Agreed to by the Delegates of the Various Countries Represented at the Congress.

Washington, July 18.—Secretary Hay today cabled instructions to Andrew D. White, chairman of the American delegation at The Hague, to sign treaties arranged by the disarmament commission for the establishment of means whereby nations may settle their differences without recourse to arms.

This action of the secretary followed the receipt from White of a despatch giving a synopsis of the treaties, three in number, which have been provisionally agreed to by the delegates of the various countries.

The most important of these relates to the adjustment of differences between nations by peaceable means. Three schemes are defined. The first relates to mediation by neutral powers, the second provides for the establishment of an international court of inquiry and the third for a permanent arbitration tribunal.

TWO DEAD, SIX WOUNDED, IN A FAMILY FEUD

Fierce Conflict in Kentucky Following the Killing of a Boy.

Manchester, Ky., July 18.—Aaron Morris and Hugh Griffin are dead and William Griffin, Mart Griffin, Ed Fisher, Robert Philpot and Grauville Philpot, and George Philpot are badly wounded, and some of them may die, as the result of a fight yesterday between Morris and the Griffins on one side, and the Philpots and Fisher on the other. The fight was the result of the killing of James Philpot a son of Grauville Philpot. Since the killing of young Philpot there has been danger of a collision.

THE SHAMROCK WINS AGAINST THE BRITANNIA

Finishes Forty Miles Course 13 Minutes Ahead of Prince's Yacht.

Southampton, July 18.—At Solent today the Britannia-Shamrock race caused great interest. The course was about forty miles. The Prince of Wales arrived at Southampton at 11 o'clock wearing a yachting suit and immediately embarked on board the admiralty yacht Fire Queen, which landed him on Britannia's deck. Both yachts were admirably handled, but the Shamrock had a clear advantage throughout and gained on every tack to windward. She finished thirteen minutes ahead of the Britannia.

A TRAITOR IN THE CABINET

Incendiary Letter to Cubans Alleged to Have Been Written.

Havana, July 18.—A circular was recently distributed in the province of Matanzas calling upon Cubans to arm themselves against the Americans. The document was signed "Betancourt." Little attention was paid to it until yesterday when the Havana press began to discuss its authorship.

La Lucha intimates that Gen. Betancourt was behind it. This was ridiculed. Today General Brooke was informed that a member of his cabinet was the author. Brooke has ordered an investigation. If it is proven it was issued by a cabinet minister the results will be serious for the accused. He is now on leave of absence, and it is reported on good authority that he will not return, owing to Brooke's dissatisfaction with his work. Brooke's order abolishing the incomunicado system was signed today.

FIGHT BETWEEN MATAAFANS AND MALIETOANS IN SAMOA

Warships Land Men to Arrest the Chiefs—Tripartite Commission.

Apia, July 11, via Auckland, July 18.—There was fighting between Mataafans and Malietoans at Satafa on July 4, and three chiefs were killed. The British warship Tauranga and the German warship Cormoran sent landing parties ashore who arrested the three chiefs responsible for the trouble. The prisoners were brought to Apia for trial. The tripartite commission is holding sessions at Savaii and Upolu. They return to Apia on the 12th and leave for Washington.

Chief Justice Chambers will take leave of absence on July 14. His return is regarded as improbable. Dr. Solf, German representative, asserts that he will become acting chief justice upon Chambers' departure. Though Mataafa recognizes the abolition of his kingship some of his followers are raising funds to contest the question at law.

STOLE WINE AND DRANK IT; THE WINE WAS POISON

Three Negroes Dead and Four Desperately Ill.

Montgomery, Ala., July 18.—Stolen wine robbed three negroes of their lives in Barbour county and perhaps four others have paid the penalty by this time. A negro baseball club from this city went to Eufaula last Saturday to play a negro team near that place. After the game the visitors were entertained at a dancing party by the home club and one of the members of the latter organization, thinking to add to the hospitality of the occasion, stole what he believed to be a bottle of wine from the drug store in which he served as porter. He was generous with the contents of his bottle and before the evening closed several negroes were writing in the agonies of acute poisoning. The bottle contained wine of colchicum and was so labeled. At last accounts three of the negroes were dead and the other four were desperately ill.

HOPEFUL FOR PEACE

Encouraging Information on Philippine Situation.

Cable Dispatch From Denby Laid Before the Cabinet.

Negotiations That Take No Cognizance of Aguinaldo.

Reports Regarded as a Refutation of the Round Robin Accusations of the Reporters.

Washington, July 18.—Much gratification was expressed at the cabinet meeting today over encouraging information about the Philippine situation contained in a cable report to Secretary Hay from Commissioner Denby. He told of negotiations now being conducted by the Americans with representative Filipinos, looking to the establishment of peace throughout the archipelago. No reference to Aguinaldo is made, but it is shown by the phraseology of the message that the natives with whom the negotiations are being carried on are working to bring about peace without consulting the wishes of Aguinaldo.

Coming as it did, synchronously with the so-called round robin of the newspaper correspondents at Manila, the president and his advisers found additional cause for gratification in Denby's despatch. They regard it as a refutation of the allegations of the newspaper men and as confirming their belief in the military and administrative ability of General Otis. The round robin was barely mentioned at the cabinet meeting. It can be stated on the authority of three members of the cabinet that the administration will ignore the round robin.

RUSH ORDERS FOR MUNITIONS INTENDED FOR PHILIPPINES

Chattanooga, July 18.—On rush order from the war department 200 horses and mules and 50 escort wagons were shipped from the Chickamauga quartermaster's depot to San Francisco today by special train to be forwarded at once to Manila.

CENSORSHIP CRITICISED.

London, July 18.—The afternoon papers generally in commenting on the protest of American correspondents in Manila against the censorship denounced the conduct of the American Philippine campaign as managed by Secretary Alger and General Otis. The St. James Gazette says: "The great American people have been hoodwinked by its general and its administration, who have kept up a series of suppressions of the truth and suggestions of facts that would do credit to Russian ingenuity and thoroughness."

CUBANS HELD BY SPANIARDS.

Washington, July 18.—Acting on the representation of Senor Quezada, the Cuban representative here, Secretary Hay has instructed Minister Storer at Madrid to call the attention of the Spanish government to the provisions of the treaty of peace regarding the release of political prisoners and requests the liberation of the Cubans now confined at Ferdinand Po and other Spanish prisons. The number of Cubans still held in confinement by Spain is estimated at twenty. It is supposed that the failure of the United States, by reason of the insurrection in the Philippines, to secure the release of Spaniards held by the insurgents, is somewhat responsible for the delay of Spain setting free the Cubans.
