**WEYLER REBUKED**  
For Hinting at a Revolutionary Uprising in Spain.

Remarkable Speech in the Cortes by Former Governor General.

Outbreak Coming With the Object of Saving the Country.

Minister of Interior Declares That Anybody Attempting to Defy Government Will be Treated Severely.

Madrid, July 26.—General Weyler, in the course of the debate on the senate bill fixing the strength of the army today, alluded to the recent riotous demonstrations in Barcelona. Weyler declared that a revolution might accomplish the regeneration of Spain. He declared that the country had been passing through a crisis since the death of Castillo. He said he would do all he could to uphold the discipline of the army, but he thought an outbreak was coming with the object of saving the country as it was saved by Serrano's revolution.

The minister of the interior, replying warmly, rebuked Weyler for hinting at a military uprising. He declared that anybody attempting to defy the government would be severely dealt with.

**DEFEATED SPANISH GENERALS.**  
Toral and Others May Receive Life Sentence.

Madrid, July 26.—The military prosecutor at the trials of Generals Toral and Jaudenes, which will begin at the end of the current month, will demand that both be imprisoned for life and lose all rank, honors and pensions, the former for having surrendered Santiago and the latter for capitulating to the Americans at Manila.

It is stated that neither general will appear in court, but will await the verdict in prison.

**GEN. LEE'S GOOD WORK.**  
Washington, July 25.—According to Colonel E. M. Hayes, who has recently been appointed colonel of one of the new regiments, the president expresses the highest appreciation of the services of Gen. Fitzhugh Lee as military governor of the province of Havana. Colonel Hayes only recently returned from Cuba, where he served on General Lee's staff. Colonel Hayes called at the white house to express his thanks to McKinley for his appointment. It was on leaving the executive mansion that he uttered the remarks: "It is the fact that no one is held in higher regard by the president than Fitz Lee. He asked me all about him and said that he knew of no more efficient official in the service of the country."

"I know Lee myself and since with him in Cuba he has shown a quality that the country never thought he possessed and that is as an executive officer. Since he has been in charge of the province of Havana there has never been a complaint. He has quickly restored order and given the people the most liberal government of any province in the island. While serving under a republican administration he has never surrendered his principles and is now a democrat of the old school."

**RECONSTRUCTION WORK IN CUBA**  
Cuban Soldiers All at Work in Pinar del Rio—A Dry Rainy Season.

Havana, July 26.—Advices from Pinar del Rio received by General Brooke state that the reconstruction of that province is progressing rapidly. The Cuban soldiers are all at work and good order prevails. The prospects of the tobacco crop are excellent. All agricultural reports are favorable, although some crops are suffering for lack of rain. Although now the rainy season is present the season is the driest for years. Havana thus far has had no more rain than often falls in the United States at this same time of the year.

Gomez, in an interview, says the \$3,000,000 donated by the United States will not be sufficient to pay all the soldiers on the supplementary lists.

**SEVENTY WITNESSES SUMMONED FOR DREYFUS**  
Several Prominent Frenchmen Among the Number.

Paris, July 26.—It is reported that Major Carriere, who will represent the government at the trial of Dreyfus at Rennes, has summoned seventy witnesses to appear and give evidence at the coming court martial. Among these witnesses, according to the report, are five ex-ministers of war, ex-Major Esterhazy and Mme. Pays, who was Esterhazy's mistress.

The preparations for the trial are being briskly carried out. Telephone wires are being fixed between the room in which the court will sit, the prefecture and the headquarters of the gendarmes.

Officers who are on leave of absence have been ordered to rejoin their commands by August 4. Orders have been issued for the men belonging to the territorial army, whose annual training takes place at Rennes, to assemble forthwith, so that the training will be finished before the commencement of the trial.

The police arrangements have been already drafted. The streets adjacent to the court room will be closed to traffic during the progress of the trial.

**SAMOAN COMMISSION TO FORM NATIVE POLICE**  
Germans Accused of Inciting Uprising Acquitted.

Berlin, July 26.—The National Zeitung announced today, apparently from an official source, that the Samoan commission will establish a native police force of fifty Maletians and fifty Matafians, under control of an English and German lieutenant, respectively, the whole force to be under the superintendency of an American. The commission has acquitted the Germans, Hufnagel and Marquardt, accused of inciting the natives to the recent revolt, it not being possible to sustain the charges. They are now claiming damages.

**BONES OF A HUGE LIZARD**  
Omaha, Neb., July 26.—The scientific expedition to the fossil fields of Wyoming has discovered the bones of a bron-tosaurus. This is a huge lizard, a genus of the American dinosaur of the Jurassic period.

It is thought this is one of the companions of the one discovered in Wyoming, and restored in 1891 by Prof. C. M. Marsh. If such is the fact, this great reptile must have been in life more than 70 feet long and weighed upward of 80,000 pounds.

One of these monsters whose remains have been discovered in Wyoming, measured nearly 130 feet in length and about 35 feet in height at the hips. Its skeleton weighed more than 40,000 pounds.

**CRETANS NOW RULE CRETE.**  
Candia, Crete, July 26.—The government of the island of Crete has been formally handed over to the Cretans by the British authorities, the British flag being finally lowered. The emigration of Mussulmans continues.

**GOVERNOR APPOINTED**  
By Otis to Take Control of the Island of Negros.

Women Warned by Governor General Not to Come to Manila.

Transports With Returning Troops Making Ready to Leave.

**ENLISTING VOLUNTEER REGIMENTS IN THE PHILADELPHIA—A FIGHT WITH BANDITS.**  
Manila, Wednesday Evening, July 26.—General Smith has been appointed military governor of the island of Negros. General Otis sent a despatch yesterday advising that women do not come to Manila. The despatch does not indicate any dangerous development of the situation, but is simply prompted by the unfavorable climatic conditions and unavoidable difficulties and discomforts attendant upon existing circumstances. Many American women, who have been here for several months, are now going home.

Washington, July 26.—The war department received three messages from General Otis today. One reports another engagement with bandits in Cuba, in which the American forces were victorious. The second is as follows: "Bell has enlisted about 500 men. Wallace is still in the south and has about 400. Lockett is now enlisting and has over 400 applications, which are coming rapidly. Might raise here an additional regiment, exclusively volunteers."

Colonel Bell is in command of the Thirty-sixth infantry and Colonel Wallace the Thirty-seventh. Colonel Lockett will command the cavalry regiment to be raised in the Philippines.

The third despatch says: "The storm has abated. The Sherman has coaled; leaves today with all the troops of California. The Grant is being coaled, and leaves in about four days with the troops of North Dakota, Wyoming and Idaho. The Minnesota boys are preparing to leave on the Sheridan as soon as the transport is unloaded and coaled. Other volunteer organizations will leave as soon as transports are available."

**THE SHERMAN SAILS.**  
Manila, July 26.—The transport Sherman sailed for San Francisco tonight, having on board the California volunteers.

**THE KENTUCKY POPULISTS**  
Gathering for Their Convention Today—The Candidates.

Frankfort, Ky., July 26.—The advance guard of the populist state convention, which meets tomorrow to name a full state ticket, arrived here tonight.

There are three candidates for the gubernatorial nomination—Representative Lackey, J. G. Blair and A. H. Cadin.

The convention will be the largest in the history of the state. Delegations from each of the 119 counties have been selected. Among the noted populists arriving tonight was Wharton Baker, of Philadelphia, the "middle of the road" populist candidate for president in 1900. He was accompanied by the former populist candidate for governor, J. Parker.

**BIG RANSOM PAID.**  
Paris, July 26.—A French engineer named Chevalier, and his wife, who were captured a while ago by Turkish brigands, have been ransomed by the Porte, which paid \$15,000 Turkish for their release. When they were captured a soldier, who was accompanying them, tried to defend them, and was promptly shot. Yagaki, the brigand chief, has now sent \$500 to the soldier's widow.

**HIGH SEAS ON CHILEAN COAST.**  
Valparaiso, July 26.—Tremendous seas swept the Chilean coast off Antofagasta yesterday, putting communication between shipping and the shore out of the question. A steam launch, in endeavoring to put the foreign mails on board a vessel in the bay, shipped a heavy sea and was swamped. The boiler burst and four men were drowned.

**RAIN AT HENDERSONVILLE.**  
Our Hendersonville neighbors have at least had some rain. The showers which have lately visited Asheville from time to time had to a great extent avoided that section of the country, and the almost uninterrupted dry weather prevailed there until Tuesday night threatened great injury to the crops.

**CLEVELAND AN ARMED CAMP**  
Desultory Rioting in All Parts of City—Busy Night for Soldiers.

Cleveland, July 26.—Since nightfall there has been desultory rioting in all parts of the city. A conductor of a Euclid avenue car at 10 o'clock tonight shot Frank Weight through the leg. Weight is a striker and attacked the conductor.

The soldiers had a busy night dispersing crowds. Some of them had to be repeatedly charged. Five men were brought to the hospitals suffering from bayonet wounds. Forty-four arrests of rioters were made for the day.

Mobs continue to stone and obstruct cars and roughly handled the crews. The city is an armed camp tonight. On every mile of street on which railway cars are operated is patrolled by soldiers and police, and all the cars contain soldiers or policemen.

At 11 o'clock tonight a car was ambushed on Case avenue. It passed through a perfect rain of bullets but the aim was bad and no one was injured.

**A BRUTAL ASSAULT IN WASHINGTON**  
Eight Negroes Under Arrest on Serious Charges.

Washington, July 26.—Eight negroes have just been captured by the police of this city for a crime committed a week ago which for brutality and atrociousness has never been equaled in Washington. The victim of the crime is Mrs. Dora Linkins, a young white woman. Mrs. Linkins attended a circus last Wednesday night in the southwestern part of the city and started for her home about 11 o'clock. She was accompanied by James Giles, a freight brakeman, and in passing near the James creek canal they were attacked by a gang of negroes. Four of them caught Giles, dragged him to a vacant lot, beat him into insensibility and robbed him. Six others seized Mrs. Linkins, knocked her down and stifled her cries. They then carried her into the high weeds on the commons, where she became unconscious.

Giles, on regaining consciousness and finding that his assailants had turned their attention to Mrs. Linkins, called loudly for help. His cries were responded to by several policemen, who hurried to the scene, but the negroes fled in the darkness and escaped. Giles and Mrs. Linkins were assisted to their homes. Yesterday George Nelson, a negro special policeman, secured information that he believed would lead to the arrest of the men. A negro named Barry was arrested and admitted his guilt. He declared that each of his nine companions had feloniously assaulted Mrs. Linkins. He furnished the police with the names and eight of them were arrested.

In the police court this afternoon the men were given a hearing on a charge of rape. Mrs. Linkins positively identified Pendleton as one of her assailants. They were all held for the grand jury on the charge against them, and four were held on the additional charge of highway robbery.

**SILVER THE ISSUE**  
Bryan Says it Should Not be Subordinated to Any Other.

This in Order to Prevent an Exodus to the Populist Party.

He Thinks an Anti-Expansion Plank Will Catch German Voters.

**THE SILVER LEADER CONFERS WITH INDIANA DEMOCRATS AND DISCUSSES THE PROSPECTS.**  
Indianapolis, July 26.—William J. Bryan arrived this evening. He was given a demonstration, the Marion county democrats turning out to meet him. A number of prominent democrats from other portions of the state were present. Those who conversed with Bryan say he is very decided in his silver views that silver should not be subordinated to any other issue. He declared that on any other issue the democrats would lose largely to the populist party.

Bryan held a reception at his hotel. Among the callers were a number of state senators, representatives and judges, and after the reception Chairman Martin, of the state central committee, conferred with Bryan. But few were admitted to the conference. It was learned, however, that Bryan regarded the outlook for the party much better than three years ago. He is confident the question involved in the acquisition of new territory will bring many German votes to the democratic party who left it in 1896 on account of silver.

**PRESIDENT M'KINLEY LEAVES WASHINGTON**  
For a Vacation on the Shore of Lake Champlain.

Washington, July 26.—President and Mrs. McKinley left Washington this afternoon for Hotel Champlain, near Plattsburgh, N. Y. In the party were Miss Duncan, the president's niece; Dr. Rixley, the president's physician, and his wife, and Private Secretary Cortelli. The train is due to arrive at Plattsburgh tomorrow.

The presidential train arrived at Jersey City over the Pennsylvania road at 9 o'clock tonight. A West Shore locomotive was attached and the train started for Albany.

**REFORMATORY SHIP BURNED.**  
Liverpool, July 26.—The Roman Catholic reformatory ship Clarence was destroyed by fire this morning. Intense excitement prevailed but hundreds of lads and officers were saved by ferryboats. The boys worked with discipline until forced to leave with the officers. The captain's family and Bishop White-side, who spent the night on board, lost their personal effects. The crew of the ferryboat Mersey made a narrow escape. This is the second Catholic reformatory ship of the same kind burned on the Mersey river. Its predecessor was fired by the boys on board.
