The Greenville Reflector says that Greenville warehousemen are disgusted with the proposed tobacco warehouse trust and declined to extend the time of options as requested by Mr. Sid Woodard. Mr. Woodard spent two days in Kinston making efforts to secure an extension of options on some of the Kinston warehouses, but we understand that the owners declined to grant any extension. We are glad to learn this and hope we shall hear no more of the warehouse trust.—Kinston Free Press.

A very peculiar case of drowning is reported from Hadley township. One day last week the family of Jordan Emerson, colored, left home for a short while and left two children, one about two years old and the other ten months old, at home shut up in the house. When the family returned the younger child was dead—drowned in a tub of water which was in the house. We have learned that the coroner, Dr. A. I. H. Lutterloh, held an inquest over the body. The coroner's jury decided that there had been foul play, but they could not locate the perpetrator of the crime. The child left with the baby was too small to have done such a deed. Who would be so heartless as to take the life of a nine-month-old helpless child?—Pittsboro Citizen.

Mr. George Yount, of Claremont, while in Newton Monday gave us reports on some very good wheat crops. His own crop yielded him 981 bushels. Mr. Noah Hewitt made 1,873 bushels; Mrs. A. M. Hewitt 1,476 bushels and Mr. Ed Little 456 bushels. These crops were all right in the same neighborhood, within a short distance of Claremont. Some people say there were more very poor crops in the county this year than for many years, and, taking the county as a whole, there was not more than 60 per cent. of an average yield. This Kodol Dyspepsia Cure cures dyspepsia because its ingredients are such that it can't help doing so. F. M. Howell, who lives in the "state of Wilkes," about two miles above Elkin, was showing in the Times office Tuesday a pig which is certainly a curiosity. The pig was born on Tuesday morning and lived a few hours. It had two well developed heads, three eyes (one on each side of the heads and one in the centre, the one in the centre had a double pupil), two mouths, two noses, four nostrils, two ears and four feet. It breathed through all of its nostrils, and belonged to a family of ninepigs, all of which lived. A number of people saw the pig and will vouch for the truth of the above facts. Mr. Howell used to own a steer that gave milk, mention of which several years ago in the Times caused dealers in snake tails, like Bob Deal, to become credulous.—Elkin Times.

Saturday evening, while out hunting James Holt and Andy Eliege came upon the site of a late "moccasin" arrangement in Pig's Eye Cove. It seems from what they say (Holt and Eliege) that the parties had moved their illicit distillery to some more convenient point.
